Annual Comprehensive Financial Report

STATE OF DELAWARE
DEPARTMENT OF FINANCE
OFFICE OF THE SECRETARY

RICHARD J. GEISENBERGER
SECRETARY OF FINANCE

January 27, 2022
To the Citizens, Governor, and
Members of the Legislature of the
State of Delaware:

It is my pleasure to present the Annual Comprehensive Financial Report (ACFR) for the State of Delaware (the State) for the fiscal year ended June 30, 2021. This report has been prepared in accordance with U.S. generally accepted accounting principles (GAAP) applicable to state and local governments, as prescribed by the Governmental Accounting Standards Board (GASB). The State continues to follow the recommendations of the Government Finance Officers Association of the United States and Canada (GFOA) for the form and content of government financial reports and participates in the GFOA's program for the Certificate of Achievement for Excellence in Financial Reporting.

Responsibility for both the accuracy of the data, as well as the completeness and fairness of the ACFR's presentation, rests with the Department of Finance. The management of the Department of Finance has established a comprehensive framework of internal control to provide a reasonable basis for asserting that, to the best of our knowledge and belief, the information presented is accurate in all material respects and fairly sets forth the State's financial position and results of operations in accordance with GAAP. All disclosures necessary to enable the reader to gain an understanding of the State's financial activities are included.

The report is presented in these sections: introductory, financial, and statistical. The introductory section includes this transmittal letter, a list of selected State officials, the State's organizational chart, and the GFOA Certificate of Achievement. The financial section includes the independent auditors' report, management's discussion and analysis (MD&A), basic financial statements, notes to the basic financial statements, and required supplementary information. The statistical section includes selected financial, demographic, and economic information.

GASB Statement No. 34, Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments, requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of an MD&A. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The State's MD&A can be found immediately following the report of the independent auditors.

PROFILE OF THE GOVERNMENT

The State is located on the eastern seaboard of the United States and is bordered by the Atlantic Ocean, the Delaware Bay and the states of New Jersey, Pennsylvania and Maryland. The State is 96 miles long and has a land area of 1,955 square miles. Population estimates from the U.S. Census Bureau in July 2019 indicate over 973,000 people reside here. As the first state to ratify the United States Constitution on December 7, 1787, the State of Delaware is known as "The First State." The structure of the State's government, which is similar to other states, consists of three branches that operate through a system of checks and balances. The executive branch is comprised of the Governor, Lt. Governor, State Treasurer, State Auditor, Attorney General and Insurance Commissioner. The legislative branch is bicameral and consists of a 21-member Senate and a 41-member House of Representatives. The judicial branch includes the Supreme Court, Superior Court, Court of Chancery, and other courts.

The State's reporting entity reflected in the ACFR, which is described more fully in Note 1 to the basic financial statements, conforms to the requirements of GASB Statement No. 61, The Financial Reporting Entity: Omnibus and amendment of GASB Statements No. 14 and No. 34. The objective of this Statement is to improve financial reporting for a governmental financial reporting entity, to better meet user needs and to address reporting entity issues that have arisen since the issuance of Statements No. 14 and No. 34. Consequently, the transmittal letter, MD&A, and the financial statements focus on the primary government and its activities. Although information pertaining to the discretely presented component units is provided, their separately issued financial statements should be read to obtain a complete overview of their financial position.

The State budgets and controls its financial activities on the cash basis of accounting during its fiscal year. In compliance with State law, the State records its financial transactions in either of two major categories - the budgetary general fund or budgetary special funds. References to these funds include the terms "budgetary" or "budgetary basis" to differentiate them from the GAAP funds of the same name which encompass different funding categories. GAAP fund definitions for accounting purposes differ from those of the budgetary basis. General and special funds are fully explained in Note 1 to the basic financial statements.

The budgetary general fund provides for the cost of the State's general operations and is credited with all tax and other revenue of the State not dedicated to budgetary special funds. All disbursements from the budgetary general fund must be authorized by appropriations of the General Assembly.

Budgetary special funds are designated for specific purposes. The appropriate budgetary special fund is credited with tax or other revenue allocated and is charged with the related disbursements. Examples of specific uses of budgetary special funds include the Transportation Trust Fund, which collects some of its revenue through motor fuel taxes and tolls. Federal payments, unemployment compensation and local school funds are examples of nonappropriated special funds. Some special funds, such as the Delaware State Housing Authority and the State Pension Office, contain both appropriated funds for operations and non-appropriated funds for specific programs, such as public housing and pension benefits.

Federal funds, which are credited to budgetary special funds, are not appropriated, but are subject to the review and approval of the State Office of Management and Budget and the Delaware State Clearinghouse Committee for Federal Aid Coordination. The Committee is comprised of 10 members, including the Secretary of Finance, Director of the Office of Management and Budget, Director of the Division of Small Business, Development and Tourism, the Controller General, and six legislators.

Budgetary Control and Financial Management Systems

Disbursements are controlled by an encumbrance accounting system, via purchase orders, designed to provide information on the actual extent of the State's obligations and guard against over-committing available funds. Appropriations are reduced immediately when purchase orders are issued for goods and services. The total amount of budgetary general fund cash disbursements, plus unliquidated encumbrances, cannot exceed the amount appropriated by the General Assembly for any specific budgetary line items by department. Internal controls prevent State organizations from spending beyond budgetary limits and statutory requirements described in the Budget and Accounting Manual (the BAM), which dictates the process for handling cash, assets, the use of credit cards, payroll, procurement, budgeting and approvals over all financial transactions. (See Notes to Required Supplementary Information for more details.)

The majority of the State's financial transactions are processed through the statewide accounting system, which is a comprehensive, enterprise-wide financial system. However, certain special funds have financial activity external to that system, such as the Delaware Transportation Authority, the Delaware State Housing Authority and Delaware State University. This activity is governed in strict adherence to legislative regulations and guidelines established by their boards. In addition, these entities are audited annually and produce published financial reports.

Budget Process

Each fall, State organizations submit requests for operating and capital funds for the next fiscal year to the Office of Management and Budget and public hearings are held to review the requests. The Governor's proposed operating and capital budgets for the general fund and special funds, including the Transportation Trust Fund, are then drafted and presented by the Governor to the General Assembly in January. The General Assembly's Joint Finance and Joint Capital Improvement Committees hold hearings and mark up the Governor's proposed operating and capital budgets. As amended, the budgets are expected to be enacted on July 1.

Appropriation Limit

The State Constitution limits annual appropriations by majority vote of both houses of the General Assembly to 98% of estimated budgetary general fund revenue plus the unencumbered budgetary general fund balance from the previous fiscal year. An exception to this limit may be made in the event of a declared emergency, with the approval of a three-fifths vote of the members of each house of the General Assembly. No appropriation may be made which exceeds

100% of estimated budgetary general fund revenue plus the unencumbered general fund balance from the previous fiscal year.

Tax Limitations

The State Constitution was amended in May 1980 to limit tax and license fee increases or the imposition of any new taxes or fees to a three-fifths vote of each house of the General Assembly, rather than by a simple majority vote. An exception exists for tax increases to meet debt service on outstanding obligations of the State for which insufficient revenue is available when such debt service is due.

ECONOMIC CONDITION AND OUTLOOK

Delaware's economy, like the nation's, has rebounded strongly from the pandemic-inspired recession. To be sure, by many measures it has not regained pre-COVID levels, but given the significant uncertainty and economic disruption occasioned by the pandemic, the rapid recovery has been better than could have been expected a year ago. At the trough, in April 2020, Delaware had lost almost 70,000 jobs, almost 15% of the total. More than three-quarters of those jobs have since been regained. The transportation, warehousing and utilities industry has outperformed all others—due to Delaware's mid-Atlantic location and strong transportation network, the sector now employs 10% more people than its pre-pandemic high. The construction and professional and business services industries, both important contributors to the State's economy, have also recovered all their lost jobs. Delaware's most critical industry, finance, is now 3.7% lower than its pre-pandemic high, slightly better than the State's overall 4.1% drop off. Delaware ranks 28th in terms of employment compared to the pre-pandemic peak, though better than neighboring New Jersey and Pennsylvania and only slightly lagging Maryland. At 5.3% in September 2021, Delaware's unemployment rate is half a point behind the national rate although more than half a point ahead of all of its neighbors.

Delaware per capita personal income grew by 4.3% in 2020 to just over \$56,000, 94.3% of the nationwide level. Wage income grew very slightly, at 0.5%; virtually all of the growth in Delaware personal income was from transfer payments, which increased by 24% due to various government programs to ease the impact of the pandemic. With a reversion to more normal levels of transfer payments, personal income declined in the second quarter of calendar year 2021, although wages and salaries reached record levels.

The housing market has, if anything, been strengthened by the pandemic, following national trends. Prices have appreciated strongly and permits remain elevated, driven by several demographic factors—nationwide, household formation is proceeding at a rapid clip after slowing dramatically due to the Great Recession, while Delaware is among the top states for immigration as a percent of the population. These factors are not expected to reverse any time soon, though increased supply may temper the growth in prices. While pandemic-related risk and uncertainty continue, Delaware's economy is well-positioned moving forward.

Delaware has targeted statutory and tax policy changes to encourage financial sector development and to retain important employers. The competitiveness of Delaware as a business location and the success of the State's policies are illustrated by recent accomplishments including:

- Amazon announced four facilities in the last year, including two last-mile centers and 1,000 new jobs at the site of the former General Motors assembly plant in Wilmington, which began operating in September 2021.
- Barclays expanded its U.S. headquarters in Wilmington and will add 323 new jobs.
- Goldman Sachs added 150 consumer banking jobs in Wilmington in 2021.
- Shoreline Vinyl and Delaware Corrugated Packaging are locating nearly 300 new manufacturing jobs in the Dover area.
- Incyte is adding a third building to its headquarters campus to consolidate an additional 400 employees on-site.
- WuXi STA, a leading contract development and manufacturing organization (CDMO), will build a new pharmaceutical manufacturing campus in Middletown, slated to open in 2024 with 479 new jobs and capital investment of \$510 million in the initial phase.
- Hologic, a Fortune 1000 medical technology company primarily focused on improving women's health through early detection and treatment, will expand its Newark operations adding 225 new jobs and \$24 million in investments.

MAJOR INITIATIVES AND LONG-TERM FINANCIAL PLANNING

Delaware completed the fiscal year ending June 30, 2021 with a General Fund cash surplus of \$874.0 million, resulting in an ending General Fund cash balance of \$1,770.3 million after a \$63.1 deposit into the Budget Stabilization Fund. The funded ratio of the Delaware State Employee Pension plan reached 89% on an actuarial basis. Delaware retained its AAA bond rating in 2021 and secured historically low interest rates on capital improvement bonds. These results demonstrate Delaware's commitment to maintaining fiscal stability and managing taxpayer resources in a sound manner, which is carried out through structured processes and initiatives.

Revenue and Expenditure Forecasting

The Delaware Economic and Financial Advisory Council (DEFAC), an entity created by executive order in 1977, is comprised of a minimum of 25 members from the executive and legislative branches of State government and the private sector, as appointed by the Governor. DEFAC submits revenue and expenditure forecasts for the Budgetary General Fund and the Transportation Trust Fund to the Governor and the General Assembly regularly throughout the fiscal year. These forecasts are meant to ensure compliance with State constitutional limits on spending authority so future expenditures do not exceed expected revenues. In addition, revenue forecasts near year-end for the next fiscal year are utilized to calculate the corresponding statutory debt limits.

DEFAC prepares revenue estimates five times each fiscal year in October, December, March, May and June for the current fiscal year and the succeeding two fiscal years. A revenue forecast for the current fiscal year and the succeeding four fiscal years is generated once each year, generally in October. In addition, budgetary general fund expenditure forecasts are

generated for the current and succeeding fiscal years and transportation trust fund expenditure forecasts are generated for the current fiscal year in October, December, March, May and June.

Additionally, DEFAC advises the Governor and General Assembly on economic conditions in the State and advises the Governor and the Secretary of Finance on tax policy. Executive Order No. 4, signed by Governor Carney in February 2017, established the Government Efficiency and Accountability Review (GEAR) Board to identify, on an on-going basis, cost savings and continuous improvement opportunities across state government. DEFAC meetings, as well as GEAR meetings, are open to the public and provide a forum for members of the public and private sectors to exchange views on matters of economic and fiscal concern for the State.

On June 30, 2018, Governor Carney signed Executive Order No. 21, which implements key recommendations of a DEFAC advisory panel tasked with studying potential fiscal controls and a budget stabilization fund. The directive requires DEFAC to calculate an advisory benchmark index that is used to calculate an advisory benchmark appropriation and help policymakers determine sustainable levels of base budget growth. The benchmark index consists of equal weightings of the 3-year average of i) Delaware personal income growth and ii) Delaware population growth and the Implicit Price Deflator for State and Local Government Purchases. The Executive Order also directs the Office of Management and Budget to recognize for reporting and planning purposes a Budget Stabilization Fund, to complement the State's Budget Reserve Account, and to allocate to that fund the unencumbered general funds forecast at the end of the current fiscal year in excess of the two percent set-aside. The fiscal year 2020 Budget Bill established and each subsequent Budget Bill has maintained a separate Budget Stabilization Fund as a special fund holding account, and requires the unencumbered general fund balance at the end of each fiscal year in excess of the two percent set-aside be transferred into the fund. Funds in the account require an act of the General Assembly to enable appropriation and spending authority.

Implement an Integrated Revenue Administration System (IRAS)

The Delaware Department of Finance, Division of Revenue (DOR) is responsible for collecting more than \$2.2 billion in annual state taxes, processing \$300 million of tax refunds, ensuring compliance with the State's tax laws and providing assistance to taxpayers. The Division of Revenue's current technology is over 25 years old, is mainframe based, and consists of over 100 client server applications. IRAS implementation will fully modernize DOR's process systems to create a web-based, real-time, and integrated user experience that automates processing capabilities, optimizes the efficiency and effectiveness of DOR staff, and strengthens security and internal controls. IRAS will improve DOR's ability to mitigate fraud and will increase revenue with new audit programs and better technology to assist with the collection of delinquent taxes. The project will also create numerous opportunities for improved efficiency and taxpayer service through collaboration with other state and local agencies.

Governor Carney and the General Assembly approved funding for the project in the Fiscal Year 2020 budget and a contract was awarded in July 2019. Release 1 went live in late 2020, incorporating business related taxes such as licensing fees, gross receipts taxes, commodities taxes such as alcohol and cigarettes, and so-called "Trust Fund Taxes" which are

taxes due to the state that are collected through third parties such as personal income tax withholding, realty transfer taxes, lodging taxes and public utility taxes. Personal income and corporate income taxes will be implemented through additional releases in 2022 and 2023.

INDEPENDENT AUDIT

The accounting firm of CliftonLarsonAllen, LLP has audited the State's basic financial statements for the fiscal year ended June 30, 2021. Based upon that audit, the independent auditor has issued an unmodified opinion that the State of Delaware's basic financial statements are presented fairly, in all material respects, in conformity with GAAP. Their report on the basic financial statements has been included in the financial section of this ACFR.

The State Auditor of Accounts performs periodic financial and compliance audits of the various State departments, agencies and institutions of higher education and has primary responsibility for conducting audits under the Office of Management and Budget Uniform Grant Guidance. Results of these audits may be found in separately issued audit reports and may be obtained by contacting the Office of Auditor of Accounts, Townsend Building, 401 Federal Street, Dover, Delaware 19901.

CERTIFICATE OF ACHIEVEMENT

The Government Finance Officers Association of the United States and Canada (GFOA) awarded the Certificate of Achievement for Excellence in Financial Reporting to the State of Delaware for its ACFR for the fiscal year ended June 30, 2020. The Certificate of Achievement is a prestigious national award that recognizes conformance with the highest standards for preparation of state and local government financial reports. In order to be awarded a Certificate of Achievement, a government unit must publish a timely, easily readable, and efficiently organized annual comprehensive financial report that conforms to program standards. The report must comply with both generally accepted accounting principles and all applicable legal requirements.

A Certificate of Achievement is valid for a period of one year. The State has received a Certificate of Achievement for the last 26 consecutive years (fiscal years 1995 - 2020). We believe that this year's report continues to conform to the Certificate of Achievement program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

ACKNOWLEDGEMENTS

The Department of Finance takes great pride in the preparation of this Annual Comprehensive Financial Report. I wish to express my sincere appreciation to the many individuals whose dedicated efforts have made this report possible. This report could not have been accomplished without the professionalism and dedication demonstrated by the Division of

Accounting and the financial and management personnel of each State agency, component units, and all other organizations within the reporting entity. This report is also available on the internet at: <https://accounting.delaware.gov/reports-transparency>.

Sincerely,

A handwritten signature in dark ink, reading "Richard J. Geisenberger". The signature is written in a cursive style with a prominent "R" and "G".

Annual Comprehensive Financial Report

INDEPENDENT AUDITORS' REPORT

The Honorable Governor and
Honorable Members of the State Legislature
State of Delaware

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Delaware (the State), as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the State's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of certain agencies and component units of the State, which represent the indicated percent of total assets and deferred outflows of resources and total revenues as presented in the table below. Those financial statements were audited by other auditors, whose reports thereon have been furnished to us, and our opinion, insofar as it relates to the amounts included for those funds and component units, is based solely on the reports of the other auditors.

Opinion Unit	Entity	Percentage Audited by Other Auditors	
		Assets and Deferred Outflows of Resources	Revenues
Governmental Activities	Sustainable Energy Utility, Inc.	1.1%	0.2%
Discretely Presented Component Units	Delaware State Housing Authority, Diamond State Port Corporation, Riverfront Development Corporation, Delaware State Foundation, Delaware Charter Schools, and Delaware Agricultural Lands Preservation Foundation	83.0%	70.9%
General Fund	Sustainable Energy Utility, Inc.	3.6%	0.4%
Aggregate Remaining Fund Information	Delaware Public Employees' Retirement System and Delaware Other Postemployment Benefits Fund Trust	99.0%	92.7%

The Honorable Governor and
Honorable Members of the State Legislature
State of Delaware

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State as of June 30, 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

During the fiscal year ended June 30, 2021, the State adopted Governmental Accounting Standards Board (GASB) Statement No. 84, *Fiduciary Activities*. As a result of the implementation of this standard, the State reported a restatement for the change in accounting principle (see Note 1-b). Our auditors' opinions were not modified with respect to the restatement.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information as listed in the accompanying table of contents (collectively referred to as RSI) be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

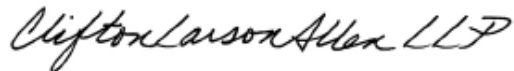

The Honorable Governor and
Honorable Members of the State Legislature
State of Delaware

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State's basic financial statements. The introductory section, supplementary information and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplementary information, as listed in the table of contents, is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, based on our audit and the report of other auditors, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

STATE OF DELAWARE

Management's Discussion and Analysis

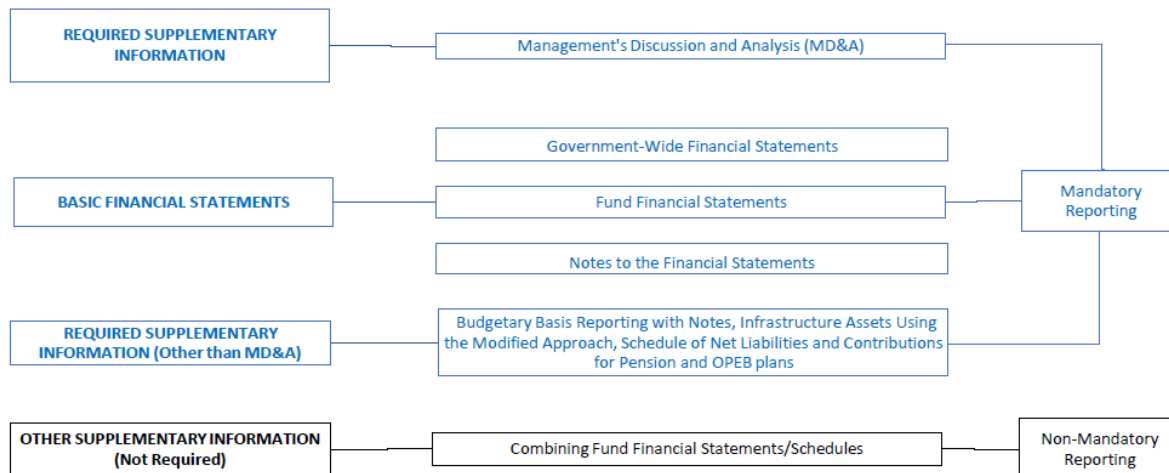

As management of the State of Delaware (the State's), we offer readers of the State's financial statements this narrative overview and analysis of the financial activities for the State's fiscal year ended June 30, 2021. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages i-viii of this report.

Financial Highlights

- The liabilities and deferred inflows of resources of the State exceeded its assets and deferred outflows of resources at the close of the most recent fiscal year by \$1.6 billion (net deficit). (Table 1 on page 9)
- The State's total net position increased by \$253.4 million when compared to the previous year's ending net position. The net position for governmental activities increased by \$40.0 million (0.7%) and the net position for business-type activities increased \$213.4 million (5.7%) as a result of the current year operations. (Table 2 on page 10)
- The State's governmental funds reported combined ending fund balances of \$3.2 billion, an increase of \$539.9 million (20.2%) in comparison with the prior year balance. Of this amount, \$1.2 billion or 35.8%, is the unassigned fund balance.
- The State's total general obligation debt increased \$52.0 million during fiscal year 2021 to \$2.2 billion. Of the State's outstanding general obligation debt, \$512.4 million (22.9%) has been issued on behalf of local school districts, which is supported by the property tax revenues of those districts. In addition, the State has \$1.2 billion in outstanding revenue bonds with \$57.9 million for energy conservation projects and \$1.1 billion for transportation projects. (Table 4 on page 17)

Overview of the Financial Statements

This annual report consists of a series of financial statements and supplementary information. The financial section of this report includes the following:

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the State's operations, in a manner similar to a private-sector business.

- **Statement of Net Position**

The *Statement of Net Position* reports the difference between the State's assets and deferred outflows of resources and liabilities and deferred inflows of resources as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the State is improving or deteriorating. In evaluating the State's overall condition, however, additional nonfinancial information should be considered, such as the State's economic outlook, population, employment, and the condition of its capital assets and infrastructure.

- **Statement of Activities**

The *Statement of Activities* presents information showing how the State's net position changed during the most recent fiscal year. All of the current year's revenues and expenses are taken into account, regardless of when cash is received or paid. As a result, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the State as follows:

- **Governmental Activities**

The majority of the State's services fall into this category, which includes general government, health and children's services, judicial and public safety, natural resources and environmental control, labor, and education. These services are primarily supported by taxes and intergovernmental revenues.

- **Business-type Activities**

Transportation, Lottery and Unemployment Insurance are the State's business-type activities. These operations are intended to recover all or a significant portion of their costs through user fees and charges. The state operates certain activities similar to private-sector businesses by charging fees to customers to recover all or a significant portion of their cost of providing goods and services.

- **Discretely Presented Component Units**

Certain organizations are legally separate from the State; however, the State remains financially accountable for them. These entities include the Delaware State Housing Authority, the Diamond State Port Corporation, the Riverfront Development Corporation, Delaware State University, the Delaware Agricultural Lands Preservation Foundation, and 23 charter schools. Financial information for these component units is reported separately from the financial information presented for the primary government.

The government-wide financial statements can be found on pages 20 - 21 of this report.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The State, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The State's funds can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

- **Governmental Funds**

Most of the State's basic services and expenditures are reported in governmental funds, which focus on how money flows into and out of these funds as well as the balances remaining at year end that are available for spending. Governmental fund financial statements are narrower than government-wide financial statements and focus on near-term inflows and outflows of available resources, as well as on balances of available resources on hand at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

The State's governmental funds include the general, federal, local school district, and capital projects funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balance for these funds.

The basic governmental funds financial statements can be found on pages 22 - 25 of this report.

The combining schedule for the local school districts that reflects the local school district fund can be found on pages 166 - 169 of this report.

The State budgets and controls its financial activities on the cash basis of accounting. In compliance with State law, the State records its financial transactions in either of two major categories – the General Fund or the Special Fund. References to these funds in this report include the terms “budgetary” or “budgetary basis” to differentiate them from the GAAP funds of the same name which encompass different funding categories. The State adopts an annual appropriated budget for its budgetary general fund and special fund. A budgetary comparison schedule has been provided for the budgetary general fund and special fund to demonstrate compliance with the budget. The schedules can be found on page 141 of this report.

- **Proprietary Funds**

These funds are utilized when the State charges customers for providing services, whether they are provided to outside customers (enterprise funds) or other State agencies and other governments. Proprietary Funds provide the same type of information as the government-wide financial statements, but in more detail. The proprietary fund financial statements provide separate information for the Lottery, Unemployment Insurance Trust Fund, and the Delaware Department of Transportation (DelDOT), all of which are considered to be major funds of the State.

The basic proprietary fund financial statements can be found on pages 26 - 28 of this report.

- **Fiduciary Funds**

The State uses fiduciary funds to account for resources held for the benefit of parties outside of the government. Fiduciary Funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the State's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. These funds are used where the State holds assets in trust or as an agent for others, including the pension and other post employment benefits trust funds and custodial funds.

The basic fiduciary fund financial statements can be found on pages 29 - 30 of this report. The combining fiduciary and custodial fund statements can be found on pages 162 - 165.

Reconciliation between Government-wide and Fund Statements

By comparing governmental funds to government-wide financial statements, readers may better understand the long-term impact of the government's near-term financial decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues,

expenditures, and changes in fund balance provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

This report includes two schedules that reconcile the amount reported on the governmental funds financial statements (modified accrual accounting, short term focus) with government-wide financial statements (full-accrual accounting, long-term focus). The following summarizes the major differences between the two statements:

- Capital outlay spending results in capital assets on the government-wide financial statements, but is reported as expenditures on the governmental funds financial statements.
- Bond proceeds provide current financial resources on the governmental fund statements, but issuing bonds increases long-term liabilities on the government-wide statements. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.
- Long-term obligations related to Pensions and Other Post-Employment Benefits (OPEB) results in certain liabilities on the government-wide financial statements, but not on the government funds statements as those financials focus on the near-term inflows and outflows of spendable resources.
- Expenses not requiring the use of current financial resources are reported as expenditures in the government-wide financial statements but not in the governmental funds financial statements.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 33 - 137 of this report.

Required Supplementary Information

In addition to the basic financial statements and accompanying notes, this report presents certain Required Supplementary Information (RSI) concerning the status of the State's legally adopted budget, the maintenance of the State's infrastructure and additional schedules related to funding status and progress, and required schedules of liability and contributions for the State's pension and OPEB trusts. The RSI can be found on pages 138 - 160 of this report.

Statewide Financial Analysis

Government entities are required by GAAP to report on their net position. The *Statement of Net Position* presents the balance of all the State's assets and deferred outflows of resources, and of

it's liabilities and deferred inflows of resources, with the difference between them reported as net position.

The following table (Table 1) was derived from current and prior-year government-wide statements of net position:

Table 1
Net Position as of June 30, 2021 and 2020
(Expressed in Thousands)

	Governmental Activities		Business-type Activities		Total	
	2021	2020	2021	2020	2021	2020
Assets:						
Current and other assets	\$6,405,943	\$5,132,825	\$996,640	\$578,008	\$7,402,583	\$5,710,833
Capital Assets	3,741,190	3,732,338	5,296,743	5,127,213	9,037,933	8,859,551
Total Assets	10,147,133	8,865,163	6,293,383	5,705,221	16,440,516	14,570,384
Deferred Outflows of Resources	2,566,357	1,117,794	163,735	93,738	2,730,092	1,211,532
Liabilities:						
Long-term Liabilities						
Outstanding	14,099,183	11,819,060	2,035,938	1,641,033	16,135,121	13,460,093
Other Liabilities	2,718,242	2,142,710	331,712	306,481	3,049,954	2,449,191
Total Liabilities	16,817,425	13,961,770	2,367,650	1,947,514	19,185,075	15,909,284
Deferred Inflows of Resources	1,463,712	1,640,259	146,475	121,888	1,610,187	1,762,147
Net Position:						
Net Investment in						
Capital Assets	1,044,571	1,112,434	3,990,855	3,982,683	5,035,426	5,095,117
Restricted	1,364,108	1,213,827	363,147	221,693	1,727,255	1,435,520
Unrestricted Deficit	(7,976,326)	(7,945,333)	(411,009)	(474,819)	(8,387,335)	(8,420,152)
Total Net Position	<u>\$(5,567,647)</u>	<u>\$(5,619,072)</u>	<u>\$3,942,993</u>	<u>\$3,729,557</u>	<u>\$(1,624,654)</u>	<u>\$(1,889,515)</u>

Total assets of the governmental activities increased \$1.3 billion, with \$1.1 billion of increased cash and investments. \$924.6 million of the increased cash and investments is the amount received from the federal government for the American Rescue Plan Act (ARPA), with the remaining \$199.7 million as a result of increased tax revenues. Total liabilities of the governmental activities increased \$2.9 billion due to an increase in the OPEB liability of \$2.1 billion as a result of the decreased discount rate and \$0.7 billion of increases in payables, escheat liabilities and advances from the federal government. Escheat claims continue to increase resulting in the increased liability and the advances from the federal government increased with the receipt of the ARPA funds.

The net position deficit of governmental activities of \$5.6 billion for fiscal year 2021 (Table 1), is due to the liabilities related to Pension and OPEB, which total \$10.7 billion. The State expects to fund these liabilities with future resources.

The following table (Table 2) derived from the current and prior year government-wide Statement of Activities:

Table 2
Changes in Net Position - Primary Government
For the Fiscal Years Ended June 30, 2021 and 2020
(Expressed in Thousands)

Net Position - Beginning of Year, as restated	(5,607,629)	(5,912,725)	3,729,557	3,870,212	(1,878,072)	(2,042,513)
Net Position - End of Year	<u>\$ (5,567,647)</u>	<u>\$ (5,619,072)</u>	<u>\$ 3,942,993</u>	<u>\$ 3,729,557</u>	<u>\$ (1,624,654)</u>	<u>\$ (1,889,515)</u>

The State implemented GASB Statement No. 84 during fiscal year 2021. The provisions of GASB 84 required the State to update its agency funds to custodial funds. As a result, some agency funds were determined to be governmental activities. Fiscal 2020 amount for governmental activities reported above have not been restated to reflect this change in accordance with the standard.

Governmental Activities

Since fiscal year 2021, the net position for governmental activities has increased by \$40.0 million from the prior fiscal year (Table 2). The State's total expenses for governmental activities exceeded total revenues by \$232.5 million, offset by transfers from the proprietary fund of \$272.4 million. Total expenses for governmental activities increased \$2.8 billion from the prior year with an increase of \$1.4 billion for the General Government, \$0.7 billion for Health and Children's Services and \$0.4 billion for Educations. Much of the increase was due to pandemic related expenditures with \$0.8 billion the direct result of the State's aid from the Coronavirus Aid, Relief and Security (CARES) Act with an additional \$0.7 billion from other increased federal grants. In addition, increases in the OPEB and escheat expenses of \$0.6 billion resulted from the increased liabilities and other Education expenses increases \$0.3 billion due to rising student population and funding for underserved students. Revenues increased \$2.5 billion due to an increase in grant revenues of \$1.4 billion and increased total tax revenues of \$0.8 billion. Grant revenues increased for Medicaid and grants provided in response to the coronavirus pandemic while tax revenues increased as a result of increased personal and business tax collections. The business tax increase was largely the result of increased franchise taxes with the favorable economic conditions for many of the businesses incorporated in the State.

Business-type Activities

Net position of business-type activities increased \$213.4 million during the fiscal year compared to a decrease in the prior year of \$140.7 million.

Charges for services increased by \$188.8 million from the prior fiscal year. Lottery sales increased \$128.7 million from increases across all lottery products since the gaming locations were open the full twelve months during this fiscal year. Increased motor vehicle related revenues due to an increase in vehicle purchases and increased toll revenue with increased traffic volumes increased resulted in an increase in DelDOT revenues of \$43.3 million. Federal grant revenue increased by \$349.9 million as a result of increased federal unemployment insurance benefits.

Operating expenses increased by \$119.1 million from the prior fiscal year. The significant components of this increase were:

- Increased unemployment benefits of \$93.0 million were paid to individuals with the continuation of the increased unemployment rate due to the COVID-19 pandemic. This increase was from the federal benefit supplement as State benefits decreased \$5.3 million and federal benefits increased \$98.3 million.
- Decreased transportation expenses of \$54.7 million resulted from an emphasis on highway infrastructure projects and less on road maintenance throughout the fiscal year.
- Increases in lottery sales during the fiscal year resulted in an increase in commission expense payments to lottery retailers and prize expenses of \$81.0 million.

The Lottery transferred \$262.2 million of gaming revenues to the State, an increase of \$47.9 million from the prior year primarily as a result of the increase in net sales.

Governmental Funds

The focus of the State's governmental funds is to provide information on near-term inflows, outflows, and balances of available resources. Such information is useful in assessing the State's financing requirements. Unassigned fund balances may serve as a useful measure of a government's net resources at the end of the fiscal year.

Fund balance classifications comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in the governmental funds. This is further described in Note 1 and Note 19 of the basic financial statements.

As of the end of the current fiscal year, the State's governmental funds reported combined ending fund balances of \$3.2 billion, an increase of \$0.5 billion over the prior year fund balance.

Of this amount, \$47.4 million is nonspendable (1.5%), either due to its form or legal constraints, \$1.4 billion (42.4%) is restricted for specific programs by external constraints, and \$422.9 million (13.2%) is committed for specific purposes pursuant to constraints imposed by a formal action of the Delaware Legislature. An additional \$143.0 million (4.4%) has been assigned to specific purposes by management. The remaining \$1.2 billion (38.5%) of fund balance is unassigned.

General Fund

The General Fund accounts for the operation and administration of the State. The fund balance increased by \$430.4 million, (25.2%), during the current fiscal year.

Federal Funds

Federal Funds represent pass through grants used for designated purposes. These funds report federal grant revenues and the related expenditures to support the State's grant programs. Total federal fund revenues and expenditures increased by approximately \$1.5 billion. The significant components of these increases included:

- An increase in federal Medicaid matching funds and programs for opioid and other substance abuse increased revenues and expenditures for Health and Children's Services by \$641.3 million.
- Medical supplies and equipment programs for COVID testing and personal protective equipment resulted in increased revenues and expenses for Judicial and Public Safety of \$53.5 million.
- The Enhanced Childcare Reimbursement program developed in response to the pandemic by the Department of Education resulted in \$36.9 million in additional revenues and expenses.
- Pandemic related expenditures, including support to small businesses and not-for-profits resulted increased revenues and expenses for the General Government of \$442.6 million.

Local School District Funds

These funds are used to account for activities relating to the State's local school districts, which are funded by locally raised real estate taxes and other revenues. The fund balance increased by \$73.1 million to \$436.8 million primarily due to increased taxes of \$45.3 million and increased interest and other investment income of \$7.7 million, offset by an increase in expenditures of \$17.3 million to serve the increasing student population.

Capital Project Funds

Capital Project Funds are used to account for the construction and acquisition of capital assets of the primary government. Capital outlay expenditures totaled \$259.4 million in fiscal year 2021, a decrease of \$9.1 million as construction projects slowed due to the pandemic.

Proprietary Funds

The State's Proprietary Funds provide the same type of information found in the government-wide financial statements, but in more detail. The Proprietary Fund financial statements provide separate information for the Lottery, Unemployment Insurance Trust Fund, and the DelDOT Fund, all of which are considered to be part of the primary government and major funds of the State.

Total Proprietary Fund net position increased in fiscal year 2021 by \$213.4 million as a result of operations. Page 11 discusses the changes in net position of the business-type activities.

General Fund Budgetary Highlights

Differences between the original budget and final amended budget, and the final budget and actual expenditures for the year are summarized for the General Fund in the following paragraphs. The budgetary schedule may be found in the Required Supplementary Information Section. (pages 139-143)

Original budget compared to final budget. Overall, the change between the original and final general fund budget was an increase in budgeted revenues of \$817.6 million and an increase in budgeted expenses of \$489.3 million. The increase in budgeted revenues is primarily due to increases for updated revenue estimates available for appropriations as of the last Delaware Economic and Financial Advisory Council (DEFAC) meeting in June 2021. The increase in budgeted expenses is primarily a result of the inclusion of the Grant-in-Aid and Capital budgets, which added \$54.5 million and \$34.9 million, respectively. The remainder of the change is due to prior year encumbrances and multi-year project budgetary carry-forwards from the prior fiscal years.

Final budget compared to actual results. Actual revenues were \$37.3 million higher than budgetary final revenues of \$5.4 billion, due primarily to an increase in business franchise taxes

from a net increase in new corporations during the year and growth of existing companies. Actual expenditures were less than budgeted expenditures by \$498.2 million, or 11.0%. The most significant differences between estimated expenses and actual results were as follows:

- \$181.2 million in lower general government expenses as budgeted projects will be extended over several years;
- \$131.1 million in lower Health and Children's expenses with federal Medicaid providing a larger portion of the costs of care through the pandemic; and
- \$112.9 million in lower education expenses, with remote learning saving operational costs for buildings and transportation.

Capital Assets and Debt Administration

Capital Assets

The State's investment in capital assets for its governmental and business-type activities, as of June 30, 2021, amounted to \$9.0 billion (net of accumulated depreciation). This investment in capital assets includes land, land improvements, buildings, vehicles and equipment, easements, roads, highways, and bridges.

A summary of the State's primary government's capital assets, net of depreciation is as follows:

Table 3
State of Delaware Capital Assets as of June 30, 2021
Net of Depreciation
(Expressed in Thousands)

	Governmental Activities		Business-Type Activities		Total	
	2021	2020	2021	2020	2021	2020
Land	\$ 519,452	\$ 508,381	\$ 376,445	\$ 366,547	\$ 895,897	\$ 874,928
Land Improvements	177,767	175,661	6,187	6,542	\$ 183,954	\$ 182,203
Buildings	2,689,391	2,580,718	159,512	149,967	\$ 2,848,903	\$ 2,730,685
Easements	83,550	83,550	—	—	\$ 83,550	\$ 83,550
Equipment, Vehicles and Computer Software	126,675	172,758	166,173	153,063	\$ 292,848	\$ 325,821
Infrastructure	—	—	4,466,280	4,355,333	\$ 4,466,280	\$ 4,355,333
Construction-In-Progress	144,355	211,270	122,145	95,761	\$ 266,500	\$ 307,031
	<u>\$ 3,741,190</u>	<u>\$ 3,732,338</u>	<u>\$ 5,296,742</u>	<u>\$ 5,127,213</u>	<u>\$ 9,037,932</u>	<u>\$ 8,859,551</u>

The total increase in capital assets for governmental activities was \$8.9 million (0.2%) and the increase for business-type activities was \$169.5 million (3.3%).

Major capital asset increases in the government-type activities during the fiscal year are due primarily to increased spending for school district building facilities. Major capital asset

increases in the business-type activities during the current fiscal year are due to the increased spending at DelDOT for projects including:

- \$16.0 million for pavement reconstruction and to provide a third eastbound through lane on Elkton Road;
- \$8.5 million for the Georgetown East Gateway Improvements project;
- \$8.0 million for construction of a new multi-modal crossing over the Christina River;
- \$6.7 million for additional turn lanes at the I-95/Carr Road/Marsh Road Interchange;
- \$5.0 million to improve safety and reduce congestion at the I-95 and SR896 Interchange;
- \$4.8 million to widen SR 24 to four lines with a center turn lane; and
- \$4.7 million to improve safety and reduce congestion on US 301 in Southern New Castle County.

As allowed by GASB, the State has adopted an alternative process for recording depreciation expense on selected infrastructure assets. Under this alternative method, referred to as the modified approach, the State expenses certain maintenance and preservation costs and does not report depreciation expense. Assets accounted for under the modified approach include 4,587 centerline miles and 844 bridges that the State is responsible to maintain with a total book value of \$4,466.3 million as of June 30, 2021.

It is the State's policy to maintain at least 85% of its highways at a fair or better condition rating and 95% of its national bridge inventory (combined structural and deck ratings) at a fair or better condition rating as follows:

The condition of road pavement is measured using the Overall Pavement Condition (OPC) system, which is based on the extent and severity of various pavement distresses that are visually observed. The OPC system uses a measurement scale that is based on a condition index ranging from 0 for poor pavement to 5 for pavement in excellent condition.

The condition of bridges is measured using the "Bridge Condition Rating" (BCR), which is based on the Federal Highway Administration's Coding Guide, "Recording and Coding Guide for the Structure Inventory and Appraisal of the Nation's Bridges". The BCR uses a measurement scale that is based on a condition index ranging from 0 to 9, 0 to 4 for substandard bridges, and 9 for bridges in perfect condition. For reporting purposes, substandard bridges are classified as those with a rating of 4 or less. The good or better condition bridges are taken as those with ratings of 6 to 9. A rating of 5 is considered fair.

The Department performs condition assessments of eligible infrastructure assets at least every three years.

Of the Department's 844 bridge structures that were rated in 2021, 81.4% received good or better BCR rating, 17.1% were rated fair, and 1.5% received a substandard rating. Of the 8,916,909 square feet of bridge deck that was rated, 63.6%, or 5,671,539 square feet, received an OPC condition rating of good or better, 35.1% received a fair rating, and 1.3% received a substandard deck rating. Of the 4,587 center-line miles that were rated in 2021, 89.0% received a fair or better OPC rating and 10.8% received a poor rating.

For 2021, the estimated and actual expenditures to maintain and preserve the Department's infrastructure were \$398.9 million and \$470.7 million, respectively.

Additional information on the State's capital assets can be found in Note 1 on pages 33 - 49, Note 6 on pages 79 - 81 and pages 144 - 145 in the Required Supplementary Information.

Long-Term Debt

The State uses general obligation debt to finance capital projects. At the end of the current fiscal year, the State had total debt outstanding of \$2.2 billion backed by the full faith and credit of the State. The State's debt burden reflects its centralized role in financing facilities, including school construction projects. As of June 30, 2021, \$512.4 million, or 22.9% of the State's outstanding debt was issued on behalf of local school districts. Local school districts transferred \$66.6 million of property tax revenue to the State to cover related debt service during fiscal year 2021. Due to the State's statutory debt limits and its fiscal management, three principal rating agencies - Moody's Investor's Service, Fitch Ratings Standard & Poor's, and Kroll Bond Rating Agency - reaffirmed their triple-A ratings on the State's general obligation bonds during fiscal year 2021.

The State has no constitutional debt limits. However, in 1991, the State enacted legislation that limits debt issuance with a three-part test as follows:

- A 5% test restricts new debt authorization to 5% of budgetary general fund revenue as projected by the Delaware Economic and Financial Advisory Council (DEFAC) in June for the next fiscal year. For fiscal year 2021, debt authorization was limited to \$227.5 million.
- A 15% test restricts debt issuance if the annual payments on all outstanding debt exceed 15% of estimated budgetary general fund and Transportation Trust Fund Revenue for the next fiscal year. Currently these annual payments represent approximately 6.0% of estimated general fund and Transportation Trust Fund revenues.
- Finally, a cash balance test restricts debt issuance if the debt service payment in any year exceeds the estimated cumulative cash balance for the following fiscal year. For fiscal year 2021, the projected cash balance exceeded debt service.

The following table is a two-year comparison of bonded debt presented for both governmental and business-type activities:

Table 4
State of Delaware Bonded Debt as of June 30, 2021 and 2020
General Obligation and Revenue Bonds
(Expressed in Thousands)

	Governmental Activities		Business-Type Activities		Total	
	2021	2020	2021	2020	2021	2020
General Obligation Bonds	\$ 2,237,808	\$ 2,185,852	\$ —	\$ —	\$ 2,237,808	\$ 2,185,852
Revenue Bonds	57,890	61,410	1,131,590	899,910	1,189,480	961,320
	<u>\$ 2,295,698</u>	<u>\$ 2,247,262</u>	<u>\$ 1,131,590</u>	<u>\$ 899,910</u>	<u>\$ 3,427,288</u>	<u>\$ 3,147,172</u>

On April 28, 2021, the State issued \$290.8 million of general obligation bonds maturing between February 1, 2022 and February 1, 2041. Of the \$290.8 million issued as Series 2021A, \$230 million was issued representing new money, the proceeds of which were used to fund various capital projects as authorized by the General Assembly; and \$60.8 million was issued as refunding bonds, the proceeds of which were used to refund existing bonds for a net present value savings of \$10.6 million, or 13.9% of the principal refunded. The bonds bear coupons between 2.0% and 5.0% and yield between 0.05% and 1.82%.

In addition, the Sustainable Energy Utility, Inc. (SEU) had \$57.9 million of Revenue Bonds outstanding as of June 30, 2021. The SEU bonds support general government initiatives and have been used to finance construction on energy efficient upgrades to facilities in the State, therefore this debt is reflected in the primary government statements as governmental activities. The bonds are secured by appropriations of the State organizations that are participating in the SEU program but are not an obligation of the State.

Debt issued by the Delaware Transportation Authority does not constitute a debt of the State or a pledge of its general taxing power or of its full faith and credit. Rather, the outstanding revenue bonds are obligations of the Authority payable solely from and secured by a pledge and assignment of certain tolls and revenues such as motor fuel tax revenues, motor vehicle document fees and motor vehicle registrations. The Delaware Transportation Authority has revenue bonds outstanding of \$1,131.6 million to support its ongoing capital transportation program which includes \$194.5 million in Grant Anticipation Vehicle Bonds (GARVEEs) to finance a portion of the costs of completing the final design and right-of-way acquisition for a new U.S. 301. The Delaware Transportation Authority also obtained a loan from the Federal Highway Administration (FHWA) to finance construction of the U.S. 301 toll road project, which has an outstanding balance of \$229.6 million as of June 30, 2021.

Additional information on the State of Delaware's long-term debt can be found in Notes 8, 9, and 10 on pages 80 - 95 of this report.

Financial Management

The State's financial management continues to be recognized by the premier credit rating from all four principal rating agencies: Aaa from Moody's Investor's Service, AAA from Fitch Ratings and AAA from Standard & Poor's, and AAA from Kroll Bond Rating Agency. The ratings reflect Delaware's financial management practices that have become institutionalized within the State:

- Expenditure budgeting of 98% of available budgetary general fund revenue;
- Budgetary general fund revenue forecasts that are frequent, objective and often conservative;
- Three-part debt affordability test that limits debt authorization to 5% of budgetary general fund revenue; debt service to 15% of tax supported revenue; and the cash balance test;
- Consistent satisfaction of the State's budget reserve requirement – the State's rainy day fund has never fallen below its mandated 5% of general fund revenue; and
- Adequate funding of its pension plan.

Economic Factors and Next Year's Budgets and Rates

Delaware's economy, like the nation's, has rebounded strongly from the pandemic-inspired recession. To be sure, by many measures it has not regained pre-COVID levels, but given the significant uncertainty and economic disruption occasioned by the pandemic, the rapid recovery has been better than could have been expected a year ago. At the trough, in April 2020, Delaware had lost almost 70,000 jobs, almost 15% of the total. More than three-quarters of those jobs have since been regained. The transportation, warehousing and utilities industry has outperformed all others—due to Delaware's mid-Atlantic location and strong transportation network, the sector now employs 10% more people than its pre-pandemic high. The construction and professional and business services industries, both important contributors to the State's economy, have also recovered all their lost jobs. Delaware's most critical industry, finance, is now 3.7% lower than its pre-pandemic high, slightly better than the State's overall 4.1% drop off. Delaware ranks 28th in terms of employment compared to the pre-pandemic peak, though better than neighboring New Jersey and Pennsylvania and only slightly lagging Maryland. At 5.3% in September 2021, Delaware's unemployment rate is half a point behind the national rate although more than half a point ahead of all of its neighbors.

Delaware per capita personal income grew by 4.3% in 2020 to just over \$56,000, 94.3% of the nationwide level. Wage income grew very slightly, at 0.5%; virtually all of the growth in Delaware personal income was from transfer payments, which increased by 24% due to various government programs to ease the impact of the pandemic. With a reversion to more normal levels of transfer payments, personal income declined in the second quarter of calendar year 2021, although wages and salaries reached record levels.

The housing market has, if anything, been strengthened by the pandemic, following national trends. Prices have appreciated strongly and permits remain elevated, driven by several demographic factors—nationwide, household formation is proceeding at a rapid clip after slowing dramatically due to the Great Recession, while Delaware is among the top states for immigration as a percent of the population. These factors are not expected to reverse any time soon, though increased supply may temper the growth in prices. While pandemic-related risk and uncertainty continue, Delaware's economy is well-positioned moving forward.

Requests for Information

This financial report is designed to provide a general overview of the State's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be directed to the Department of Finance, Division of Accounting, 820 Silver Lake Boulevard, Suite 200, Silver Lake Plaza, Dover, Delaware 19904 or visit our website at <https://accounting.delaware.gov>.

STATE OF DELAWARE
RECONCILIATION OF THE NET CHANGES IN FUND BALANCES -
TOTAL GOVERNMENTAL FUNDS TO CHANGE IN NET POSITION
OF GOVERNMENTAL ACTIVITIES
FOR THE FISCAL YEAR ENDED JUNE 30, 2021
(Expressed in Thousands)

Net Changes in Fund Balances		539,923
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.		
In the current period, these amounts are:		
Capital Outlays	204,732	
Depreciation Expense	(191,468)	
Loss on Disposal of Assets	<u>(4,412)</u>	
		8,852
Change in revenues in the Statement of Activities that do not provide current financial resources and are not reported as revenues in the funds.		7,611
Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. Components of the debt related adjustments consist of:		
Debt Service Principal Repayments (net of sinking fund in the amount of \$72)	165,296	
Payment to Refunding Agent for Principal Repayments	77,033	
New Debt Issued (Face Value)	(290,765)	
Premium Received on General Obligation Bonds	(51,139)	
Amortization of Premiums on Bonds	35,869	
Current Year Gain on Refunding of Debt	(9,391)	
Amortization of Gain on Refunding of Debt	<u>11,538</u>	
		(61,559)
Some expenses reported in the statement of activities do not require the use of current financial resources and therefore, the changes in these liabilities are not reported as expenditures in the governmental funds:		
Accrued Interest Expense	(118)	
Claims and Judgments	728	
Compensated Absences	(28,714)	
Pollution Remediation Obligation	(3,597)	
Change in Pension Liability	(123,260)	
Change in OPEB Liability	(286,566)	
Notes Payable	(12,801)	
Other Liabilities	<u>(517)</u>	
		(454,845)
Change in Net Position in the Statement of Activities		<u><u>\$ 39,982</u></u>

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements of the State of Delaware (the State) have been prepared in conformity with accounting principles generally accepted in the United States (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB).

(a) Reporting Entity

The accompanying financial statements present the State's primary government and include all funds, offices of elected officials, departments and organizations, bureaus, boards, commissions, and authorities that comprise the State's legal entity. Also included in the State's primary government are the State's 16 local school districts and 3 vo-tech schools (collectively referred to as the local school districts). The local school districts have separately elected boards, but they have not been specifically granted power by legislation to be legally separate. Based on the powers and authority granted in Title 14 of the State of Delaware Code, the primary government holds sufficient power and responsibility that the local school districts have been accounted for as not being legally separate and as a result have been reported in the primary government. The financial activity of the local school districts is reported in the General Fund, Local School District Fund (for real estate taxes levied by the schools), Federal Fund, and Capital Projects Fund.

The Delaware Technical and Community College (DTCC) was established by 14 Del. C. 91 as a State organization to operate or make available public institutions of learning for persons who have graduated from high school or who are unable to attend public high schools and offer a 2-year college parallel program or associate degree program. The Governor with the consent of the Senate appoints all seven members of the Board of Trustees. DTCC is considered part of the primary government and its activity is shown in the Education function in the General Fund, Federal Fund, and Capital Projects Fund of the primary government.

The DelDOT enterprise fund is also included in the reporting entity of the primary government. DelDOT has the overall responsibility for coordinating and developing transportation policies for the State along with the maintenance and operation of roadways and bridges that fall under its jurisdiction. To assist DelDOT in their mission, the State and DelDOT created the Delaware Transportation Authority (the Authority), which includes the activities of the Transportation Trust Fund (the Trust Fund) and the Delaware Transit Corporation (DTC). The Authority is a body politic and corporate whose actions are taken by resolution of the Secretary of Transportation, the Director of the Office of Management and Budget, and the Administrator of the Trust Fund. The Authority's principal role is to provide financing to DelDOT and as a result is a blended component unit of DelDOT.

Fiduciary funds, although legally separate entities, are in substance part of the State's operations. The State's reporting entity also comprises its component units, entities for which the State is considered either financially accountable or the nature and the significance of their relationship with the State are such that exclusion would cause the State's financial statements to be misleading. Blended component units are reported within the primary government. Discretely presented component units are reported in a separate column in the government-wide financial statements (see note below for description) to emphasize that such are legally separate from the State.

The decision to include and how to report a component unit in the State's reporting entity is based on several criteria, including legal standing, debt responsibility, fiscal dependency, and financial accountability. The State is financially accountable for legally separate organizations if it appoints a voting majority of the organization's board and (1) it is able to impose its will on that organization or (2) there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on the State. The State may also be financially accountable if an organization is fiscally dependent on the State and there is a potential for the organization to provide specific benefits to or impose specific financial burdens on the State, regardless of whether the organization has a separately elected governing board, a governing board appointed by a higher level of government, or a jointly appointed board.

Blended Component Units

The Delaware Public Employees' Retirement System (DPERS) is a public employee retirement system, which covers substantially all State employees. The DPERS is a legally separate entity. DPERS' Board is comprised of five members appointed by the Governor and confirmed by the State Senate, plus two ex-officio members. It provides services and benefits almost exclusively to the primary government, and it is considered a fiduciary fund component unit and shown in the financial statements as part of the primary government as a pension trust fund. The DPERS financial report for the fiscal year ended June 30, 2021 may be obtained at www.delawarepensions.com or by writing to the State Board of Pension Trustees and Office of Pensions, McArdle Building, Suite 1, 860 Silver Lake Boulevard, Dover, Delaware 19904-2402.

The Delaware Other Postemployment Benefits Fund Trust (OPEB Trust) is a trust which provides retirement medical coverage to pensioners and their eligible dependents in the State's Employees', Judiciary, New State Police, and Closed State Police Pension Plans. The OPEB Trust is a legally separate entity and by legislative code the Board of DPERS serves as the Board of the OPEB Trust. It provides services and benefits almost exclusively to the primary government and its component units and affiliated agencies. The OPEB Trust is considered a fiduciary fund component unit and is shown in the financial statements as part of the primary government as the OPEB Trust Fund. The OPEB Trust financial report for the fiscal year ended June 30, 2021 may be obtained at www.delawarepensions.com or by writing to the State Board of Pension Trustees and Office of Pensions, McArdle Building, Suite 1, 860 Silver Lake Boulevard, Dover, Delaware 19904-2402.

The Delaware Economic Development Authority (DEDA) was established by 29 Del. C. 87A, Subchapter VII as a legally separate entity to assist the State in the development of industrial, commercial, and agricultural businesses, including assisting in the financing of facilities and activities in order to contribute to the prosperity, health, and general welfare of the citizens of the State. DEDA is considered to be a blended component unit due to the board being the same as the primary government. It is funded almost exclusively by State appropriations and is under the direction of the Governor-appointed director who guides the operations of the State employees. It is reported as part of the General Government in the General Fund of the primary government.

The Sustainable Energy Utility, Inc. (SEU) is a legally separate 501(c)(3) nonprofit organization, which was established to reduce energy waste and foster a sustainable energy

future for the State. The Governor appoints seven of the eleven members. It provides benefits almost exclusively to the primary government by developing and coordinating programs for the purpose of promoting sustainable use of energy by State departments and organizations. The SEU is considered a blended component unit and is shown as part of the Natural Resources and Environmental Control function in the General Fund of the primary government.

Discretely Presented Component Units

The following component units are entities that are legally separate from the State, but are financially accountable to the State for reporting purposes or whose relationship with the State is such that exclusion would cause the State's financial statements to be misleading. The discretely presented component units' column of the basic financial statements includes the financial data of these entities. Each discretely presented component unit has a June 30, 2021 fiscal year-end.

Complete financial statements for each of the discretely presented component units may be obtained from their respective administrative offices.

Delaware State Housing Authority (DSHA)

The Delaware State Housing Authority is a public corporation whose Director is appointed by the Governor with the consent of the State Senate and serves at the Governor's pleasure. The DSHA is governed by the Council on Housing whose eleven members are appointed by the Governor. The DSHA administers the role of providing affordable housing as a key aspect of State policy. The State provides both General Fund appropriations and capital funding to assist DSHA in its mission. Certain transactions of the DSHA require the approval of the primary government. The DSHA is authorized, among other things, to (1) make mortgage, construction and other loans to not-for-profit and limited for-profit housing sponsors; (2) make loans to mortgage lenders, requiring the proceeds thereof to be used for making newly qualified residential mortgage loans; (3) purchase qualified mortgage loans from mortgage lenders; and (4) apply for and receive assistance and subsidies under programs from the federal government and others.

Diamond State Port Corporation (DSPC)

The Diamond State Port Corporation was organized as a body corporate and politic constituting a public instrumentality of the State. The DSPC is empowered to operate, improve and maintain the Port of Wilmington and related facilities. The Governor appoints eight of the fifteen members of the board of directors, with the advice and consent of the Senate. Certain transactions of the DSPC require the approval of the primary government.

Riverfront Development Corporation (RDC)

The Riverfront Development Corporation was formed to plan, develop, and manage programs and projects intended to foster economic development along the Brandywine and Christina Rivers. The Governor appoints eight of the twenty-one board members; however, five of the remaining thirteen directors consist of the Governor and four State officials. Authorization by the State's Budget Director and Controller General is required before funds of the RDC may be expended, which indicates imposition of will.

Delaware State University (DSU)

Delaware State University is a public institution of higher education. Funding is primarily through State appropriations. State appropriations, without restrictions as to use by DSU, are reported in general revenue. Additional funding is derived from tuition, federal grants, private donations and grants. The Board of Trustees is comprised of fifteen members, eight appointed by the Governor of Delaware and seven elected by the Trustees. The President of DSU and the Governor of the State of Delaware serve as ex-officio members of the Board. DSU financial data includes its component unit, the Delaware State University Foundation, Inc. The State annually appropriates funding for DSU, which totaled \$38.4 million in fiscal year ending June 30, 2021, which is 18% percent of DSU's total revenues.

Delaware Charter Schools

The State's 23 Charter Schools are public schools funded primarily through State appropriations. Additional funding is derived from federal grants passed through from the primary government, private donations and funds received from local school districts on a tax portion per child basis. State funding for the Charter Schools totaled \$211.4 million for the fiscal year ending June 30, 2021 which represents 100 percent of the Charter Schools' total revenues. Each Charter School is a separate legal entity managed by its own separate board of directors and operates independently under a charter granted by the State Department of Education with the approval of the State Board of Education. Charters are granted for an initial period of four years and renewable every five years thereafter. Charter Schools issue their own debt but are dependent on the State for their primary funding. Financial information for Delaware Charter Schools is presented in the aggregate as they are individually immaterial to the State's basic financial statements but each represents a discretely presented component unit.

Delaware Agricultural Lands Preservation Foundation (DALPF)

The Delaware Agricultural Lands Preservation Foundation was established to provide comprehensive agricultural lands preservation programs to serve the long-term needs of the agriculture community and the citizens of Delaware. State appropriations fund DALPF for their specific programs. DALPF is comprised of twelve trustees and the Governor of the State of Delaware appoints ten of them. DALPF shall continue until its existence is terminated by law, whereby all of its rights, properties and liabilities shall pass to and be assumed by the State.

Related Organizations

Organizations in which the State appoints the voting majority of the board but the State is not financially accountable for the organizations are considered related organizations.

The Delaware Solid Waste Authority (DSWA) is a legally separate entity and the primary government appoints all seven members of its governing board. The primary government's accountability for DSWA does not extend beyond making the appointments. The DSWA is responsible for implementing solid waste disposal, recycling, and resource recovery systems, facilities, and services for the State of Delaware. The financial activities of DSWA are not included in the State's financial statements.

The Delaware Health Facilities Authority (DHFA) was established by 16 Del. C. 92 for the benefit of the people of the State, the increase of their commerce, welfare and prosperity and the improvement of their health and living conditions and provides a measure of assistance and an alternative method to enable facilities to provide structures needed to accomplish this purpose. All of the seven members of the board are appointed by the Governor. The primary government's accountability for DHFA does not extend beyond making the appointments. The financial activities of DHFA are not included in the State's financial statements.

Complete financial statements for each of the related organizations may be obtained from their respective administrative offices.

Jointly Governed Organization

The Delaware River and Bay Authority (DRBA), a body politic, was created with the intention of advancing the economic growth and development of those areas in the State of Delaware and the State of New Jersey, which border the Delaware River and Delaware Bay. DRBA is governed by twelve commissioners: six appointed by the State of Delaware and six appointed by the State of New Jersey. DRBA is autonomous from a day-to-day operations perspective and neither state is obligated for DRBA's debt. DRBA is not included in the basic financial statements as the State of Delaware has no ongoing financial interest or financial responsibility. Complete financial statements for the DRBA may be obtained from its administrative office.

Other Organization

The Governor appoints eight members of the governing board of the University of Delaware (the University). The remaining twenty members are elected separately. Since the primary government's accountability does not extend beyond State grants to the University and there is a lack of fiscal dependency, the financial activities of the University are not included in the State's basic financial statements..

Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is separately presented from certain legally separate component units for which the State is financially accountable.

The statement of net position measures not just current assets and liabilities, but also long-term assets and liabilities such as capital assets (including infrastructure assets) and general long-term debt. The difference between the State's assets, deferred outflows of resources and its liabilities and deferred inflows of resources is its net position. Net position is displayed in three components – net investment in capital assets (capital assets, net of accumulated depreciation and related debt); restricted; and unrestricted. Net position is restricted when constraints are placed that are either externally imposed or are imposed by constitutional

provisions or enabling legislation. When both restricted and unrestricted resources are available for use, generally it is the State's policy to use restricted resources first, then unrestricted resources as they are needed.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items properly excluded among program revenues are reported as general revenues.

Separate fund financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual proprietary funds are reported in separate columns in the fund financial statements.

(b) Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Custodial funds reported as part of the fiduciary fund financial statements are custodial in nature and do not present results of operations and, therefore, do not have a measurement focus. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied and other taxes are recognized when the transaction occurs. Grants and similar items are recognized as revenue as soon as all eligibility requirements have been met.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the State's enterprise operations and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Intrafund non-exchange transactions between the primary government and component units are reported as operating or capital grants as appropriate for restricted amounts. Unrestricted amounts are reported as general revenue.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the State considers all revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to other long term liabilities including compensated absences and claims and judgments, are recorded only when payment is due.

Taxes, grants, fees, sales, rents, and interest income associated with the current fiscal period are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period to the extent earned and available. All other revenue items are considered to be measurable and available only when cash is received by the State. Revenue related to expenditure driven grants is recognized when the qualifying expenditures have been incurred and all other requirements for recognition have been met.

Governmental Funds

The State reports the following major governmental funds:

General Fund – The General Fund is the State’s primary operating fund. It accounts for all financial resources obtained and used for those services traditionally provided by a state government, which are not required to be accounted for in other funds. These services include, among others, education, and health and social services.

Federal Fund – The Federal Fund accounts for all activities relating to the State’s federal grant programs.

Local School District Fund – The Local School District Fund is used to account for aggregate financial activity of the State’s local school districts that is funded by locally-raised real estate taxes, interest, and minor miscellaneous revenue. All other financial activity that is funded from sources, such as federal grant programs, major and minor capital project programs, and subsidized government programs are accounted for in the General Fund, Federal Fund, and Capital Projects Fund.

Capital Projects Fund – Transactions related to resources obtained and used for the acquisition or construction of major capital facilities (other than those financed by Proprietary and Fiduciary Funds) are accounted for in the Capital Projects Fund. Such resources are derived principally from proceeds of general obligation bond issues, federal grants, and transfers from the General Fund.

Proprietary Funds

Proprietary funds are used to account for those activities which are financed and operated in a manner similar to private business enterprises. The costs of providing services to the public on a continuing basis are financed by or recovered primarily through user charges.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund’s principal ongoing operations. The principal operating revenues of the Unemployment Fund are charges to employers for taxes against wages. The principal operating revenues of the Lottery Fund and DelDOT Fund are charges to customers for sales and services.

The Lottery Fund recognizes revenue from online games on the day of the drawing. Revenue from the sale of instant tickets is recognized when the book has been activated and 85% of the related prizes of an activated book are paid, 90 days from the date of activation, or when the next pack of the same game is activated. Revenue from the video lottery and table games

is recognized, net of prizes paid, at the time the public plays the game. Revenue from the sports lottery is also recognized at the time the public plays the game.

Operating expenses for proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. For the Unemployment Fund, expenses are payments of benefits to recipients. All expenses not meeting this definition are reported as non-operating expenses.

The State reports the following major proprietary funds:

Unemployment Fund – The Unemployment Fund accounts for the activities relating to the State’s Unemployment Insurance Trust Fund.

Lottery Fund – The Lottery Fund accounts for the activities relating to the State’s Lottery program.

DelDOT Fund – The DelDOT Fund accounts for the activities relating to the operation of the State’s Department of Transportation, including the Delaware Transportation Authority, which is comprised of the Transportation Trust Fund and Delaware Transit Corporation.

Fiduciary Funds

The fiduciary funds account for assets held by the State in a trustee capacity or as an agency for other individuals or organizations. The fiduciary fund statements are reported using the economic resources measurement focus and the accrual basis of accounting.

The State reports the following fiduciary funds (Pension Trust Funds and OPEB Trust Funds are reported in a single, combined column in the fiduciary fund statements):

Pension Trust Funds – The Delaware Public Employees’ Retirement System (DPERS) is a public employee retirement system, which covers substantially all State employees. It provides services and benefits almost exclusively to the primary government and it is considered a fiduciary fund and is shown in the financial statements as part of the primary government as a pension trust fund. Pension trust funds account for transactions, assets, liabilities, and net position available for plan benefits (Note 16). For pension trust funds, employee contributions are recognized as revenue in the period in which the employee services are performed. Employer contributions are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of each plan.

OPEB Trust Fund – The OPEB Trust Fund is a trust administered by DPERS. In addition to providing pension benefits, the State is statutorily required to provide health insurance coverage and survivor benefits for retired employees and their survivors. Substantially all of the State’s employees may become eligible for these benefits if they reach normal retirement age while working for the State. Health care benefits are provided through plans whose premiums are based on the benefits paid during the year. The cost of providing post-retirement benefits is shared between the State and the retired employee.

Investment Trust Funds – Investment Trust Funds are used to account for external investment pools where a government commingles the monies of more than one legally separate entity and invests, on the participants’ behalf, in an investment portfolio; one or more of the

participants is not part of the sponsor's reporting entity. The Investment Trust Fund accounts for the transactions, assets, liabilities, and net position for the DPERS's external investment pool and for the OPEB Fund Investment Trust Fund.

Custodial Funds – Custodial funds are used to report fiduciary activities that are not held in a trust or equivalent arrangement that meets the criteria for a trust, pension, investment trust fund or private-purpose trust fund. They account for the receipt of various taxes, deposits, deductions, and certain property collected by the State for the distribution to other governmental units or designated beneficiaries. Included in these funds are court fines and restitution, and child support payments.

New Accounting Pronouncements

During fiscal year ending June 30, 2021, the State adopted GASB Statement No. 84 *Fiduciary Activities*. The objective of this statement is to enhance the consistency and comparability of state and local government fiduciary activity and improve the usefulness of the information for assessing the government's accountability as fiduciaries. This statement establishes standards of accounting and financial reporting for fiduciary activities, which includes fiduciary component units of pension and OPEB plans, pension and OPEB plans that are not component units but meet the criteria in Statement No. 67 or 74 and other activities such as investment or private-purpose trust funds or custodial funds. All fiduciary activities are to be reported in the statement of fiduciary net position and statement of changes in fiduciary net position. The State has conducted internal control policy review, provided recommendations, and evaluated management systems for fiduciary activities in accordance with GASB Statement No. 84. The adoption of this statement had an effect on the Statement of Net Position and Governmental Funds Balance Sheet as agency funds were not reported in Net Position in previous fiscal years. Therefore, a retrospective restatement was made to beginning net position to reflect the portion of the custodial funds restated to governmental funds and discretely presented component units. In addition, the Statement implementation required the establishment of the beginning net position of the custodial funds. The following table provides the restatements for the government wide, fiduciary and governmental funds statements.

Government Wide Statement of Net Position
(Expressed in Thousands)

	Governmental Activities	Business-Type Activities	Fiduciary Activities Custodial Funds	Discretely Presented Component Units

Effect of GASB 84:				
Previously reported agency funds	11,443	—	139,165	—
	(5,607,629)	3,729,557	139,165	782,974
Other:				
Delaware Charter Schools (prior year corrections)	—	—	—	1,063
Fund balance as restated at July 1, 2020	\$ (5,607,629)	\$ 3,729,557	\$ 139,165	\$ 784,037

Governmental Funds Balance Sheet
(Expressed in Thousands)

	General	Federal	Local School District Fund	Capital Projects	Total
Fund balance as previously reported at June 30, 2020	\$ 1,705,947	\$ 326,826	\$ 355,829	\$ 274,869	\$ 2,663,471
Previously reported agency funds	3,594	—	7,849	—	11,443
Fund balance as restated at July 1, 2020	\$ 1,709,541	\$ 326,826	\$ 363,678	\$ 274,869	\$ 2,674,914

During fiscal year ending June 30, 2021, the State adopted GASB Statement No. 90 *Majority Equity Interests*. The purpose of this statement is to improve the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units. The State has evaluated this statement and determined there is no impact or application to the State.

During fiscal year ending June 30, 2021, the State adopted GASB Statement No. 97 *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans, an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32*. The purpose of this statement is to: increase consistency and comparability of reporting of fiduciary component units where the potential component unit does not have a governing body and the primary government performs those duties; mitigate costs for certain defined contribution pension and OPEB plans as fiduciary component units in the fiduciary fund financial statements; and improve the consistency and comparability for financial reporting and accounting of Internal Revenue Code Section 457 plans that meet the definition of a pension plan and for benefits provided

through those plans. The State has evaluated this statement and determined there is no impact or application to the State.

During fiscal year ending June 30, 2021, the State adopted GASB Statement No. 98 *The Annual Comprehensive Financial Report*. The purpose of this statement is to transition away from utilizing the previous title of *comprehensive annual financial report* and its acronym, as the pronunciation of this term was found to have an alternative meaning which is racially insensitive and disparaging globally.

Impact of Future Accounting Pronouncements

In June of 2017, the GASB issued Statement No. 87 *Leases*. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. It increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. This Statement establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. It requires a lessee to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. The requirements of this statement are effective for reporting periods beginning after June 15, 2021. The State is currently evaluating the future impact of this statement.

In May of 2019, the GASB issued Statement No. 91 *Conduit Debt Obligations*. The objective of this statement is to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with commitments extended by issuers, arrangements associated with conduit debt obligations, and related note disclosures. It also clarifies various definitions related to conduit debt obligations and improves required note disclosures. The requirements of this Statement are effective for reporting periods beginning after December 15, 2021. The State is currently evaluating the future impact of this Statement.

In January of 2020, the GASB issued Statement No. 92 *Omnibus 2020*. The objectives of this statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative guidance by addressing practice issues identified during implementation of certain GASB statements. In general, the effective date for this statement is for reporting periods beginning after June 15, 2021. The State is currently evaluating the future impact of this statement.

In March of 2020, the GASB issued Statement No. 93 *Replacement of Interbank Offered Rates*. The objective of this statement is to address accounting and financial reporting implications that result from the replacement of an interbank offered rate (IBOR) – predominately, the London Interbank Offered Rate (LIBOR). The removal of LIBOR as an appropriate benchmark interest rate is effective for all reporting periods ending after December 31, 2021. The State is currently evaluating the future impact of this statement.

In March of 2020, the GASB issued Statement No. 94 *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*. The objective of this statement is to improve financial reporting related to public-private and public-public partnership arrangements (PPPs) and availability payment arrangements (APAs). This statement outlines accounting and financial reporting requirements for PPPs that qualify as a service concession arrangement (SCA) as defined therein and those that do not meet the definition of a lease under Statement No. 87, *Leases* as amended. This statement defines and provides accounting and financial reporting guidance on APAs. The requirements of this statement are effective for fiscal years beginning after June 15, 2022, and all reporting periods thereafter. The State is currently evaluating the future impact of this statement.

In May of 2020, the GASB issued Statement No. 96 *Subscription-Based Information Technology Arrangements*. This statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users. This statement provides a definition for SBITA; establishes that SBITAs result in an intangible “right to use” subscription asset and corresponding subscription liability; provides the capitalization criteria for outlays other than subscription payments; and requires specific note disclosures for SBITAs. The requirements of this statement are effective for fiscal years beginning after June 15, 2022, and all reporting periods thereafter. The State is currently evaluating the future impact of this statement.

(c) Assets, Liabilities, and Net Assets or Equity

Cash Equivalents, Pooled Cash Investments, and Investments

Cash equivalents consist of demand deposits, short-term money market securities, and other deposits held by financial institutions, generally with original maturities of three months or less at the time of purchase.

Pooled Cash and Investments consist of cash equivalents, commercial paper, certificates of deposit, short-term (12 to 18 months) and long-term investments, which comprise corporate, municipal and U.S. government obligations, held and managed by the State Treasurer.

Investment securities are stated at quoted market prices, except that investment securities with a remaining maturity at time of purchase of one year or less are stated at cost or amortized cost.

All of the investment assets of the Pension and Investment Trust Funds, with the exception of the Closed State Police Pension Plan (which is a pay-as-you-go plan) and the Delaware Volunteer Firemen’s Fund (which is a length of service award plan), are pooled and invested in a common Master Trust. Investments are presented at fair value or net asset value. Fair values for fixed income and equity securities are determined by quoted market prices based on national exchanges when available. Pooled investments are funds wherein the System owns units or shares of commingled equity, fixed income, and cash funds. Pooled investments are redeemable with the underlying funds at net asset values under the terms of the partnership agreements and/or subscription agreements. Alternative investments are ownership interests in investment limited partnerships or private LLCs, some of which may be illiquid.

The valuation method for pooled and alternative investments that do not have a readily determinable fair value is such that the DPERS establishes fair value by using the net asset value (NAV) per share (or its equivalent), such as member units or an ownership interest in partners' capital to which a proportionate share of net assets is attributed. These values are calculated by the management of each investment fund as of DPERS' measurement date, generally in a manner consistent with the Financial Accounting Standards Board's measurement principles for investment companies. The NAV received from each investment fund are reviewed by DPERS management and its investment advisor; both management and the custodian receive periodic and audited annual financial reports from the management of each investment fund.

Receivables and Payables

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds" (i.e., the current portion of interfund loans). All trade and property tax receivables, including those for the component units, are shown net of an allowance for uncollectibles and refunds.

Inventories and Prepaid Items

All inventories are valued at cost using the first-in/first-out (FIFO) method. Inventories of governmental funds are recorded as expenditures when consumed, rather than when purchased. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

Restricted Assets

When both restricted and unrestricted resources are available for use, it is the State's policy to use restricted resources first, and then unrestricted resources as needed. In the government-wide financial statements, restricted net assets represent balances that are subject to external restrictions or were created by enabling legislation.

The State has the following restricted assets:

- The Delaware Transportation Authority restricts revenue bond proceeds that are accounted for in the Transportation Trust Fund.
- The Unemployment Fund restricts the entire net position for unemployment benefits.
- The governmental activities have funds that are required to be restricted as disclosed in Note 19.

The discretely presented component units have the following restricted assets:

- Diamond State Port Corporation has restricted investments for capital project outlays.
- Delaware State University has restricted assets for capital projects, grants, and college endowment funds.
- Delaware State Housing Authority has restricted assets used for the specific purpose of housing development fund activities per enabling legislation.
- Delaware Charter schools has restricted assets used primarily for debt service obligations.

Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (which are normally immovable and of value only to the State, such as roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements, the proprietary funds, and discretely presented component units.

Capital assets are defined by the State as assets with estimated useful lives in excess of one year at the date of acquisition. Such assets are recorded at historical cost if purchased or constructed, or estimated historical cost if the original cost is not determinable. Donated capital assets including donated works of art and capital assets received in a service concession arrangement are recorded at acquisition value at the date of donation.

All land and buildings are capitalized, regardless of cost. Equipment and vehicles are capitalized when the cost of individual items exceeds \$25,000. Building and land improvements are capitalized when the cost of the project exceeds \$100,000. Infrastructure and software are capitalized when the costs of individual items or projects exceed \$1.0 million. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized, but rather expensed as incurred.

The State possesses certain capital assets that have not been capitalized and depreciated, because the assets cannot be reasonably valued and/or the assets have inexhaustible useful lives. These assets include works of art and historical treasures, such as statues, monuments, historical documents, paintings, forts, miscellaneous State capitol-related artifacts, and furnishings. These assets are held for public exhibition, education or research in the furtherance of public service rather than for financial gain; they are protected, kept unencumbered, cared for, and preserved; and they are subject to an organizational policy that requires the proceeds from sales of collection items to be used to acquire other items for collections.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Property, plant, equipment, and software of the primary government and component units is depreciated using the straight line method over the following estimated useful lives:

Asset	Primary Government Years	Discretely Presented Component Unit Years
Buildings and Building Improvements	10 - 40	15 - 75
Land Improvements	20	15 - 45
Furniture and Equipment	3 - 12	3 - 40
Vehicles	7	3 - 7
Software	5	5 - 10

The State has elected to use the modified approach to account for certain infrastructure assets. Under this process, the State does not record depreciation expense nor are amounts capitalized in connection with improvements to these assets, unless the improvements expand the capacity or efficiency of an asset. Utilization of this approach requires the State to: 1) commit to maintaining and preserving affected assets at or above a condition level established by the State, 2) maintain an inventory of the assets and perform periodic

condition assessments to ensure that the condition level is being maintained, and 3) make annual estimates of the amounts that must be expended to maintain and preserve assets at the predetermined condition levels. Roads and bridges maintained by the Department of Transportation are accounted for using the modified approach.

Deferred Outflows of Resources and Deferred Inflows of Resources

Deferred outflows of resources are defined as consumption of net assets by the government that is applicable to a future reporting period. Deferred inflows of resources are defined as acquisition of net assets by the government that is applicable to a future reporting period. Deferred outflows increase net position, similar to assets and deferred inflows decrease net position, similar to liabilities.

Unearned Revenue

For the year ended June 30, 2021, the State has total unearned revenue of \$1,094.4 million recorded in the Federal Fund. This consists of \$164.2 million of funds from the Coronavirus Aid, Relief, and Economic Security Act, or "CARES Act", \$924.6 million of funds from the American Rescue Plan Act, both of which provide economic assistance for families, small businesses and workers due to the impact of the pandemic, and \$5.6 million for the State Small Business Credit Initiative (SBCI) program. The SBCI program supports lending to small businesses and small manufacturers and will be expended as qualified applicants are approved for the program.

The State's unearned revenue is recorded in the General Fund and consists of \$3.9 million of state park recreation use fees, and \$1.3 million of unspent funds from the American Rescue Plan Act designated for non-entitlement units, which are local governments that will not receive direct funding from this Act.

Compensated Absences

It is the State's policy to permit employees to accumulate earned, but unused vacation and sick pay benefits. In the governmental fund financial statements, liabilities for compensated absences are accrued when they are considered "due and payable" and recorded in the fund only for separations or transfers that occur before year-end. In the government-wide and proprietary fund financial statements, the State has accrued a liability for compensated absences, recognizing the obligation to make future payments.

Pensions

For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of DPERS and additions to/deductions from DPERS' fiduciary net position have been determined on the same basis as they are reported by DPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

OPEB

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the OPEB Trust and additions to/deductions from OPEB's fiduciary net position have been determined on the same basis as they are reported by the OPEB Trust. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Long-Term Obligations

In the government-wide financial statements and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds.

In the fund financial statements, governmental funds recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

Fund Equity

In governmental fund types, fund equity is called "fund balance." Fund balances are reported as nonspendable, restricted, committed, assigned, or unassigned as described in Note 19.

The State Constitution provides that certain excess unencumbered budgetary general funds at the end of a fiscal year must be placed in a reserve account (the Budget Reserve Account). This account, designed to mitigate the operational impact of any future unanticipated deficits may not exceed 5% of the estimated general fund revenue for the ensuing fiscal year. Total funding of the Budget Reserve Account was \$280.3 million at June 30, 2021.

Effective July 1, 2020 and per 82 Del Law c 243 (SB 260, § 32), \$63.1 million was allocated to the Budget Stabilization Fund to assist the State in developing a more sustainable, long-term approach to annual budgeting by storing excess funds during periods of budget surplus and covering operating expenditures during periods of budget deficit. The account requires an act of the General Assembly to enable appropriation and spending authority. \$224.2 million was added to this fund per 83 Del Law c 54 (HB 250, § 72) for appropriation in the fiscal year 2022 budget resulting in a balance of \$287.3 million.

When resources meeting more than one of the classifications (excluding nonspendable) are commingled in an account, assuming that an expenditure meets the constraints of the classification, the assumed order of spending is restricted first, committed second, assigned third and finally unassigned.

In proprietary funds, fund equity is called net position. Net position is comprised of three components: net investment in capital assets, restricted, and unrestricted as defined on pages 39 - 40.

(d) Grants

Federal grants and assistance awards made on the basis of entitlement periods are recorded as intergovernmental receivables when entitlement occurs. All other federal reimbursement type grants are recorded as accounts receivable when the related expenditures or expenses are recognized. Related revenue is recorded subject to availability in the governmental funds.

(e) Litigation Revenue

In 1997, several states began litigation against defendant tobacco product manufacturers to recover certain amounts the states expended to provide health care to the users of tobacco products. In 1998, a settlement was reached which provided that the states cease litigation against the manufacturers. As part of the Master Settlement Agreement, certain manufacturers agreed to remit periodic payments to the states until 2025. The State's share of the estimated \$200 billion settlement amounted to \$774.5 million. Amounts to be remitted are calculated based on a variety of specific settlement provisions. Future tobacco product sales are one key factor used in determining periodic payment amounts. A receivable of \$15.6 million has been recorded pursuant to the settlement. The Master Settlement agreement receipts of \$30.9 million are recorded in the general fund as part of other revenue and as miscellaneous general revenue on the government-wide statement of activities. Expenditures of monies received under the Master Settlement Agreement are authorized by legislation and are dedicated to health care and related programs.

(f) Management Estimates

The preparation of the basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the basic financial statements. Estimates also affect the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

NOTE 2 CASH, INVESTMENTS AND RESTRICTED ASSETS**Cash Management Policy and Investment Guidelines**

The State Treasurer maintains the majority of the deposits and investments of the primary government and uses professional money managers to invest the State's deposits according to guidelines set in the Statement of Objectives and Guidelines for the Investment of State of Delaware Funds (the Policy) by the State's Cash Management Policy Board (the Board). The Board, created by State law, establishes policies for, and the terms, conditions, and other matters relating to, the investment of all money belonging to the State except money in DPERS and the OPEB Trust and money held under the State deferred compensation program. By law, all deposits and investments belonging to the State are under the control of the State Treasurer in various pooled investment funds (State Investment Pool), except for those that, by specific authority, are under the control of other agencies or component units, as determined by the Board. The deposit and investment policies of those entities may differ from those of the State Treasurer. Typically, these agencies follow the deposit and investment policies of the State Treasurer in an effort to minimize deposit and investment risks.

As mandated by State statutes, the State's funds shall be invested pursuant to the prudent person standard as defined in the Policy. The prudent person standard allows the Board to establish investment policies based on investment criteria that it defines, and it allows the Board to delegate investment authority to investment professionals. This standard of care not only permits but also encourages diversifying investments across various asset classes.

The objectives and guidelines, as outlined in the Policy, apply to all cash and special purpose funds for which the State is financially accountable. These funds are categorized as outlined below:

- **Cash Accounts** — Cash accounts divide the State's available cash into three parts:
 - **Collection and Disbursement Accounts** — The State maintains an amount of cash in its general collection and disbursement accounts sufficient to meet its outstanding obligations.
 - **Cash and Liquidity Accounts** — The majority of the State's cash balance available for investment is maintained in the cash and liquidity accounts. These accounts are managed and invested by investment managers, selected by the Board through competitive bid, in order to maximize the return to the State while, at the same time, providing for safety of principal and sufficient liquidity for the State to meet its cash needs. The State manages its short-term investments to ensure sufficient liquidity and prevent their premature sale for the purpose of covering expenditures. Short-term investments should mature at face value in sufficient amounts to meet any needs.
 - **Reserve Cash (Intermediate) Account** — To the extent cash is not expected to be needed on short notice, the Board directs the funding of a third party. This account is managed and invested by an investment manager or managers, selected by the Board after a competitive bid, in order to maximize the return on said money to the State while providing for the safety of principal. The State manages its intermediate investments to ensure such investments are made under circumstances and in amounts in which the State would not be forced to liquidate them at a loss.

- Special Purpose Accounts - There are two primary types of special purpose accounts:
 - Endowment Accounts — Endowment accounts consist of funds set-aside for specified purposes.
 - Authority Accounts — The State’s Authorities (State agencies, local school districts and component units) maintain a variety of fund types, including various operating funds, bond funds, and debt service reserve funds.

The Policy specifies the types of investments these managers can make; the maximum percentage of assets that may be invested in particular instruments; the minimum credit quality of these investments; and the maximum length of time the assets can be invested. The Policy provides, among other things, the percentage limits of the entire portfolio, ranging from 5% to 20% that may be invested in obligations of any one issuer, other than the U.S. Government which has no restrictions. The following investments are permissible for all funds under the review of the Board, subject to percentage limitations of the account:

- U.S. Government securities
- Government agency securities
- Certificates of deposit, time deposits, and bankers acceptances
- Corporate debt instruments
- Repurchase agreements
- Reverse repurchase agreements
- Money market funds
- Canadian treasury bills
- Canadian agency securities
- Mortgage-backed and asset-backed securities
- Municipal obligations

Additional permissible investments for special-purpose accounts only:

- Guaranteed investment contracts
- Asset-backed securities and trust certificates

The primary government’s accounts are categorized as “authority accounts”. At June 30, 2021, investments of the primary government were primarily in commercial paper, corporate obligations, government agency bonds and notes, and municipal obligations. All of these meet the objectives defined by the Policy. The State’s Cash Management Policy Board *Statement of Objectives and Guidelines for the Investment of State of Delaware Funds* is available by request through the Office of the State Treasurer.

Risks

The following deposits and investments disclosure of the primary government excludes the OPEB Trust and DPERS, which are described on pages 58 - 65.

Custodial Credit Risk***Deposits***

For deposits, custodial credit risk is the risk that, in the event of the failure of a depository financial institution, the deposits or collateral securities may not be recovered from an outside party.

All State deposits are required by law to be collateralized by direct obligations of, or obligations, which are guaranteed by, the United States of America, or other suitable obligations as determined by the Board, unless the Board shall find such collateralization not in the best interest of the State. The Board has determined that certificates of deposit and time deposits must be collateralized, unless the bank issuing the certificate has assets of not less than \$5 billion and is rated not lower than "II" by Fitch, Inc. "Peer Group Rating". The Board has also determined that State demand deposits need not be collateralized, provided that any bank that holds these funds has had for the last two years a return on average assets of 0.5% or greater and an average equity-capital ratio of at least 1:20. If the bank does not meet the above criteria, collateral must consist of one or more of the following:

- U.S. Government securities;
- U.S. Government agency securities;
- Federal Home Loan Board letters of credit;
- State of Delaware securities; or
- Securities of a political subdivision of the State with a Moody's Investors Service rating of "A" or better.

At June 30, 2021, the carrying amount of the primary government's deposits was \$707.5 million and the bank balance was \$772.2 million. Of the \$772.2 million bank balance, \$41.6 million was fully insured; \$226.8 million represents unemployment insurance taxes collected from Delaware employers that are held in escrow by the U.S. Treasury; and the remaining \$503.7 million was subject to custodial credit risk because they were uninsured and uncollateralized. Included in the primary government's deposits are custodial funds. The carrying amount of the custodial fund's deposits was \$23.8 million and the bank balance was \$22.2 million. The bank balance was subject to custodial credit risk because the deposits were not covered by depository insurance or the deposits were uncollateralized, collateralized with securities held by the pledging financial institutions, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the government's name.

Of the primary government's bank balance of \$772.2 million, \$266.5 million is part of the Treasurer's cash pool and the remaining balance represents outside bank accounts of the primary government.

State law permits the Treasurer to deposit in a financial institution in the State in which the Treasurer has custody if the deposit is interest bearing; the financial institution provides collateral that has a market value that exceeds the amount by which a deposit exceeds the deposit insurance, and a custodian holds the collateral.

Investments

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the value of the investment or collateral securities that are in the possession of an outside party may not be recovered. Investments are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by either the counterparty or the counterparty's trust department or agent but not in the government's name.

At June 30, 2021, the primary government's investments were \$5,725.9 million. Of the primary government's investments, \$363.6 million was fully insured and collateralized. Included in the primary government's investments of \$5,725.9 million are custodial funds. The amount of the custodial funds' investments was \$129.8 million.

The following table provides information on \$5,362.3 million of the primary government's investments that are exposed to custodial credit risk; \$129.8 million of this amount represents the custodial funds' investments:

Investment Type	Fair Value (Expressed in Thousands)
Certificates of Deposit	\$ 406,981
Commercial Paper	277,564
Corporate Obligations	1,406,103
U.S. Government Obligations	2,889,279
Municipal Obligations	29,831
Money Market	56,324
Mutual Funds	77,577
Equity Securities	212,615
Other Obligations	6,008
	<u>\$ 5,362,282</u>

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Also, the terms of a debt investment may cause its fair value to be highly sensitive to interest rate changes. The State manages interest rates using the segmented time distribution and effective duration methods. The State approves and contracts with different investment managers of fixed income securities in order to manage the exposure to interest rate risk with each different manager focusing on different goals of yield periods or duration of maturities of their particular portion of the investment pool. The Policy provides either maturity or duration limitations for the various investment pools. The interest rate risk inherent in the portfolio is monitored by measuring the weighted average maturity and/or duration.

Effective duration measures the expected change in value of a fixed income security for a given change in interest rate. This method takes into account the likely timing and amounts of variable cash flows for bonds with call options and prepayment provisions.

The following table presents the fair value and effective duration of the primary government and custodial fund investments by investment type at June 30, 2021:

Investment Type	Expressed in Thousands			Effective Duration (In Years)
	Treasurer's Pool	Outside Treasurer's Pool	Total Investments	
Corporate Obligations	\$ 1,395,339	\$ 10,764	\$ 1,406,103	2.74
Municipal Obligations	29,831	—	29,831	5.40
U.S. Government Obligations	2,885,020	214,157	3,099,177	3.03
Mutual Funds	56,508	21,069	77,577	—
Money Market	52,422	3,902	56,324	—
Commercial Paper	277,551	153,728	431,279	0.32
Certificates of Deposit	405,900	1,081	406,981	0.58
	<u>\$ 5,102,571</u>	<u>\$ 404,701</u>	<u>\$ 5,507,272</u>	

Although the Policy does not limit total portfolio maturities, it provides maximum maturity restrictions for each of the investment account types as described below:

- Cash Account Investment - The maximum maturity for any investment at the time of purchase for the cash account is one year.
- Liquidity Accounts - The maximum maturity for any investment at the time of purchase shall be two years for the Liquidity Accounts; notwithstanding the foregoing, the term for corporate debt instruments and both mortgage backed and asset backed securities that are subject to periodic reset of coupon or interest rate may have an average life not to exceed three years.
- Reserve Cash (Intermediate) Account - The maximum maturity for any investment at the time of purchase shall be ten years. The maximum average maturity of the portfolio shall be seven years.
- Endowment Accounts - The maximum maturity for any investment at the time of purchase is ten years. The maximum average maturity of the portfolio is seven years. The Board shall consider tailoring maturity restrictions to meet specific purposes for endowment accounts to be established in the future.
- Authority Operating, Bond and Debt Service Reserve Fund Accounts - The maximum maturity for any investment at the time of purchase is ten years, except when prudent to match a specific investment instrument with a known specific future liability, in which case the maturity limitation shall match the maturity of the corresponding liability.

As of June 30, 2021, the primary government and custodial funds had the following investment maturities:

	Investment Maturity (Expressed in Thousands)				
	Investment Maturities				
	Fair Value	Less Than 1	1 to 5	6 to 10	More than 10
Corporate obligations	\$1,406,103	\$ 144,414	\$1,112,425	\$ 149,264	\$ —
Municipal obligations	29,831	—	10,314	19,517	—
U.S. government obligations					
U.S. Treasuries	2,305,926	74,072	1,587,110	644,744	—
U.S. Agencies	793,251	77,183	646,461	46,462	23,145
Certificates of Deposit	406,981	168,631	238,350	—	—
Mutual Funds	77,577	77,577	—	—	—
Money Market	56,324	56,324	—	—	—
Commercial Paper	431,279	309,965	121,314	—	—
Total Investments	\$5,507,272	\$908,166	\$3,715,974	\$859,987	\$23,145

Credit Risk

Credit risk of investments is the risk that an issuer or other counterparty to an investment will not fulfill its obligations.

The Policy requires that the State's investments in asset-backed securities be rated AAA by a major rating agency. Corporate debt instruments must be rated by Standard and Poor's Ratings Services (S & P) and/or Moody's Investor Service (Moody's) and/or Fitch Ratings (Fitch) as follows:

Investment	S & P	Moody's	Fitch
Commercial Paper	A-1	P-2	F2
Senior Long-Term Debt	A	A	A
Corporate Bonds	A-	A3	A-

Additionally, the State has multiple non-rated/pooled accounts which represent immaterial amounts when treated individually. The Board permits the types of investments which are held in these accounts.

The following table presents the State's investments which were rated by S & P as of June 30, 2021:

Credit Risk - Quality Ratings (Expressed in Thousands)						
	Total	AAA	AA	A	A-1	NR
Corporate obligations	\$ 1,406,103	\$ 112,605	\$ 187,680	\$ 1,011,377	\$ 544	\$ 93,897
Municipal obligations	29,831	550	26,314	2,967	—	—
U.S. government obligations						
U.S. Treasuries	2,305,926	3,856	102,236	—	—	2,199,834
U.S. Agencies	793,251	100,986	473,524	—	—	218,741
Other Obligations						
Pooled Investments	6,008	—	—	—	—	6,008
Money Market	56,324	—	—	—	—	56,324
Equity Securities	212,615	—	—	—	—	212,615
Mutual Funds	77,577	—	—	—	—	77,577
Certificates of Deposit	406,981	—	—	—	—	406,981
Commercial Paper	431,279	—	—	—	153,715	277,564
Total Investments	\$ 5,725,895	\$ 217,997	\$ 789,754	\$ 1,014,344	\$ 154,259	\$ 3,549,541

NR = Non-Rated Pooled accounts

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of the State's investments in a single issuer (5% or more of total investments). When investments are concentrated in one issuer, this concentration represents heightened risk of potential loss. No specific percentage identifies when concentration risk is present. The investments in obligations explicitly guaranteed by the U.S. government, mutual funds, and other pooled investments are exempt from disclosure.

The Policy provides the following percentage of account limitations, valued at market. Investments due to mature in one business day may be excluded from the computation of said limitations.

- A. U.S. Government — No Restrictions.
- B. Government Agency — 50% total, 20% in any one agency.
- C. Certificates of Deposits, Time Deposits, and Bankers Acceptances — 50% total, 5% in any one issuer.
 - a. Domestic — no additional restrictions.
 - b. Non-Domestic — 25%.
 - c. Delaware Domiciled — Not more than the lesser of \$10 million or 25% of an issuer's total equity capital may be invested in any one issuer.

- D. Corporate Debt — 50% total, 25% in any one industry, 5% in any one issuer, 5% of any issuer's total outstanding securities.
 - a. Domestic — no additional restrictions.
 - b. Non-Domestic — 25%, 5% in any one issuer.
- E. Repurchase Agreements — 50% total.
- F. Reverse Repurchase Agreements — 25% total.
- G. Money Market Funds — 25% total, 10% in any one fund.
- H. Canadian Treasuries — 25% total, 10% in any one agency.
- I. Canadian Agency Securities — 25% total, 10% in any one agency.
- J. Mortgage-backed and asset backed securities — 10% total (when combined with asset backed securities and trust certificates).
- K. Municipal Obligations — 5% in any one issuer.
- L. Guaranteed Investment Contracts — Permitted where it is prudent to match a specific investment instrument with a known specific future liability, subject to the credit quality guidelines for commercial paper and corporate bonds and debentures and with adequate exit provisions in the event of the future downgrade of the issuer.
- M. Asset Backed Securities and Trust Certificates — 10% total (when combined with mortgage-backed and asset backed securities).

At June 30, 2021, as required by the State's laws and policies, there were no obligations that represented 5% or more of the primary government's investments, except for U.S. government securities, pooled and mutual funds.

Foreign Currency Risk

Foreign currency risk is the risk that changes in the foreign exchange rate will adversely impact the fair value of an investment or deposit.

The Policy only permits investments denominated in U.S. dollars. The State does not have any investments that are exposed to foreign currency risk.

Commitments

At June 30, 2021, the State did not enter into any commitment agreements with any investment managers for future funding of various asset classes.

OPEB Trust Fund (OPEB Trust) and Delaware Public Employees' Retirement System (DPERS)**Investment Policy**

The Board of Pension Trustees is authorized to maintain and invest the funds of the OPEB Trust and DPERS. There are no State statutes limiting allowable investments for the OPEB Trust or DPERS. The investment decisions are dictated by the prudent person rule and the internal investment guidelines established by the Board as outlined below:

- Allocate a minimum of 20% of assets to fixed income investments such as bonds, cash equivalents, and certain real estate investments
- Maintain a diversified portfolio to minimize the risk of overexposure in any one market segment or investment style
- Monitor the performance of all investment managers using specific benchmarks
- Control exposure in illiquid asset classes
- Review, re-examine, and reconfirm the operation of results of the investment process regularly
- Identify new long-term opportunities for risk reduction and improved investment returns
- Review actuarial assumptions to ensure consistency with capital market expectations

The Board delegates the operation of the OPEB Trust and the DPERS's investments to the Investment Committee. The committee establishes asset allocations to various investment markets. The current policy was adopted by the Board on July 31, 2020. There were no significant changes to the policy from the prior version. For the fiscal year ended June 30, 2021, management of the OPEB Trust and DPERS have operated in accordance with these policies, in all material respects.

Securities Lending

DPERS entered into a security lending agreement with its custodian bank, which acts as a security lending agent for DPERS. The objective of securities lending is to earn income through a conservatively operated and well-controlled program. The custodian is authorized to lend securities within the borrower limits and guidelines established by DPERS. DPERS lends fixed income, domestic equity, and international equity securities to approved broker/dealers. Collateral for securities loaned equals 102 percent of fair market value for domestic securities and 105 percent for international securities. The Trust's pool of assets are co-mingled with the assets of DPERS and therefore the Trust is a participant in the existing security lending agreement with DPERS's custodian bank.

The only types of collateral received from borrowers are obligations issued by the U.S. Government. All rights of ownership to securities pledged as collateral remain with the borrower except in the event of default. The OPEB Trust and DPERS have the authority to sell collateral securities only upon a borrower default. As of June 30, 2021, there were no violations of legal or contractual provisions. The OPEB Trust and DPERS have not experienced any losses resulting from the default of a borrower or lending agent during the year ended June 30, 2021.

At year-end, the OPEB Trust and DPERS have no credit risk exposure to borrowers because the amounts the OPEB Trust owes the borrowers exceed the amounts the borrowers owe the OPEB

Trust and DPERS. The contract with the OPEB Trust's and DPERS's custodian requires it to indemnify the OPEB Trust and DPERS if the borrowers fail to return the securities or fail to pay the OPEB Trust and DPERS for income distributions by the securities' issuers while the securities are on loan. The OPEB Trust and DPERS manages its market risk by recording investments at fair value daily and maintaining the value of the collateral held by the OPEB Trust and DPERS in excess of the value of the securities loaned. As of June 30, 2021: 1) the OPEB Trust's fair value of securities on loan was \$15.4 million and the associated collateral was \$15.8 million; and 2) DPERS's fair value of securities on loan was \$336.8 million and the associated collateral was \$345.8 million.

All open security loans can be terminated on demand by either the System or borrower. The collateral is valued at fair value obtained from independent pricing services.

Investments

OPEB Trust

The following is a listing of fixed income investments and cash equivalents and related maturity schedule which shows the OPEB Trust's exposure to interest rate risk as of June 30, 2021. The OPEB Trust holds \$51.3 million in domestic fixed income and \$2.1 million in foreign fixed income instruments. The table below also includes \$30.7 million in pooled stable value fund, reported as cash equivalents, and \$82.8 million in pooled fixed income investments:

OPEB Trust Investment Maturities (in Years)
(Expressed in Thousands)

Investment Type/Sector	Fair Value	Less than 1	1 - 6	6 - 10	10 +
Asset Backed Securities	\$ 6,840	\$ —	\$ 624	\$ 374	\$ 5,842

DPERS

The following is a listing of fixed income investments and cash equivalents and related maturity schedule which shows DPERS's exposure to interest rate risk as of June 30, 2021. DPERS holds \$1.1 billion in domestic fixed income and \$46.1 million in foreign fixed income instruments. Also included is \$673.6 million in pooled stable value fund, reported as cash equivalents and \$1,823.2 million in pooled fixed income investments.

DPERS Investment Maturities (in Years)
(Expressed in Thousands)

Investment Type/Sector	Fair Value	Less Than 1	1 - 6	6 - 10	10 +
Asset Backed Securities	\$ 149,910	\$ 8	\$ 13,681	\$ 8,191	\$ 128,030

Government Bonds	91,888	—	19,118	39,536	33,234
Pooled Investments	1,823,205	—	—	1,823,205	—
Total	\$ 3,666,933	\$ 673,595	\$ 251,341	\$ 2,052,924	\$ 689,073

Interest Rate Risk

The State has delegated investment policy for the OPEB Trust and DPERS to the Board and its Committees. The Investment Committee sets its own guidelines in conjunction with the Board to manage and review DPERS's exposure to fluctuating interest rates. Interest rate risk is a consideration when establishing and reviewing investment manager guidelines and asset allocation. Both topics are included in the Statement of Investment Policies and Objectives which is published on DPERS's website.

Credit Risk

The OPEB Trust and DPERS's general investment policy is to apply the prudent-person rule to all risks incurred by the fund. Investments are made as a prudent person would be expected to act, with discretion and intelligence, to seek reasonable income, preserve capital and, in general, avoid speculative investments. The OPEB Trust and DPERS have no investment policy that would further limit its investment choices related to credit risk.

As of June 30, 2021, the OPEB Trust fixed income investments and cash equivalents had the following credit risk characteristics (expressed in thousands):

Moody's Ratings or Comparable	Percent of Total Net Position	Fair Value
AAA to A-	3.4%	\$ 22,923
BBB+ to B3	1.9%	13,396
CCC+ to C	0.8%	5,666
D	0.1%	383
Not Rated	18.3%	124,474
Total:	24.5%	\$ 166,842

As of June 30, 2021, DPERS's fixed income investments and cash equivalents had the following credit risk characteristics (expressed in thousands):

Moody's Ratings or Comparable	Percent of Total Net Position	Fair Value
AAA to A-	3.5%	\$ 502,405
BBB+ to B3	2.0%	293,576
CCC to C	0.8%	124,155
D	0.1%	8,390
Not Rated	18.8%	2,738,407
Total:	25.2%	\$ 3,666,933

Custodial Credit Risk

For deposits, custodial credit risk is the risk that, in the event of the failure of a depository financial institution, the deposits or collateral securities may not be recovered from an outside party.

OPEB Trust

At June 30, 2021, the \$54.8 million carrying amount of the Trust's cash and cash equivalents was comprised of \$30.7 million of short-term investments and \$24.1 million in deposits. Of the \$24.1 million in deposits, \$2.6 million was subject to custodial credit risk because it was held by outside institutions and uninsured and uncollateralized. The remaining \$21.5 million was held as pooled deposits by the State Treasurer's Office, which includes deposit accounts, short- and long-term investments.

DPERS

At June 30, 2021, the \$732.0 million carrying amount of DPERS's cash and cash equivalents was comprised of \$673.6 million of short-term investments and \$58.4 million in deposits. Of the \$58.4 million in deposits, \$57.1 million was subject to custodial credit risk because it was uninsured and uncollateralized. The remaining \$1.3 million was held as pooled deposits by the State Treasurer's Office.

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the value of the investment or collateral securities that are in the possession of an outside party may not be recovered. Investments are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by either the counterparty or the counterparty's trust department or agent but not in the government's name. The OPEB Trust and DPERS's investments are not exposed to custodial credit risk as they are held by the DPERS's custodian in the name of the OPEB Trust, DPERS, or its nominee.

Investment Concentration Risk

As of June 30, 2021, the OPEB Trust and DPERS held no concentration of investments (except pooled investments) in an individual issuer in excess of 5% of the fair value of the OPEB Trust's or DPERS's net position.

Management Fees

The OPEB Trust and DPERS paid \$1.3 million and \$29.8 million, respectively, in management fees to the alternative investment funds and partnerships for the fiscal year ended June 30, 2021. These fees are netted against investment income.

Foreign Investments

Foreign investments include equity securities, bonds, cash, and cash equivalents.

Foreign assets in the OPEB Trust's Statement of Fiduciary Net Position as of June 30, 2021 includes \$0.2 million of fixed income investments of domestic issuers which have been classified as domestic on the Statement of Fiduciary Net Position but are denominated in a foreign currency.

Derivatives

Derivatives are instruments (securities or contracts) whose value is dependent on such things as stock or bond prices, interest rate levels, or currency exchange rates. The Board adopted a formal written policy on the use of derivatives which is reviewed periodically and incorporated in the formalized investment policy adopted by the Board. Some selected managers are permitted to use derivatives. In every case, the types of derivatives used and limits on their use are stated in the manager's contract and are monitored on an ongoing basis. Derivatives serve a variety of useful purposes for the OPEB Trust and DPERS, including the reduction of foreign exchange risk, the minimization of transaction costs, and as a means of implementing value added strategies to enhance returns. If the use of derivatives in a portfolio strategy results in some leverage, that leverage is never permitted to expose the Fund to a loss greater than the amount committed to that strategy.

The following lists principal categories of derivatives and their uses during the year:

Category	Purpose
Foreign exchange forward contracts	Hedge currency risk of investments denominated in foreign currencies; enhance return
Exchange traded futures contracts	Reduce transaction costs; hedge equity market risk; control fixed income; counterbalance portfolio duration; enhance return
Exchange traded options contracts	Enhance return; reduce transaction costs
Total return equity swaps	Hedge equity market risk exposure

Generally, derivatives are subject both to market risk and counterparty risk. The derivatives utilized by the OPEB Trust and DPERS typically have no greater risk than their physical counterparts, and in many cases are offset by exposures elsewhere in the portfolio (for example, a short S&P 500 futures contract partially hedging a long position in S&P 500 securities). Counterparty risk, the risk that the “other party” to a contract will default, is managed by utilization of exchange traded futures and options where practical (in which case the futures exchange is the counterparty and guarantees performance) and by careful screening of counterparties where use of exchange traded products is impractical or uneconomical.

Derivative securities are priced and accounted for at their fair value. For exchange traded securities such as futures and options, closing prices from the securities exchanges are used. Foreign exchange contracts are valued at the price at which the transaction could be settled by offset in the forward markets.

The Investment Committee monitors the OPEB Trust and DPERS’s derivative holdings on a regular basis to ensure that the derivatives used by managers of the OPEB Trust and DPERS will not have a material adverse impact on its financial condition. Total derivative instruments at June 30, 2021 were not material to the OPEB Trust or DPERS.

Risk and Uncertainty

The OPEB Trust and DPERS invest in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk inherent in investment securities, it is possible that changes in the values of investment securities will occur in the near term and that such change could affect the amounts reported.

On January 30, 2020, the World Health Organization ("WHO") announced a global health emergency because of a new strain of coronavirus originating in Wuhan, China (the "COVID-19 outbreak") and the risks to the international community as the virus spread globally beyond its point of origin. WHO classified the COVID-19 outbreak as a pandemic, based on the rapid increase in exposure globally in March 2020.

The full impact of the COVID-19 outbreak continues to evolve as of the date of this report. This pandemic has adversely affected global economic activity and greatly contributed to instability in financial markets. While the OPEB Trust and DPERS investment portfolios have long-term strategies, they experienced increased volatility and significant fluctuations in fair value during the current fiscal year. The OPEB Trust and DPERS Boards and various committees continue to monitor these changes and make modifications where necessary to their portfolios.

Discretely Presented Component Units*Delaware State Housing Authority (DSHA)*

As of June 30, 2021, DSHA had bank and savings money markets deposits of \$423.6 million. No deposits were uninsured or uncollateralized.

Investment Policies

DSHA has an investment policy that encompasses all moneys related to the issuance of bonds, as well as all funds otherwise held by DSHA. DSHA seeks first and foremost to ensure safety of principal, and secondly, to attain the highest possible return available given the risk constraints.

DSHA is allowed to invest in certain qualified investments as defined by amended Subchapter II, Section 4013, Chapter 40, Title 31, of the Delaware Code and DSHA's formal investment policy.

Investments

Investments are presented at fair value. Fair values are determined by quoted market prices based on national exchange prices for all investments, except for the State of Delaware Investment Pool. The State pool is valued based on the pool's share price. The table below lists the DSHA's investments and the related maturities:

Investment Type	Investment Maturities (in Years) (Expressed in Thousands)					
	Fair Value	Less than 1	1 - 5	5 - 10	10 - 20	20 - 30
U.S. Treasury Notes	\$ 11,617	\$ 2,510	\$ 9,107	\$ —	\$ —	\$ —

Total Investments & Securitized Mortgage Loans	\$ 500,175	\$ 357,052	\$ 65,782	\$ 499	\$ 11,919	\$ 64,923

Credit Risk

DSHA's general investment policy is to make investments with judgment and care, under circumstances then prevailing, which persons of prudence, discretion, and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital, as well as the probable income to be derived. As of June 30, 2021, DSHA's investments were rated as follows:

Investment Type	Ratings (S & P) (Expressed in Thousands)									U.S. Government Guaranteed
	Fair Value	AAA	AA+	AA	AA-	A1+	A1	A	A+	
U.S. Treasury Bills	\$ 375	\$ —	\$ —	\$ —	\$ —	\$ —	\$ —	\$ —	\$ —	375

Total	\$ 168,497	\$ 797	\$ 43,307	\$ 1,181	\$ 15,546	\$ 4,506	\$ 3,923	\$ 524	\$ 3,752	\$ 94,961

NOTE 3 FAIR VALUE MEASUREMENT

The State categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles.

The three levels of the fair value hierarchy are as follows:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Inputs — other than quoted prices — included within Level 1 that are observable for the asset or liability — either directly or indirectly
- Level 3: Unobservable inputs — market data are not available and are developed using the best information available about the assumptions that market participants would use when pricing an asset or liability

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Equity securities and mutual funds classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities. Fixed income securities and pooled investments classified in Level 2 of the fair value hierarchy are valued using other inputs including, but not limited to, interest rates and yield curves that are observable at commonly quoted intervals as well as the latest available estimates of price or actual bids quoted in active markets for those or similar securities. Fixed income securities classified in Level 3 of the fair value hierarchy are the State's proportional investments held in an investment pool.

The State has the following recurring fair value measurements as of June 30, 2021:

		Investments by Fair Value (Expressed in Thousands)			
		Fair Value Measurement			
	6/30/2021	Level 1	Level 2	Level 3	
Fixed Income Securities:					
U.S. Government Obligations					
U.S. Treasury Notes	\$ 2,305,926	\$ —	\$ 2,305,926	\$ —	
U.S. Agency Notes	793,251	—	793,251	—	
Municipal Obligations	29,831	—	29,831	—	
Corporate Bonds	1,406,103	—	1,406,103	—	
Commercial Paper	431,279	—	431,279	—	
Other Pooled & Obligations	6,008	—	6,008	—	
Equity Securities					
Equity Securities	212,615	212,615	—	—	
Mutual Funds	77,577	77,577	—	—	
Total Investments by Fair Value Level	\$ 5,262,590	\$ 290,192	\$ 4,972,398	\$ —	
Investments not subject to measurement	463,305				
Total Investments	\$ 5,725,895				

OPEB Trust Fund (OPEB Trust) and Delaware Public Employee's Retirement System (DPERS)

The OPEB Trust and DPERS have both investments measured at fair value and investments that are measured using the net asset value (NAV) per share (or its equivalent) as a practical expedient to fair value which are not classified in the fair value hierarchy.

Equity and Fixed Income securities classified in Level 1 are valued using prices quoted in active markets for those securities.

Equity securities classified in Level 2 are valued using the latest available estimates of price bids or actual price bids quoted in active and inactive markets for those securities.

Fixed Income securities and pooled investments classified in Level 2 are valued using other inputs including, but not limited to, interest rates and yield curves that are observable at commonly quoted intervals as well as the latest available estimates of price bids or actual bids quoted in active and inactive markets for those, or similar, securities.

Fixed Income securities classified in Level 3 are privately placed subordinated notes, valued using a discounted cash flow model. Unobservable inputs include projected cash flows and the discount rate.

Pooled investments classified in Level 1 of the fair value hierarchy are investments in open-end, non-exchange-traded mutual funds for which fair value per share (unit) is determined and published and is the basis for current transactions. These securities are valued at their NAV on the date of valuation, and are classified as Level 1 in the fair value hierarchy since they may be purchased or sold at their publically quoted NAV on the date of valuation.

The OPEB Trust has the following recurring fair value measurements as of June 30, 2021:

OPEB Trust Investments by Fair Value
(Expressed in Thousands)

Total Investments Measured at NAV	7,956,728			
Total Investments	\$ 13,835,782			

The valuation method for pooled and alternative investments that do not have a readily determinable fair value is such that DPERS establishes fair value by using the NAV per share (or its equivalent), such as member units or an ownership interest in partners' capital to which a proportionate share of net assets is attributed. These values are calculated by the management of each investment fund as of the DPERS's measurement date, generally in a manner consistent with the Financial Accounting Standards Board's measurement principles for investment companies. The NAV received from each investment fund are reviewed by Pension Office staff and its investment advisor; and both DPERS's management and the custodian receive periodic and audited annual financial reports from the management of each investment fund.

The OPEB Trust has the following recurring NAV measurements as of June 30, 2021. Excluded from pooled investments below is a short-term stable value fund that the Trust classifies as Cash Equivalents in the amount of \$30.7 million. At year end, the NAV, unfunded commitments, and redemption terms are as follows:

OPEB Trust Investments Measured at NAV
(Expressed in Thousands)

	Fair Value	Unfunded Commitments (1)	Redemption Frequency (if Currently Eligible)	Redemption Notice Period

Total Alternatives	<u>3,518,410</u>			
Total Investments Measured at NAV	<u><u>\$ 7,956,728</u></u>			

- (1) *Unfunded Commitments.* The OPEB Trust and DPERS have commitments to invest additional amounts, to be drawn down as called upon at any time during the term of each relationship. The lengths of these terms are discussed below. Generally, these commitments are self-funding; in that the capital calls are met using cash flows generated by distributions received from alternative investment funds as the underlying investments of the funds are liquidated.
- (2) *Pooled Investments.* This type includes three index tracking funds and four global value equity funds. The index funds maintain a portfolio constructed to match or track the components of the following market indices: S&P 500, S&P 600, Russell 1000 Value, Bloomberg Barclays Capital U.S. TIPS and the Bloomberg Barclays Capital U.S. Aggregate. The global value equity funds invest in both U.S. and non-U.S. equities, seeking quality companies that are attractively valued and have growth potential.
- (3) *Equity Focused Strategy.* This type includes two funds that engage in equity investing strategies. The composite portfolio for this type invests both long and short in global common stocks, but also in debt, credit, private equity, derivative and other financial instruments. In limited circumstances, these funds have the ability to impose a gate, or in the

case of a withdrawal greater than 95% they may hold back up to 5% of the redemption amount until the completion of the funds' annual audit. These funds may also segregate a portion of the portfolio in a side pocket. Investments in a side pocket are redeemable only upon liquidation of the underlying assets in the side pocket. Investments representing approximately 85% of the value of the investments in this type are held in side pockets. Liquid Capital, representing approximately 15% of the value of the investment in this type, is subject to staggered two-year liquidity with 50% available for withdrawal in year one and 50% available for withdrawal in year two.

- (4) *Funds Primarily Invested in Private Securities.* These investments can never be redeemed with the funds. Instead, the nature of the investments in these types is that distributions are received through the liquidation of the underlying assets of the funds. It is expected that the underlying assets of the funds will be liquidated over the next 1 to 14 years. The strategy of each type is as follows:

Buyout. This type includes four and three funds for OPEB and DPERS, respectively, that make equity investments in mature, private companies.

International. This type includes 17 funds that invest in private equity and buyout strategies operating principally outside of the U.S.

Private Debt. This type includes 10 funds that invest in debt or equity securities of financially stressed (distressed) companies, as well as convertible bonds and subordinated debt in private companies.

Private Equity. This type includes 53 funds that invest in the equity securities of growing private companies, primarily in the technology and healthcare sectors.

Real Assets. This type includes eight funds that invest in commercial real estate and private energy companies including commercial real estate, exploration and production, midstream, power and services businesses.

Discretely Presented Component Unit

Delaware State Housing Authority (DSHA)

At June 30, 2021, the Delaware State Housing Authority (DSHA), a component unit of the State of Delaware has \$ \$500.2 million of investments with \$168.8 million classified in Level 2 of the fair value hierarchy and the remaining \$331.4 million not measured at fair value since they are money market accounts and not subject to measurement. The Level 2 investments are fixed income securities and pooled investments valued using other inputs which includes interest rate and yield curves that are observable at commonly quoted intervals as well as the latest available estimates of price bids or actual bids quoted in active or inactive markets for similar securities.

NOTE 4 RECEIVABLES

All trade, loan and tax account receivables are recorded net of an allowance for uncollectible accounts. In the governmental fund financial statements, receivables that will not be available within 60 days of year-end are recorded as deferred inflows of resources.

Taxes receivable represent the amount of personal, business, and other taxes determined to be measurable at June 30, 2021. Uncollectibility for taxes receivable primarily results from identified assessment problems, inability to locate taxpayers, and accounts of decedents.

The State levies taxes on real property through its school districts. Each of the State's three counties establishes the assessed values of real estate and bills and collects its own property taxes. Local school property taxes are levied by local school districts based on the assessed value of real estate, as determined by county taxation formulas. Taxes are levied on July 1 and are payable on or before September 30. Taxes paid after the payable date are assessed a 6% penalty for nonpayment and 1% interest per month thereafter. Taxes are billed and collected by the counties with funds remitted to the local school district to be used for the local share of school operating costs and debt service on general obligation bonds issued for capital improvements. Receivables as of year-end for the State's individual funds, including the applicable allowances for uncollectible accounts, are as follows:

Discretely Presented Component Units

Delaware State Housing Authority (DSHA)

Total receivables as of June 30, 2021 are as follows:

(Expressed in Thousands)

Receivables:	
Mortgage Loans	\$ 321,230
Accrued Interest	74,792
Other Receivables	2,152
Grants Receivable	509
Total Receivables	398,683
Allowance for Doubtful Accounts	(27,513)
Total Receivables, Net Amounts not Scheduled for Collection During the Subsequent Year	\$ 371,170
	\$ 335,725

Mortgage loans receivable, which total \$321.2 million, consist of single family and multi-family loans and are collateralized by first, second, or third mortgages on the properties and in limited instances are guaranteed by corporate sponsors. Interest rates on the loans vary from 5.4% to 9.8%, and loan maturities are between 1 and 17 years depending on the type of mortgage loan issued.

NOTE 5 INTERFUND BALANCES AND TRANSFERS**(a) Due To/From to Other Funds**

Receivables reported as “due from other funds” and the related payables reported as “due to other funds” represent amounts owed to State organizations by other organizations within the State primary government. Amounts receivable from or payable to other levels of government are reported as intergovernmental receivables or payables and are expected to be repaid within one year from the date of these financial statements. The composition of due from/due to balances at June 30, 2021 is as follows (expressed in thousands):

	Due To				
	General	Federal	Lottery	DelDOT	Total
Due From					
General	\$ —	\$ 70,825	\$ 12,972	\$ 14,382	\$ 98,179
Lottery	452	—	—	—	452
DelDOT	3,518	—	—	—	3,518
Total	<u>\$ 3,970</u>	<u>\$ 70,825</u>	<u>\$ 12,972</u>	<u>\$ 14,382</u>	<u>\$ 102,149</u>

The amount due to the Federal Fund is for clean water revolving loan funds used to complete projects at State park facilities and for borrowings to eliminate negative balances in the State Investment Pool.

The amount due from the Lottery Fund represents overpayment of profits required by law to be transferred to the General Fund. The amount due to the Lottery Fund represents future liabilities that require the State General Fund to pay as a result of the Lottery’s transfer of profits as required by law.

The amount due from DelDOT represents a borrowing from the State's General Fund cash accounts. The amount due to DelDOT represents Transportation Trust Fund deposits to the General Fund due to DelDOT.

(b) Transfers In From/Out to Other Funds

Transfers in and transfers out between funds in the statement of revenues, expenditures and changes in fund balance and the statement of revenues, expenses and changes in fund net position, proprietary funds represent transfers between funds. Transfers are used to (1) move revenues from the fund that statute requires to collect them to the fund that statute requires to expend them, (2) use restricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations, (3) move profits from the Lottery Fund, as required by State law, and (4) move bond proceeds from Capital Projects to the General Fund or Local School District Fund to cover expenses paid by the General Fund as well as refundings paid to the escrow agent by the General Fund.

A schedule of transfers in and transfers out for the year ended June 30, 2021 is presented below (expressed in thousands):

Transfers In						
	Local School District					Total

DelDOT	<u>\$ 32,588</u>

In fiscal year 2010, construction was completed on the Welcome and Service Center (the Center) pursuant to an agreement with HMS Host Toll Roads, Inc. (HMS), under which HMS financed, designed, and built the Center and continues to maintain and operate the Center for 35 years. Under the agreement, HMS is responsible for maintaining the Center to current conditions and insuring the Center over the course of the 35 years of operations. DelDOT is entitled to a percentage of all sales from fuel and non-fuel items sold. At the end of the agreement, operation of the Center will be transferred to DelDOT in its enhanced condition. DelDOT reports the Center as a capital asset with a carrying value of \$22.1 million and a related deferred inflow of resources of \$15.2 million as of June 30, 2021. The deferred inflow of resources is amortized over the 35 year life of the agreement.

Subsequent to June 30, 2021, HMS was sold to Applegreen USA Welcome Centres, LLC (Applegreen), and the agreement between the Department and HMS was transferred to Applegreen with the Department's consent. All terms of the agreement remain in effect as a result of the transfer.

NOTE 7 DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES

Deferred outflows of resources are defined as consumption of net assets by the government that is applicable to a future reporting period. Deferred inflows of resources are defined as acquisition of net assets by the government that is applicable to a future reporting period. Deferred outflows increase net position, similar to assets and deferred inflows decrease net position, similar to liabilities.

The components of deferred outflows of resources and deferred inflows of resources reported in the government wide financial statements as of June 30, 2021 are as follows (expressed in thousands):

	Governmental Activities	Business-type Activities	Primary Government
Deferred Outflows of Resources

NOTE 8 GENERAL OBLIGATION BONDS

General obligation bonds have been authorized and issued primarily to provide funds for acquisition and construction of capital facilities for State administrative operations, public and higher education, public and mental health, corrections, and conservation purposes and for maintenance and construction of highway facilities.

The State Constitution provides that the State may issue general obligation bonds for specific purposes in amounts approved by the General Assembly. The enabling acts pursuant to which the bonds are issued provide that all bonds issued shall be direct obligations of the State; that is, the bonds are secured by the pledge of the full faith and credit of the State. General obligation bonds are redeemed over a period not to exceed 20 years, generally from available resources in the general fund. Accordingly, the State has generally issued 20-year serial bonds with equal

amounts of principal maturing each year. Bonds outstanding have call provisions providing for early redemption at the option of the State, generally beginning 8 or 10 years following the date of issue in the inverse order of maturity, in whole or in part, at redemption prices not to exceed 100% of par value.

On April 28, 2021, the State issued \$290.8 million of general obligation bonds maturing between February 1, 2022 and February 1, 2041. Of the \$290.8 million issued as Series 2021A, \$230 million was issued representing new money, the proceeds of which were used to fund various capital projects as authorized by the General Assembly; and \$60.8 million was issued as refunding bonds, the proceeds of which were used to refund existing bonds for a net present value savings of \$10.6 million, or 13.9% of the principal refunded. The bonds bear coupons between 2.0% and 5.0% and yield between 0.05% and 1.82%.

The refunding Series 2021A resulted in an economic gain of \$9.3 million and a debt service cash savings over the next 12 years of \$10.8 million. The gain on refunding is recorded with the Deferred Inflows of Resources on the Statement of Net Position.

Bonds issued and outstanding totaled \$2,237.8 million at June 30, 2021. Of this amount, \$512.4 million is supported by property taxes collected by the local school districts. During fiscal year 2021, the local school district funds transferred \$66.6 million of property tax revenue to the State to meet the required debt service on their share of the debt.

The State is authorized to issue an additional \$226.8 million of general obligation bonds at June 30, 2021. Interest rates and maturities of the outstanding general obligation bonds are detailed as follows:

General Obligation Bonds - Governmental Activities
(Expressed in Thousands)

Sale #	Description	Interest Rates	Maturity Date (Fiscal Year)	Balance Outstanding at June 30, 2021

2032-2036	454,660	64,940	519,600
2037-2041	181,240	11,046	192,286
Total	<u><u>\$ 2,237,808</u></u>	<u><u>\$ 655,085</u></u>	<u><u>\$ 2,892,893</u></u>

Changes in general obligation bonded debt during the year ended June 30, 2021 are summarized in Note 13.

In prior years, the State has defeased certain general obligation bonds by creating separate irrevocable trust funds. New debt has been issued or cash appropriated and the proceeds have been used to purchase U.S. government securities that were placed in the trust funds. The investments and fixed earnings from the investments are sufficient to fully service the defeased debt. Accordingly, the debt has been considered defeased and has been removed as a liability from the government-wide financial statements. At June 30, 2021, a total of \$113.7 million of defeased bonds were outstanding.

NOTE 9 REVENUE BONDS

Revenue Bonds

The State Constitution empowers certain State agencies and authorities to issue bonds that are not supported by the full faith and credit of the State. These bonds pledge income derived from acquired or constructed assets or some other stream of revenues to retire the debt and pay related interest.

Primary Government

On May 1, 2020, the Delaware Sustainable Energy Utility (the "DSEU") issued \$53.0 million of Energy Efficient Bonds maturing between September 15, 2020 and September 15, 2034. Series 2020 bonds were issued as refunding bonds, the proceeds of which were used to refund existing bonds for a net present value savings of \$4.8 million, or 9.3% of the 2011 Bonds. Interest rates on the bonds vary from 1.45% to 2.82%.

In February 2019, the SEU issued \$18.7 million of its Sustainable Energy Utility, Inc. Energy Efficiency Revenue Bonds, Series 2019 (the 2019 SEU Bonds) maturing between June 15, 2019 and December 15, 2039. The total amount issued is to finance energy conservation measures for multiple State agencies. Interest rates on the bonds vary from 3.00% to 4.00%.

Under separate Installment Payment Agreements, each agency and Delaware State University is obligated to make installment payments to the SEU in accordance with the Energy Performance Contracting Act, 29 Del. C. §6971. Further, each agency and Delaware State University separately entered into Guaranteed Energy Savings Agreements with various energy services companies, which guaranteed that the savings achieved will be sufficient to cover the financing costs associated with the SEU bonds upon completion of the energy conservation measures. In the event that savings are not realized, the energy services companies will be held responsible for the deficiency.

The SEU Bonds are limited obligations of the SEU, secured by the trust estate and payable only from amounts appropriated by the State that are eligible for payment under the Installment Payment Agreements. No funds appropriated to any agency for any purpose are available to pay the Installment Payments of any other agency or Delaware State University.

Remaining maturities and interest due relating to SEU's revenue bonds at June 30, 2021 are as follows:

Sustainable Energy Utility Revenue Bonds
(Expressed in Thousands)

Fiscal Year	Principal	Interest	Total
2022	\$ 3,180	\$ 1,570	\$ 4,750

Plus Unamortized Bond Premium	<u>1,149</u>		
Total Revenue Bonds Payable	<u>\$ 59,039</u>		

DelDOT Fund

Delaware Transportation Authority (Authority)

The Authority is subject to oversight by DelDOT and is included in the DelDOT fund. The Authority assists in the implementation of the State's plans and policies regarding the coordination and development of a comprehensive, balanced transportation system for the State. It has the power to develop a unified system of air, water, vehicular, and specialized transportation in the State. The Authority includes the Transportation Trust Fund and the Delaware Transit Corporation. The Secretary of the Department of Transportation, with consent of the Governor, appoints the Authority's Director.

To assist the Authority in financing a unified transportation system, the State created a Transportation Trust Fund (the Trust Fund) within the Authority which receives all receipts of the Authority. The primary sources of funding of the Trust Fund are motor fuel taxes and motor vehicles fees imposed and collected by the State and deposited in the Trust Fund, and revenue from the Delaware Turnpike, which the Authority owns and operates. The Authority also has the power to issue bonds, with legislative authorization, to finance improvements to the State's transportation system. Debt issued by the Authority does not constitute a debt of the State or a pledge of its general taxing power or of its full faith and credit. Rather, the outstanding revenue bonds are obligations of the Authority payable solely from and secured by a pledge and assignment of certain tolls and revenues such as motor fuel tax revenue, motor vehicle document fees, and motor vehicle registrations. The Authority may apply Trust Fund revenue in excess of

debt service requirements for transportation projects, subject to legislative authorization, and may pledge any or all of this revenue to secure financing for these projects.

The Authority has defeased various bond issues by creating separate irrevocable trust funds. New debt has been issued and the proceeds have been used to purchase U.S. government securities that were placed in the trust funds. The investments and fixed earnings from the investments are sufficient to fully service the defeased debt until the debt is called or matures. For financial reporting purposes, the debt has been considered defeased and is therefore not reported as a liability. At June 30, 2021, there was no defeased debt outstanding.

The Authority has a total of \$272.4 million in authorized but unissued revenue bonds at June 30, 2021. Bonds outstanding at June 30, 2021 amounted to \$1,131.6 million and are presented as follows:

Delaware Transportation Authority Revenue Bonds
(Expressed in Thousands)

The State has pledged turnpike, motor fuel tax, and motor vehicle fee revenues to the Trust Fund in order to provide additional means to finance the maintenance and development of the State's highway transportation system, as well as security for the repayment of the outstanding revenue bonds of the Authority. Proceeds from the revenue bonds were used to finance infrastructure maintenance, preservation, and construction-related projects. The revenue bonds are payable solely from these pledged revenue streams and are not backed by the faith and credit of the State or any such political subdivision. Annual principal and interest payments on the revenue bonds are expected to require less than 25% of pledged revenues. The total principal and interest remaining to be paid on the revenue bonds as of June 30, 2021 was \$1,700.9 million. Principal and interest paid on the revenue bonds for the year ended June 30, 2021 was \$117.4 million. Total pledged revenues for the year ended June 30, 2021 were \$515.0 million.

Discretely Presented Component Units

Debt issued by the following component units is not secured by the full faith, credit and taxing power of the State.

Delaware State Housing Authority (DSHA)

DSHA is authorized to issue bonds and notes, with the approval of the State, in order to exercise its powers. These bonds and notes are secured solely by the revenues, loans, and other pledged assets under the related Bond Indenture of DSHA.

The revenue bonds outstanding have been issued to provide financing for mortgage loans. The bonds are secured by the mortgage loans made or purchased under the applicable resolutions, the revenues, prepayments and foreclosures proceeds received related to the mortgage loans, and certain funds and accounts established pursuant to the applicable bond resolutions. All bonds are callable subject to certain restrictions. Interest rates on bonds outstanding range from 0.53% to 4.90% with maturities of such bonds up through July 1, 2048.

Outstanding bonds at June 30, 2021 amounted to \$52.8 million. Future debt service requirements for DSHA's bonds are shown on the following table:

Delaware State Housing Authority Revenue Bonds

Delaware State University (DSU)

Revenue bonds payable at June 30, 2021 are as follows:

Delaware State University Revenue Bonds Payable
(Expressed in Thousands)

Revenue Refunding Bonds Series 2012	\$ 23,454
Revenue Refunding Bonds 2014	27,841
Revenue Refunding Bonds 2017	41,450
Energy Efficiency Refunding Bonds Series 2020	9,055
Total Revenue Bonds Outstanding as of June 30, 2021	<u>\$ 101,800</u>

On March 1, 2012, DSU issued revenue refunding bonds in the amount of \$32.1 million (par value) through the DEDA. The bonds are due October 1, 2036 and are secured by a pledge of certain unappropriated revenues of DSU. The proceeds of the 2012 bonds were used to finance: (1) the refunding of certain maturities of The Delaware Economic Development Authority (DEDA) Revenue Refunding Bonds (Delaware State University Project) Series 1999; (2) the purchase of the University Village, a four building, 628 bed student housing facility and dining hall located on the campus of the University, the construction of which was financed by the Kent County, Delaware Variable Rate Demand Student Housing Revenue Bonds (Delaware State University Student Housing Foundation Project) Series 2004B; (3) the funding of any required reserve funds relating to the 2012 Bonds; and (4) the costs of issuance and any credit enhancement of the 2012 Bonds. As of June 30, 2021, \$23.5 million remained outstanding on the 2012 revenue bonds.

On December 11, 2014, DSU issued revenue refunding bonds in the amount of \$29.2 million through the DEDA. The bonds are due October 1, 2039 and are secured by unappropriated gross revenue of the University. The proceeds of the 2014 bonds with other available funds, were used to finance: (1) purchase the University Courtyard, a 416 bed student housing facility located on campus from the Delaware State University Housing Foundation; (2) construction, equipping

and furnishing of an optical science center for applied research; (3) acquisition and capital improvement of the former Sheraton Hotel and Convention Center, now known as the Living and Learning Commons, a 264 bed student housing facility and space used for Delaware State University Early College High School. As of June 30, 2021, \$27.8 million remained outstanding on the 2014 revenue bonds.

On April 3, 2017, DSU issued revenue-refunding bonds in the amount of \$42.7 through the DEDA. The bonds mature through October 1, 2039, and are secured by unappropriated gross revenue of the University. The proceeds of the 2017 bonds, together with other available funds, were used to refund the 2007 revenue series bonds for a net present value savings of \$3.5 million, or 7.37% of the principal refunded. The bonds bear coupons between 3.0% and 5.0% and yield between 1.17% and 3.99%. As of June 30, 2021, \$41.5 million remained outstanding on the 2017 revenue bonds.

On April 30, 2020, the State of Delaware Sustainable Energy Utility, Inc. issued energy efficiency refunding revenue bonds. The bonds are due September 15, 2034, and are limited obligations of the University, payable only from amounts appropriated by the State that are eligible for payment of the Installment Payments pursuant to the Energy Performance Contracting Act. The 2020 bonds are equally and ratably secured by the trust estate, and failure of the State to appropriate each year sufficient available funds will cause insufficient funds to be deposited into the bond fund to pay all principal and interest on the bonds when due. The proceeds of the 2020 bonds were used to refinance and defease, for interest rate savings, the Energy Efficiency Bonds, Series 2011 and pay costs of issuance. The refunding resulted in a net economic gain of \$779 thousand and a decrease in debt service over the next 12 years of \$918 thousand. As of June 30, 2021, \$9.1 million remained outstanding on the 2020 energy efficiency bonds.

Remaining maturities and interest due relating to DSU's revenue bonds at June 30, 2021 are as follows:

NOTE 10 LOANS AND NOTES PAYABLE***Banc of America Master Lease/Purchase***

In May 2011, the State entered into a Master Lease/Purchase Agreement with Banc of America Public Capital Corporation (BOA) for a two year period (with two one-year extensions that ended May 2015) on behalf of all of its State Agencies to acquire equipment including all installation costs with a maximum aggregate amount of principal components for this equipment not to exceed \$50.0 million. Each individual equipment lease established the duration of the lease agreement with the interest rate determined using a percentage of a like term U.S. Treasury as quoted by the Federal Reserve and these agreements continue through the repayment of amounts due.

On April 30, 2021, the State refinanced an agreement under the BOA Master Agreement in the amount of \$16.5 million for the purchase and installation of equipment for the Red Clay Consolidated School District. Beginning October 15, 2021, principal and interest payments are due each April 15 and October 15. The interest rate for the term of the agreement is 2.04%, and the loan matures April 15, 2035.

The future maturities of principal and interest payments on the agreement are as follows:

Red Clay Consolidated School District Agreement
(Expressed in Thousands)

Fiscal Year	Principal	Interest	Total
2022	\$ 736	\$ 335	\$ 1,071
2023	779	334	1,113

2032-2035	6,287	314	6,602
Total	<u>\$ 16,451</u>	<u>\$ 2,920</u>	<u>\$ 19,371</u>

On April 15, 2013, the State executed an agreement under the BOA Master Agreement in the amount of \$10.6 million for the purchase of helicopters for the Delaware State Police. Beginning April 15, 2013, principal and interest payments are due each April 15 and October 15. The interest rate for the term of the agreement is 2.03% and the loan matures October 15, 2022.

The future maturities of principal and interest payments on the agreement are as follows:

Delaware State Police			
(Expressed in Thousands)			
Fiscal Year	Principal	Interest	Total
2022	\$ 1,139	\$ 29	\$1,168
2023	578	6	584
Total	<u>\$ 1,718</u>	<u>\$ 35</u>	<u>\$1,752</u>

On August 20, 2020, the State executed an agreement under the BOA Master Agreement in the amount of \$3.2 million for the purchase and installation of equipment for the Department of Corrections. Beginning October 20 2021, principal and interest payments are due each month. From September 20, 2020 to October 20, 2021, all interest due is accrued as additional principle. The interest rate for the term of the agreement is 1.84% and the loan matures on August 20, 2040.

The future maturities of principal and interest payments on the agreement are as follows:

DOC Agreement			
(Expressed in Thousands)			
Fiscal Year	Principal	Interest	Total
2022	\$ 218	\$ 58	\$ 276

Total	<u>\$ 11,170</u>	<u>\$ 2,527</u>	<u>\$ 13,697</u>

On October 2, 2015, the State entered into a new agreement with TD Equipment Finance, Inc. for a two-year period through and inclusive of September 30, 2017, with three optional one-year renewals to initiate new leases. On February 9, 2016, the state successfully negotiated and signed a similar contract with Banc of America Public Capital Corporation. The contract allows for funding and acquisition of equipment which is collateralized by the underlying equipment financed. The agreement provides for annual automatic renewals of each individual equipment lease, until cancelled or paid through lease maturity by the lessee, with interest rates determined at the initiation of the lease, using a percentage of like term U.S. Treasury as quoted in the Federal Reserve. The State did not access additional funds through this agreement during the fiscal year ended June 30, 2021.

Transportation Infrastructure Finance and Innovation Act

The Authority has obtained a loan from the Federal Highway Administration (FHWA) under the Transportation Infrastructure Finance and Innovation Act (TIFIA) to borrow up to \$211.4 million excluding capitalized interest, to finance construction of the U.S. 301 toll road project (the Project). Funds are reimbursed by FHWA as costs are incurred, and interest accrues at 2.94%, compounded semi-annually. Interest payments are deferred 5 years from the projected end of construction, with the first interest payment expected to be due December 1, 2023. Principal payments are deferred nine years and six months from the projected end of construction, with the first principal payment expected to be due June 1, 2028. Final maturity on the loan is the earlier of the 35th anniversary of the substantial completion date of the Project or December 31, 2053.

The loan has mandatory prepayment requirements to the extent revenues generated from the Project exceed certain amounts as defined in the loan agreement. The loan agreement also allows for optional prepayments without penalty. The loan is secured by the toll revenues generated by the Project, with an additional subordinated lien on pledged revenues of the Trust Fund.

As of June 30, 2021, the total outstanding loan payable, including capitalized interest of \$18.4 million, was \$229.6 million. The loan is fully funded at June 30, 2021. Interest for 2021-2023 will be capitalized resulting in a total loan balance of \$243.4 million. Projected debt service on the loan once fully funded, including capitalized interest, is as follows as June 30, 2021:

TIFIA Loan Payable
(Expressed in Thousands)

Year Ending June 30	Principal Maturity	Interest Maturity	Total*
2022	\$ —	\$ —	\$ —
2023	—	—	—
2024	—	7,167	7,167
2025	—	7,148	7,148
2026	—	7,157	7,157
2027-2031	5,275	35,630	40,905
2032-2036	15,301	34,155	49,456
2037-2041	33,503	30,944	64,447
2042-2046	52,075	24,949	77,024
2047-2051	76,183	15,937	92,120
2052-2056	61,110	3,327	64,437
Total	<u>\$ 243,447</u>	<u>\$ 166,414</u>	<u>\$ 409,861</u>

*Debt service requirements subject to change based on timing and amount of final disbursements and any mandatory or voluntary prepayments.

Transportation Trust Fund Line of Credit

The Transportation Trust Fund has a line of credit agreement with M&T Bank for \$100.0 million, which matures in June 2023. There were no borrowings against the line at June 30, 2021. The line bears interest on the amount that has been advanced from time to time pursuant to the bank loan agreements. At June 30, 2021, the interest rate was equal to 0.7392%.

NOTE 11 LEASE COMMITMENTS

The State has entered into various property and equipment operating leases (terms in excess of one year) with aggregate future rentals approximating \$371.1 million, of which \$348.4 million relates to property leases and \$22.7 million relates to equipment leases. Operating leases contain various renewal options. Any escalation clauses, sublease rentals and contingent rents are considered immaterial to the future minimum lease payments and current rental expenditures. Operating lease payments are recorded as expenditures of the related fund when paid. Lease payments for fiscal year 2021 were approximately \$41.9 million, of which \$32.2 million was for office space and \$9.7 million was for equipment. The equipment leases held by the State consist mainly of computers, data processing equipment, and fleet vehicles.

Significant annual equipment rentals include \$7.8 million for fleet vehicles and data processing equipment for the Office of Management and Budget. Significant annual real estate rentals include \$7.5 million for leases for the Department of Health and Social Services, \$2.9 million for the Department of Services for Children, Youth and Their Families, \$3.6 million for the Department of Correction, and \$3.7 million for the Department of Labor, \$2.5 million for the Department of Education, and \$1.5 million for the Office of Management and Budget.

Future minimum lease commitments for operating leases as of June 30, 2021 are shown in the following table:

Lease Commitments (Expressed in Thousands)	
Fiscal Year Ending	Operating Leases
2022	\$ 45,129
2023	45,265
2024	47,361
2025	47,152
2026	49,176
2027-2031	80,958
2032-2036	40,954
2037-2041	14,198
2042-2046	437
2047-2051	437
Total	<u>\$ 371,067</u>

NOTE 12 OTHER LONG-TERM OBLIGATIONS

Compensated absences payable are reported in the government-wide financial statements and in the proprietary fund financial statements. They represent benefits accrued to State employees for vacation earned as of year-end and sick leave estimated to be paid out at retirement for services rendered as of June 30, 2021. Employees earn from 1.25 to 1.75 days of vacation leave per month depending on years of service. Employees or their estates are paid for unused vacation upon termination of employment with a maximum credit of 52 days unless prior approval to carryover days in excess of the maximum. Employees earn 1.25 days of sick leave per month. The State's obligation for sick leave credit is a maximum of 45 workdays. \$226.5 million has been accrued for the Governmental Activities and \$15.8 million in the Business-type Activities for the total compensated absences liability. The current portion of the long-term obligation for compensated absences is \$20.9 million in the Governmental Activities and \$2.3 million in the Business-type Activities. Approximately \$210.6 million (93.0%) of the long-term obligation for compensated absences will be liquidated by the General Fund. Of the remainder, approximately \$15.6 million (6.9%) and \$0.3 million (0.1%) will be paid with Federal Funds and Local School District Funds, respectively.

The State has recorded \$770.0 million relating to the accrual of the obligation for escheated (abandoned) property, of which \$160.0 million was recorded as the current portion.

The State has incurred obligations relating to scholarship and physician loan repayment programs, resulting in an additional long-term obligation of \$7.5 million, of which \$0.6 million was recorded as the current portion and is included in the governmental funds as other liabilities.

NOTE 13 CHANGES IN LONG-TERM OBLIGATIONS

The following table provides a summary of changes in long-term obligations of the primary government for the year ended June 30, 2021 (expressed in thousands):

Governmental Activities:	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Compensated Absences (Note 12)	\$ 197,769.2	\$ 43,050.5	\$ (14,336.8)	\$ 226,482.9	\$ 20,922.2
Claims and Judgments (Notes 14 and 18)	192,044.0	39,170.0	(39,898)	191,316.0	45,074.0
Escheat Payable (Note 12)	550,000.0	220,000.0	—	770,000.0	160,000.0
Loans and Notes Payable (Note 10)	19,772.7	14,405.0	(1,604.1)	32,573.6	2,402.4
Pollution Remediation Obligations (Note 18)	20,605.7	3,597.0	—	24,202.7	6,560.0
Bonds Payable:					
General Obligation Bonds (Note 8)	2,185,852.2	290,765.0	(238,809.2)	2,237,808.0	185,700.0
Bond Issue Premium, Net of					
Accumulated Amortization (Notes 8 and 9)	299,449.5	51,138.8	(35,869.2)	314,719.1	26,752.5
Revenue Bonds (Note 9)	61,410.0	—	(3,520.0)	57,890.0	3,180.0
Physician and Scholarship Programs (Note 12)	7,147.6	1,304.8	(940.2)	7,512.2	621.6
Governmental Activities Long-term Liabilities	<u>\$ 3,534,050.9</u>	<u>\$ 663,431.1</u>	<u>\$ (334,977.5)</u>	<u>\$ 3,862,504.5</u>	<u>\$ 451,212.7</u>
Business-type Activities:					
Compensated Absences (Note 12)	\$ 14,231.9	\$ 3,610	\$ (2,089.5)	\$ 15,752.4	\$ 2,270.7
Pollution Remediation Obligations (Note 18)	131.8	25.2	—	157.0	80.0
Liabilities Payable from					
Restricted Assets (Note 22)	2,662.1	—	(175.1)	2,487.0	—
Claims and Judgments (Note 14)	9,249.0	4,800.0	(6,377.0)	7,672.0	1,851.0
Loans and Notes Payable (Note 10)	223,046.8	6,596.6	—	229,643.3	—
Bonds Payable:					
Revenue Bonds (Note 9)	899,910.0	411,805.0	(180,125.0)	1,131,590.0	77,345.0
Bond Issue Premium, Net of					
Accumulated Amortization (Notes 8 and 9)	56,529.7	120,557.3	(24,482.1)	152,604.9	26,008.0
Business-type Activities Long-term Liabilities	<u>\$ 1,205,761.3</u>	<u>\$ 547,394.1</u>	<u>(213,073.6)</u>	<u>1,539,906.6</u>	<u>107,554.7</u>

NOTE 14 RISK MANAGEMENT

The State is exposed to various risks of losses related to workers' compensation, employee health-care and accident, automobile accident, police professional malpractice, and property and casualty claims. It is the policy of the State not to purchase commercial insurance to cover these risks. Instead, State management believes it is more economical to manage its risk internally and thus, covers all claim settlements and judgments out of its general fund. The State continues to carry commercial insurance for all other risks of loss, including general liability and the remainder of the property and casualty liability. There have been no significant reductions in insurance coverage from prior years. In the past three years of insured coverage, settled claims have not exceeded commercial coverage.

Claim liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Because actual claim liabilities depend on such complex factors as inflation, changes in legal doctrines and damage awards, the process does not result in an exact amount. Claim liabilities are reevaluated annually to take into consideration recently settled claims, the frequency of claims and other economic and social factors.

The management of the State estimates that the amount of actual or potential claims against the State at June 30, 2021 for workers' compensation, automobile accident and health-care claim liabilities is \$263.6 million. The claim liabilities relating to health-care totaling \$72.8 million have been recorded as accrued liabilities in governmental activities. The liability for workers' compensation and automobile accident liabilities totaling \$190.8 million has been recorded in governmental activities as claims and judgments. The current portion of these claims totals \$45.1 million. Other claim liabilities relating to police professional malpractice and property and casualty were not recorded at June 30, 2021 as the total of these liabilities were not material to the financial statements.

Changes in the balances of claim liabilities during fiscal years 2021 and 2020 were as follows:

Changes in Claim Liabilities (Expressed in Thousands)				
Fiscal Year	Beginning Balance July 1	Current Year Claims and Changes in Estimates	Actual Claim Payments	Ending Balance June 30
2020	\$ 249,304	\$ 924,793	\$ (921,209)	\$ 252,888
2021	252,888	1,004,634	(993,885)	263,637

DelDOT – Delaware Transit Corporation

DTC maintains coverage for workers' compensation benefits. DTC manages the coverage through both the retention of risk and the purchase of commercial insurance. The payment of workers' compensation claims is processed through a third-party administrator. DTC is not responsible for any costs other than the premium paid, thus no loss contingency reserves were established.

DTC also maintains auto insurance coverage through both the retention of risk and the purchase of commercial insurance. Auto loss reserves that are based upon actuarial reviews were established by DTC.

DTC has recorded \$7.7 million of claim liabilities as Insurance Loss Reserve. Of this amount, \$1.9 million has been recorded as current.

Changes in the balances of total claim liabilities during the fiscal years 2021 and 2020 were as follows (expressed in thousands):

Fiscal Year	Beginning Balance July 1	Current Year Claims and Changes in Estimates	Actual Claim Payments	Ending Balance June 30
2020	\$ 9,066	\$ 4,773	\$ (4,590)	\$ 9,249
2021	9,249	4,800	(6,377)	7,672

NOTE 15 OTHER POST-EMPLOYMENT BENEFITS (OPEB)

On July 1, 2007, the Delaware Other Postemployment Benefits Fund Trust (OPEB Trust) was established pursuant to Title 29, Sections 5202(b) and 5281. The OPEB Trust is administered by the DPERS Board pursuant to Title 29, Section 5282. Policy for and management of the OPEB benefits provided to retirees are the responsibility of the State.

The OPEB Trust is a cost-sharing multiple-employer defined benefit plan. The OPEB Trust provides retirement medical coverage to pensioners and their eligible dependents in the State Employees', Judiciary, New State Police, and Closed State Police pension plans. This includes the employees of the State as well as employees of the State's component units and affiliated agencies which are part of the State Employees' pension plan. Those employers are Delaware State University, Delaware State Housing Authority, Delaware Charter Schools, University of Delaware, and Delaware Solid Waste Authority.

Substantially all State employees become eligible for post-retirement benefits if they reach retirement age while working for the State. The costs of providing these healthcare benefits for retirees and other eligible beneficiaries are shared between the State and the retired employee. A stand-alone financial report is issued for the OPEB Trust.

In June 2010, the Delaware Transit Corporation OPEB Fund Trust (DTC OPEB Trust) was established. The DTC OPEB Trust is administered by DTC. Policy for and management of the DTC OPEB Trust provided to retirees are the responsibility of DTC. No stand-alone financial report is issued for the DTC OPEB Trust.

The DTC OPEB Trust is a single-employer, defined benefit plan. The DTC OPEB Trust provides retirement medical insurance coverage to employees who retire and their eligible dependents. The costs of providing these healthcare benefits for retirees and other eligible beneficiaries are shared between DTC and the retired employee. DTC has elected to assume the DTC OPEB Trust liability on behalf of all of its employees.

At June 30, 2020, the following employees of DTC were covered by the DTC OPEB Trust benefit terms:

Retirees and beneficiaries receiving benefits	
Pre-65	89
Post-65	317
Total retirees and beneficiaries receiving benefits	406
Total active plan members	895
Total	1,301

Contributions

OPEB Trust

By State Statute Chapter 52, Title 29 of the Delaware Code, contribution requirements of plan members and the government are established by the State Legislature. Those rates include an employer contribution based on a percentage of covered payroll, which is not actuarially determined. The State reported the following contributions for the OPEB Trust:

Schedule of Contributions (Expressed in Thousands)	
Contributions	2020
Statutorily determined contribution	\$ 249,208
Contributions in relation to the statutorily determined contribution	249,208
Contribution (excess)/deficiency	\$ —
Covered payroll	\$ 1,993,577
Contributions as a percentage of covered payroll	12.5 %

DTC OPEB Trust

DTC funds the DTC OPEB Trust on a pay-as-you-go basis with additional funding provided on an ad-hoc basis. Contributions to the DTC OPEB Trust are generally made at the same time and in the same amount as benefit payments and expenses becoming due. The only required contributions by retirees are their respective portion of current year premiums. DTC retains the authority to amend the requirements for retiree contributions at any time. DTC reported contributions of \$2.7 million to the DTC OPEB Trust, which resulted in an average contribution rate of 4.7% of covered payroll.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2021, the State reported the following net OPEB liabilities (expressed in thousands):

Plan	Governmental Activities	Business-Type Activities
OPEB Trust	\$ 9,018,351	\$ 371,515
DTC OPEB Trust	—	174,824
	<u>\$ 9,018,351</u>	<u>\$ 546,339</u>

The proportionate share of collective net OPEB liability of the OPEB Trust was measured as of June 30, 2020, and the total OPEB liability used to calculate the collective net OPEB liability was determined by an actuarial valuation as of July 1, 2019 with update procedures used to roll forward the total OPEB liability to June 30, 2020. The State's proportionate share of the net OPEB liability of the OPEB Trust was based on a projection of the State's long-term share of contributions to the OPEB Trust relative to the projected contributions of all participating organizations, actuarially determined. At June 30, 2020, the State's proportionate share of the net OPEB liability of the OPEB Trust was 90.2%, which was an increase of 0.3% from its proportion measured as of June 30, 2019.

The DTC OPEB Trust net OPEB liability and related information, measured as of June 30, 2020, is as follows:

	(Expressed in Thousands)		
	Total OPEB Liability (a)	Plan Fiduciary Net Position (b)	Net OPEB Liability (a) - (b)
Balance at July 1, 2019	\$ 183,707	\$ 4,586	\$ 179,121
Changes for the year:			
Service cost	12,581	—	12,581
Interest	5,696	—	5,696
Differences between expected and actual experience	(37,630)	—	(37,630)
Changes of assumptions	18,030	—	18,030
Contributions - employer	—	2,703	(2,703)
Net investment income	—	282	(282)
Benefit payments	(2,703)	(2,703)	—
Administrative expenses	(4,026)	271	(4,297)
Net changes	<u>\$ 179,681</u>	<u>\$ 4,857</u>	<u>\$ 174,824</u>
Balance at June 30, 2020			

For the year ended June 30, 2021, the State recognized the following OPEB expense related to all the plans (expressed in thousands):

Plan	Governmental Activities	Business-Type Activities	Totals
OPEB Trust	\$ 518,398	\$ 21,496	\$ 539,894
DTC OPEB Trust	—	12,579	12,579
	<u>\$ 518,398</u>	<u>\$ 34,075</u>	<u>\$ 552,473</u>

At June 30, 2021, the State reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources (expressed in thousands):

	State Employees'		DTC		Total	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Changes in proportionate share of contributions	\$ 21,920	\$ 38,341	\$ —	\$ —	\$ 21,920	\$ 38,341
Difference between expected and actual experience	272,640	645,454	—	50,885	272,640	696,339
Net difference between projected and actual earnings on OPEB plan investments	—	10,431	—	86	—	10,517
Change in assumptions	1,587,853	534,039	28,823	12,820	1,616,676	546,859
Contributions subsequent to the measurement date	241,345	—	2,962	—	244,307	—
	<u>\$ 2,123,758</u>	<u>\$ 1,228,265</u>	<u>\$ 31,785</u>	<u>\$ 63,791</u>	<u>\$ 2,155,543</u>	<u>\$ 1,292,056</u>

The State reported \$244.3 million as deferred outflows of resources related to OPEB resulting from State contributions subsequent to the measurement date, which will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows (expressed in thousands):

Fiscal Year Ended June 30	State Employees'	DTC	Total
2022	\$ (16,714)	\$ (5,406)	\$ (22,120)
2023	(13,119)	(5,410)	(18,529)
2024	158,298	(5,344)	152,954
2025	217,310	(5,353)	211,957
2026	308,373	(5,357)	303,016
thereafter	—	(8,098)	(8,098)
Total	<u>\$ 654,148</u>	<u>\$ (34,968)</u>	<u>\$ 619,180</u>

Actuarial Assumptions

OPEB Trust

The total OPEB liability was determined by an actuarial valuation as of July 1, 2019, with rollforward procedures performed to June 30, 2020, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Salary Increases	3.25 percent (plus merit scale), including inflation
Investment rate of return	7.00 percent, net of OPEB plan investment expense, including inflation
Healthcare cost trend rates	Blended rate of 5.6% for 2020 decreasing to an ultimate rate of 3.5% for 2038

Mortality rates are based on the sex-distinct employee, healthy annuitant, and disabled annuitant mortality tables described below, including adjustment factors. Future mortality improvements are reflected by applying a custom projection scale on a generational basis to adjusted base tables from the base year.

The actuarial assumptions used in the July 1, 2019 valuation were based on the results of an actuarial experience study for the period July 1, 2010 through June 30, 2015. As a result of the 2016 actuarial experience study, claim curves, decrements, and healthcare trends were updated in the July 1, 2019 actuarial valuation to more closely reflect actual experience.

The long-term expected rate of return on the OPEB Trust plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class as of June 30, 2020 are summarized in the following table:

Asset Class	Asset Allocation Range		Long-Term Expected Real Rate of Return	Percentage of Fiduciary Net Position
	Min	Max		
Equity	20 %	80 %		
Domestic Equity			5.7 %	20.8 %
International Equity			5.7 %	7.1 %
Fixed Income	20 %	80 %		
Domestic Fixed Income			2.0 %	10.6 %
Alternative Investments	0 %	30 %	7.8 %	22.5 %

DTC OPEB Trust

The actuarial funding method used in the June 30, 2020 actuarial valuation was the entry age normal method. The actuarial assumptions included 3.1% investment rate of return, 2.5%

payroll growth rate, a 2.4% inflation rate, and a 4.7% healthcare cost trend rate based on the Society of Actuaries Long-Run Medical Cost Trend Model. Mortality rates were based on: Pri-2012 Blue Collar Dataset Employee Headcount-Weighted Mortality MP2020 for Contract Members; Pri-2012 White Collar Dataset Employee Headcount-Weighted Mortality for Non-Contract Members; Pri-2012 Blue Collar Dataset Retiree Headcount-Weighted Mortality for Retired Contract Members; Pri-2012 White Collar Dataset Retiree Headcount-Weighted Mortality for Retired Non-Contract Members; and Pri-2012 Total Dataset Disabled Headcount-Weighted Mortality for Disabled Members. All tables were projected using Scale MP-2020 and base year 2012.

DTC has appointed the DTC OPEB Trust Committee to administer the DTC OPEB Trust and to oversee policies and procedures related to the investment of the DTC OPEB Trust assets. The DTC OPEB Trust Committee adopted an Investment Policy Statement that sets the allowable ranges and target asset allocations for the DTC OPEB Trust. Diversification is achieved through providing a wide variety of investment classes in which to invest the funds. Long-term expected real rate of return and asset allocation for the DTC OPEB Trust's funds as of June 30, 2020 are as follows:

Asset Class	Asset Allocation	Long- Term Expected Real Rate of Return
Growth Assets		
Domestic Equity	42.0%	6.3 %
International Equity	16.0%	6.6 %
Emerging Equity	7.0%	7.4 %
Income Assets		
Core Fixed Income	17.5%	1.4 %
Intermediate IG Corp	8.7%	2.0 %
High Yield	4.4%	3.9 %
Emerging Debt	4.4%	4.1 %
	<u>100.0%</u>	

Discount Rate

OPEB Trust

The discount rate used to measure the total OPEB liability was 3.50 percent at the beginning of the current measurement period and 2.21 percent at the end, based on the Bond Buyer GO 20-Bond Municipal Bond Index, an index satisfying the GASB requirement of an index rate for 20-year, tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from Plan members will be made at the current contribution rate and that contributions from the State will continue to follow the pay-as-you-go contribution policy.

DTC OPEB Trust

The discount rate used to measure the total OPEB liability was 2.45 percent, based on the Bond Buyer GO 20-Bond Municipal Bond Index, an index satisfying the GASB requirement of an index rate for 20-year, tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher, as of June 30, 2020.

Sensitivity of the Net OPEB Liabilities to Changes in the Discount Rate

The following presents the net OPEB liabilities of the OPEB Trust and DTC OPEB Trust, as well as what the OPEB Trust's and DTC OPEB Trust's net OPEB liabilities would be if they were calculated using a discount rate that is 1-percentage-point lower (1.21 percent for OPEB Trust; 1.45 percent for DTC OPEB Trust) or 1-percentage-point higher (3.21 percent for OPEB Trust; 3.45 percent for DTC OPEB Trust) than the current discount rate (dollar amounts in thousands):

	<u>1% Decrease</u>	<u>Discount Rate</u>	<u>1% Increase</u>
OPEB Trust	\$ 11,255,792	\$ 9,389,866	\$ 7,931,987
DTC OPEB Trust	145,012	174,824	213,877

Sensitivity of the Net OPEB Liabilities to Changes in the Healthcare Cost Trend Rates

The following presents the net OPEB liabilities of the OPEB Trust and DTC OPEB Trust, as well as what the OPEB Trust's and DTC's OPEB Trust's net OPEB liabilities would be if they were calculated using healthcare cost trend rates that are 1-percentage-point lower (4.6 percent for the OPEB Trust; 3.7 percent for DTC OPEB Trust) or 1-percentage point higher (6.6 percent for the OPEB Trust; 5.7 percent for DTC OPEB Trust) than the current healthcare cost trend rates (dollar amounts in thousands):

	<u>1% Decrease</u>	<u>Healthcare Cost Trend Rates</u>	<u>1% Increase</u>
OPEB Trust	\$ 8,811,028	\$ 9,389,866	\$ 10,272,730
DTC OPEB Trust	144,284	174,824	214,937

OPEB Trust fiduciary net position. Detailed information about the OPEB Trust's fiduciary net position is available in the separately issued financial report. The financial report may be obtained by writing to the State Board of Pension Trustees and Office of Pensions, McArdle Building, Suite 1, 860 Silver Lake Boulevard, Dover, Delaware 19904-2402 or online at <http://www.delawarepensions.com/Financials.shtml>.

Detailed information about the DTC OPEB Trust's fiduciary net position is available in the separately issued DTC financial reports. Those reports may be obtained by writing to the Delaware Transit Corporation, 900 Public Safety Boulevard, Dover, Delaware 19901.

NOTE 16 PENSIONS

General Information about the Defined Benefit Pension Plans

The State Board of Pension Trustees (Board) administers the following plans/funds (the Plans) of DPERS as described below:

- State Employees' Pension Plan
- Special Fund
- New State Police Pension Plan
- Judiciary Pension Plans (Closed and Revised)
- County and Municipal Police and Firefighters' Pension Plans
- County and Municipal Other Employees' Pension Plan
- Delaware Volunteer Firemen's Fund
- Closed Diamond State Port Corporation Pension Plan
- Closed State Police Pension Plan

With the exception of the Closed Diamond State Port Corporation Pension Plan, the State's General Assembly is responsible for setting benefits and contributions and amending plan provisions; administrative rules and regulations are adopted and maintained by the Board. The Board of Directors for the Diamond State Port Corporation is responsible for setting benefits and contributions and amending the Closed Diamond State Port Corporation Pension Plan's provisions.

The Plans of DPERS are considered part of the State's financial reporting entity and are included in the accompanying financial statements as pension trust funds in the fiduciary funds. All of the investment assets of the plans and funds, with the exception of the Delaware Volunteer Firemen's Fund, are pooled and invested in a common DPERS Master Trust (Master Trust). Each of the plans or funds share in the Master Trust based on funds contributed and earnings or losses allocated. Individual investments in the Master Trust are not specifically identified to the various plans or funds.

Additionally, the following non-DPERS retirement funds/plans, described below, have been established under the custody of the Board for investment purposes only:

- County and Municipal Police and Firefighters' COLA Fund
- Post-Retirement Increase Fund
- Delaware Local Government Retirement Investment Pool

The Delaware Local Government Retirement Investment Pool (DEL RIP) is presented separately as investment trust funds in the fiduciary funds statement of net position and statement of

changes in net position. The remaining non-DPERS retirement funds/plans are included in the pension trust fund.

A description of the individual plans including eligibility provisions, types of benefits, and contribution requirements are set forth in general terms below and on the following pages. Detailed information regarding these plans is available in the Delaware Code and in the Rules and Regulations of the Board.

The Delaware Transit Corporation (DTC) administers two single-employer pension plans which cover the noncollectively bargained employees and the collective bargained employees, the DTC Plan and Contributory Plan, respectively. The descriptions and requirements of both plans are included on the following pages. Both plans issue a publicly available financial report.

State Employees' Pension Plan

Plan Description and Eligibility:

The State Employees' Pension Plan is a cost-sharing multiple employer defined benefit plan that covers virtually all full-time or regular part-time employees of the State, including employees of other affiliated entities.

There are two tiers within this plan:

- 1) Employees hired prior to January 1, 2012 (Pre-2012)
- 2) Employees hired on or after January 1, 2012 (Post-2011)

Service Benefits:

Final average monthly compensation (excludes overtime for Post-2011 employees) multiplied by 2.0% and multiplied by years of credited service prior to January 1, 1997, plus final average monthly compensation multiplied by 1.85% and multiplied by years of credited service after December 31, 1996, subject to minimum limitations. For this plan, final average monthly compensation is the monthly average of the highest three periods of twelve consecutive months of compensation.

Vesting:

Pre-2012 date of hire: 5 years of credited service.
Post-2011 date of hire: 10 years of credited service.

Retirement:

Pre-2012 date of hire: age 62 with 5 years of credited service; age 60 with 15 years of credited service; or after 30 years of credited service at any age. Post-2011 date of hire: age 65 with at least 10 years of credited service; age 60 with 20 years of credited service; or after 30 years of credited service at any age.

<u>Disability Benefits:</u>	Pre-2012 date of hire: same as service benefits. Employee must have 5 years of credited service. In lieu of disability pension benefits, over 90% of the members of this plan opted into a disability insurance program offered by the State effective January 1, 2006. Post-2011 date of hire: in the disability insurance program.
<u>Survivor Benefits:</u>	If employee is receiving a pension, the eligible survivor receives 50% of pension (or 67.7% with 2% reduction of benefit, 75% with 3% reduction of benefit, or 100% with 6% reduction of benefit); if employee is active with at least 5 years of credited service, eligible survivor receives 75% of the benefit the employee would have received at age 62.
<u>Contributions:</u>	Employer: determined by Board of Pension Trustees based on the actuarially determined rate. Employer contributions were 12.33% of earnings for fiscal year 2021. Pre-2012 date of hire Member: 3% of earnings in excess of \$6,000. Post-2011 date of hire Member: 5% of earnings in excess of \$6,000. Correction Officers: additional 2% of earnings in excess of \$6,000.
<u>Burial Benefit:</u>	\$7,000 per member.

Special Fund

Plan Description and Eligibility:

The Special Fund is a single employer defined benefit plan that provides certain benefits granted to individuals through legislation passed by the General Assembly.

<u>Service Benefits:</u>	Defined by special legislation.
<u>Vesting:</u>	Defined by special legislation.
<u>Retirement:</u>	Defined by special legislation.
<u>Disability Benefits:</u>	Defined by special legislation.
<u>Survivor Benefits:</u>	Same as State Employees' Plan.
<u>Contributions:</u>	Employer contributions are actuarially determined and fully funded in advance by the General Assembly.
<u>Burial Benefit:</u>	\$7,000 per member.

New State Police Pension Plan**Plan Description and Eligibility:**

The New State Police Pension Plan is a single-employer defined benefit plan that covers all State police officers appointed on or after July 1, 1980.

Service Benefits: 2.5% of final average monthly compensation multiplied by years of credited service up to 20 years, plus 3.5% of final average monthly compensation multiplied by years of service in excess of 20 years. For this plan, final average monthly compensation is the monthly average of the highest three consecutive years of compensation.

Vesting: 10 years of credited service at age 62.

Retirement: Age plus credited service (but not less than 10 years) equals 75; has 10 years of service and is retired due to age; or 20 years of credited service.

Disability Benefits: *Duty - Total Disability:* 75% of final average monthly compensation plus 10% for each dependent not to exceed 25% for all dependents.
Partial Disability: calculated the same as service benefits, subject to minimum 50% of final average monthly compensation.
Non-Duty: same as service benefits, total disability subject to a minimum 50% of final average monthly compensation plus 5% for each dependent not to exceed 20% for all dependents. Partial disability to a minimum of 30% of final average monthly compensation.

Survivor Benefits: If employee is receiving a pension, the eligible survivor receives 50% of pension; if employee is active, eligible survivor receives 50% of pension. If member is killed in the line of duty, eligible survivor receives 75% of compensation.

Contributions: Employer: determined by Board of Pension Trustees based on the actuarially determined rate. Employer contributions were 24.83% of earnings for fiscal year 2021.
Member: 7% of compensation.

Burial Benefit: \$7,000 per member.

Judiciary Pension Plans (Closed and Revised)**Plan Description and Eligibility:**

The Closed Judiciary Pension Plan is a single-employer defined benefit plan that covers members of State Judiciary appointed before July 1, 1980.

The Revised Judiciary Pension Plan is a single-employer defined benefit plan that covers members of State Judiciary appointed on or after July 1, 1980 or members appointed before July 1, 1980 who accept the provisions of this Plan.

Assets of one plan can be used to satisfy the liabilities of the other plan.

Service Benefits: Revised: $\frac{1}{24}$ th of final average monthly compensation multiplied by years of service up to 12 years, plus $\frac{1}{48}$ th of final average monthly compensation, multiplied by years of service from 13 to 24 years, subject to maximum limitations. For this plan, final average monthly compensation is the monthly average of the highest three consecutive years of compensation.

Vesting: 12 years of credited service.

Retirement: Revised: Age 62 with 12 years of credited service, or any age with 24 years of credited service.

Disability Benefits: Same as service benefits.

Survivor Benefits: Closed: If employee is receiving a pension, the eligible survivor receives $\frac{2}{3}$ of pension; if employee is active with 12 years of credited service, the eligible survivor receives $\frac{2}{3}$ of pension the employee would have been eligible to receive.

Revised: If employee is receiving a pension, the eligible survivor receives a minimum of 50% of pension (or $\frac{2}{3}$ with 2% reduction of benefit); if employee is active, eligible survivor receives $\frac{2}{3}$ of the benefit the employee would have received at age 62.

Contributions: Employer: determined by Board of Pension Trustees based on the actuarially determined rate. Employer contributions were 17.83% of earnings for fiscal year 2021.

Closed Member: \$500 per year for the first 25 years of service.

Revised Member: 3% of earnings that exceed \$6,000 per year, plus 2% of earnings that exceed the Social Security Wage Base for the first 24 years of service.

Burial Benefit: Not applicable.

Closed State Police Pension Plan

Plan Description and Eligibility:

The Closed State Police Pension Plan is a single-employer defined benefit plan that covers all State police officers appointed before July 1, 1980. The Plan was closed to new entrants beginning July 1, 1980.

Survivor Benefits: If employee is active or is receiving a service or service-related disability pension, the eligible survivor receives 75% of pension; if employee is receiving a non-service related disability pension, eligible survivor receives 50% of pension.

Contributions: Employer: funded on a pay-as-you-go basis.

Burial Benefit: \$7,000 per member.

Closed Diamond State Port Corporation Pension Plan

Plan Description and Eligibility:

The Closed Diamond State Port Corporation Pension Plan is a single-employer defined benefit plan which covers all employees of the Diamond State Port Corporation. The plan was frozen as of October 3, 2018.

Service Benefits: 1.75% of final average monthly compensation multiplied by the years of credited service (not to exceed 30 years). For this plan, final average monthly compensation is the monthly average of the highest consecutive five years of compensation within the last ten years of employment.

Vesting: 5 years of credited service.

Retirement: Age 65 with 5 years of credited service, or age (not less than 55 years) plus credited service equals 90.

Disability Benefits: Same as service benefits. Employee must have 15 years of credited service.

Survivor Benefits: If employee is receiving a pension, the eligible survivor receives 50% of pension; if employee is active with at least 15 years of credited service, the eligible survivor receives 50% of pension the employee would have received at age 65.

Contributions: Employer: determined by Board of Pension Trustees at the actuarially determined amount. Employer contributions were \$209 thousand for fiscal year 2021.
Member: Not applicable

Burial Benefit: Not applicable.

County and Municipal Police and Firefighters' Pension Plan

Plan Description and Eligibility:

County and Municipal Police and Firefighters' Pension Plan is a cost-sharing multiple-employer defined benefit plan that cover police officers and firefighters employed by a county or municipality of the State which has become part of the Plan.

Service Benefits: 2.5% of final average monthly compensation multiplied by years of credited service up to 20 years, plus 3.5% of final average monthly compensation multiplied by years of service in excess of 20 years. For this plan, final average monthly compensation is the monthly average of the highest three consecutive years of compensation (excluding overtime and special pay).

Vesting: 5 years of credited service.

Retirement: Age 62 with 5 years of service; age plus credited service (but not less than 10 years) equals 75; or 20 years of credited service.

Disability Benefits: *Duty - Total Disability:* 75% of final average compensation plus 10% for each dependent not to exceed 25% for all dependents.
Partial Disability: calculated the same as service benefits, subject to minimum 50% of final average compensation.

Non-Duty: same as service benefits.

Total Disability: subject to a minimum of 50% of final average monthly compensation plus 5% for each dependent not to exceed 20% for all dependents.

Partial Disability: subject to a minimum of 30% of final average monthly compensation.

Survivor Benefits: If employee is receiving a pension, then eligible survivor receives a minimum of 50% of pension; if employee is active, eligible survivor receives 75% of pension the employee would have received at age 62. If the member is killed in the line of duty, the eligible survivor receives 75% of the member's compensation.

Contributions: Employer: determined by Board of Pension Trustees at the actuarially determined rate. Employer contributions were 16.59% of earnings for fiscal year 2021.
Member: 7% of compensation.

Burial Benefit: Not applicable.

County and Municipal Other Employees' Pension Plan

Plan Description and Eligibility:

County and Municipal Other Employees' Pension Plan is a cost-sharing multiple employer defined benefit plan that covers employees of counties or municipalities which have become part of the Plan.

Service Benefits: 1/60th of final average monthly compensation multiplied by years of credited service, subject to maximum limitations. For this plan, final average monthly compensation is the monthly average of the highest five years of compensation.

Vesting: 5 years of credited service.

Retirement: Age 62 with 5 years of credited service; age 60 with 15 years of credited service; or after 30 years of credited service.

Disability Benefits: Same as service benefits. Employee must have 5 years of credited service.

Survivor Benefits: If employee is receiving a pension, then eligible survivor receives a minimum of 50% of pension; if the employee is active, eligible survivor receives 50% of pension the employee would have received at age 62.

Contributions: Employer: determined by Board of Pension Trustees at the actuarially determined rate. Employer contributions were 7.06% of earnings for fiscal year 2021.
Member: 3% of earnings in excess of \$6,000.

Burial Benefit: Not applicable.

Delaware Volunteer Firemen's Fund

Plan Description and Eligibility:

The Delaware Volunteer Firemen's Fund is a cost-sharing multiple employer defined benefit pension plan that covers all actively participating volunteers of fire departments, ladies auxiliaries, or ambulance organizations within the State.

Service Benefits: \$5 multiplied by years of credited service (not to exceed 25 years) per month.

Vesting: 10 years of credited service.

Retirement: Age 60 with 10 years credited service.

Disability Benefits: Not applicable.

Survivor Benefits: Not applicable.

Contributions: Employer: determined by Board of Pension Trustees at the actuarially determined rate. Employer contributions were \$444.47 per member for fiscal year 2021.
Member: \$60 per member per calendar year.

Burial Benefit: Not applicable.

Employees covered by benefit terms. At June 30, 2020, the following employees were covered by the benefit terms for each plan:

	State Employees	Special	New State Police	Judiciary	Closed State Police
Inactive plan members or beneficiaries currently receiving benefits	28,470	6	305	51	475
Inactive plan members entitled to but not yet receiving benefits	4,464	—	10	1	—
Active plan members	37,724	—	714	59	—
Total plan members	<u>70,658</u>	<u>6</u>	<u>1,029</u>	<u>111</u>	<u>475</u>

The June 30, 2020 valuation is the most recent available to record the net pension liability and for consistency, all schedules are utilized from this valuation.

Non-DPERS Fund Descriptions and Contributions***County and Municipal Police and Firefighters' COLA Fund***

During 1990, the State established a mechanism for funding post-retirement increases granted by employers who participate in the County & Municipal Police and Firefighters' Pension Plan and manage a non-DPERS system "closed" pension plan for former employees.

Closed pension groups pertain to employees, for whom the employer elected not to become a part of the system when their employers joined the DPERS. Currently, five employers maintain such closed groups. They include the City of Dover, City of Elsmere, City of New Castle, City of Wilmington, and New Castle County.

The COLA Fund is financed through a 0.25% tax on the value of certain homeowners' insurance premiums written within the State. The proceeds of the tax are directed into the COLA Fund on a semi-annual basis and managed by the Board for investment purposes. Unused amounts revert to the State General Fund after a period of 10 years per Section 419, Title 80 of the Delaware Code. Each participating employer receives an allocation of these contributions, earnings on investments of the COLA Fund, and expenses attributed to the COLA Fund based on the headcount of retired members of its police force.

Any new employer, with a closed police pension plan, that joins the system is eligible to receive money from the COLA Fund. In accordance with Section 708(c), Title 18 of the Delaware Code, when a participating employer grants a post-retirement increase for a closed plan outside of the DPERS County and Municipal Police and Firefighters' Pension Plan, funds are transferred from the COLA Fund to the trust account(s) of the closed pension group maintained by the employer. However, the entity must first provide 25% of the cost estimated by an actuary while the COLA Fund provides the remaining 75% of the cost.

These increases are not the responsibility of DPERS. Each employer entity is solely responsible for any post-retirement increase granted even if the actuarial cost calculated at the onset of the increase exceeds the employer's share of the COLA Fund's balance. There is no joint liability amongst existing employers.

Post-Retirement Increase Fund (PRI)

The State passed legislation which established a mechanism for funding ad hoc post-retirement increases granted by the General Assembly to members retired under the State Employees' Plan, the New State Police Plan, and the Judiciary Plans (Closed and Revised) beginning in fiscal year 1994. The mechanism allows the State to appropriate actuarially determined employer contributions to a separate PRI fund managed by the Board. With the exception of the Closed State Police Plan, projected benefit payments do not include the effects of projected ad hoc cost-of-living adjustments (ad hoc COLAs) as they are not substantively automatic. The primary considerations relevant to making this determination include the historical pattern of granting changes and the consistency in the amounts of the changes. The actuary uses the current actuarial assumptions, methods, and population data to calculate the estimated additional liability resulting from granted ad hoc benefit increases. When the Legislature grants an ad hoc post-

retirement adjustment, funds are transferred from this PRI fund on a monthly basis based on a five-year actuarial funding schedule to the appropriate pension plan from which the additional benefits are disbursed. For the fiscal year ended June 30, 2021, there were no transfers to plans in DPERS.

As of June 30, 2021, recently granted post-retirement increases have outstanding liabilities totaling \$66.0 million, which are anticipated to be funded by the State and transferred to the appropriate plans over the next fiscal years as follows (expressed in thousands):

Fiscal Year	Amount
2022	\$12,552
2023	12,866
2024	13,188
2025	13,517
2026	13,855

The Board adopts actuarially determined funding for the Post-Retirement Increase Fund. While a rate was not adopted for fiscal year 2021, the board adopted a funding rate of 1% of covered payroll for fiscal year 2022.

Local Government Retirement Investment Pool (DEL RIP)

In June 1996, the State established DEL RIP in the custody of the Board to allow local governments within the State the option to pool their pension assets with DPERS for investment purposes. The DEL RIP is an external investment pool that allows local governments to potentially maximize their rate of return and reduce administrative expenses related to the investment of funds. Participation in the pool is voluntary. There were two participating entities in DEL RIP as of June 30, 2021, which comprise the pool in its entirety: Town of Elsmere and Town of Newport.

DEL RIP is subject to the oversight of DPERS's Investment Committee and not subject to the regulatory oversight of the Securities and Exchange Commission (SEC). DPERS has not provided or obtained any legally binding guarantees during the year to support the value of shares. The fair value of the pool is determined in the same manner as the value of the Master Trust shares. Since this pool is a portion of the total DPERS, the same accounting and investment policies apply.

Delaware Transit Corporation Pension Plan

Plan Description and Eligibility:

The DTC Pension Plan (DTC Plan) is a single-employer defined benefit plan that covers limited and full-time, nonunion salaried employees.

<u>Service Benefits:</u>	1.35% of the highest 36-month average earnings plus 1.25% of the average earnings above the Integration Amount for the calendar year in which the participant retires multiplied by years of service, up to a maximum of 25 years.
<u>Vesting:</u>	100% after 5 years of service
<u>Retirement:</u>	Age 55 with at least 10 years of continuous service or 25 years of credited service at any age or upon reaching age 62.
<u>Disability Benefits:</u>	Employee must have 5 years of credited service. Determined in the same manner as retirement benefits but are payable immediately without an actuarial reduction
<u>Survivor Benefits:</u>	If employee dies while employed after completing at least 5 years of service, the eligible survivor receives 75% of accrued benefit that would have been payable at age 65; for a former employee who dies after completing 5 years of service, eligible survivor receives 50% of the accrued benefit that would have been payable at age 65.
<u>Contributions:</u>	Employer: determined by DTC Pension Board Trustees based on the actuarially determined rate. Employer contributions were 9.05% of earnings for fiscal year 2021. Employee: 3% of earnings in excess of \$6,000.

Delaware Transit Corporation Contributory Plan

Plan Description and Eligibility:

The DTC Contributory Plan (Contributory Plan) is a single-employer defined benefit plan that covers all full-time employees of Local 842, Amalgamated Transit Union and Local 32, Office and Professional Employee International Union.

<u>Service Benefits:</u>	\$65 per month (\$68 per month after January 1, 2016; \$68.50 per month after January 1, 2017; \$70.50 per month after January 1, 2018; \$72.50 per month after January 1, 2019; \$74.00 per month after January 1, 2020) per year of service or refund of contributions with interest before becoming eligible or choosing not to elect
<u>Vesting:</u>	Completion of 10 years of service
<u>Retirement:</u>	Age 65 with at least 5 years of continuous service or 25 years of credited service at any age.

<u>Disability Benefits:</u>	Employee must have 15 years of credited service. Equal to normal retirement benefit during the period of disability.
<u>Survivor Benefits:</u>	A lump-sum payment will be made comprised of the aggregate of the participant's contributions that exceed the aggregate of the payments that have been made to the participant.
<u>Contributions:</u>	Employer: 5% of regular hourly wages worked up to a maximum of 2,080 hours per year. Employer contributions were 4.06% of earnings for calendar year 2020.
	Employee: 5% of regular hourly wages worked up to a maximum of 2,080 hours per year.

Employees covered by benefit terms. The following employees were covered by the benefit terms for each plan:

	DTC (at June 30, 2020)	Contributory (at December 31, 2020)
Inactive members or beneficiaries currently receiving benefits	103	226
Terminated, vested members	112	113
Active plan members	348	654
Total plan members	563	993

Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions

At June 30, 2021, the State reported the following net pension liabilities (assets) (expressed in thousands):

Plan	Governmental Activities		Business-Type Activities	
	Asset	Liability	Asset	Liability
State Employees'	\$ —	\$ 1,211,336	\$ —	\$ 51,386
Special Fund	61	—	—	—
New State Police	—	56,348	—	—
Judiciary	8,769	—	—	—
Closed State Police	—	401,855	—	—
DTC	—	—	—	3,526
Contributory	—	—	—	2,334
	\$ 8,830	\$ 1,669,539	\$ —	\$ 57,246

The net pension asset and liability were measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability (asset) was determined by an actuarial valuation as of June 30, 2019 with update procedures used to roll forward the total pension liability to June 30, 2020. The State's proportion of the net pension liability of the State Employees' Plan was based on a projection of the State's long-term share of contributions to the pension plan relative to the projected contributions of all participating organizations, actuarially determined. At June 30, 2020, the State's proportion of the net pension liability of the State Employees' Plan was 89.8%, which was unchanged from its proportion measured as of June 30, 2019. The State's pension liability and related information for the single-employer plans is as follows:

Change in assumptions	—	—	—	—	—	—	—	—
Contributions subsequent to the measurement date	—	—	—	—	—	—	—	—
	<u>\$ 227,423</u>	<u>\$ 5</u>	<u>\$ 5,784</u>	<u>\$ 6,533</u>	<u>\$ 1,166</u>	<u>\$ 1,556</u>	<u>\$ 6,882</u>	<u>\$249,349</u>

The State reported \$287.7 million as deferred outflows of resources related to pensions resulting from State contributions subsequent to the measurement date, which will be recognized as a reduction of the net pension liability in the year ended June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows (expressed in thousands):

Fiscal Years Ending June 30:	State Employees'	Special Fund	New State Police	Judiciary	Closed State Police	DTC	Contributory	Total
2022	\$ (15,895)	\$ (3)	\$ (3,927)	\$ (2,605)	\$ (598)	\$ (43)	\$ (1,403)	\$ (24,475)
2023	14,085	(1)	(974)	(1,922)	(356)	143	(670)	10,304
2024	29,075	—	1,922	(944)	(122)	273	(1,934)	28,269
2025	(13,290)	(1)	220	(793)	(89)	324	(702)	(14,330)
2026	13,600	—	2,965	—	—	121	25	16,711
Thereafter	—	—	1,827	—	—	185	58	2,070
Total	<u>\$ 27,575</u>	<u>\$ (5)</u>	<u>\$ 2,034</u>	<u>\$ (6,265)</u>	<u>\$ (1,166)</u>	<u>\$ 1,003</u>	<u>\$ (4,627)</u>	<u>\$ 18,550</u>

Contributions. The State reported the following contributions for the DPERS Plan:

Schedule of Contributions
(Expressed in thousands)

Contributions	2020
Contractually required contribution	\$ 231,433
Contributions in relation to the contractually required contribution	231,433
Contribution excess	<u>\$ —</u>
Covered payroll	<u>\$ 1,936,497</u>
Contributions as a percentage of covered payroll	12.0 %

Actuarial assumptions. The total pension liability in the June 30, 2020 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

	State Employees'	Special	New State Police	Judiciary	Closed State Police
Investment Rate of Return/Discount Rate (1)	7.0%	7.0%	7.0%	7.0%	2.21%
Projected Salary Increases (1)	2.5% + Merit	N/A	2.5% + Merit	2.5% + Merit	N/A
Cost of Living Adjustments	0%	0%	0%	0%	2.5%

(1) - Inflation is included at 2.5%

	DTC	Contributory
Investment Rate of Return/Discount Rate (1)	7.0%	7.0%
Projected Salary Increases (1)	2.5%	2.5%

(1) - Inflation is included at 2.0%

The total pension liabilities are measured based on assumptions pertaining to interest rates, inflation rates, and employee demographic behavior in future years. It is likely that future experience will not exactly conform to these assumptions. To the extent that actual experience deviates from these assumptions, the emerging liabilities may be higher or lower than anticipated. The more the experience deviates the larger the impact on future financial statements.

Mortality assumptions for the DPERS Plans were based on the RP-2014 tables with gender adjustments for healthy annuitants and disabled retirees and an adjusted version on MP-2015 mortality improvement scale on a fully generational basis. Mortality rates for the DTC Plan were based on the RP-2014 Mortality with generational projection using scale MP-2017 and the rates for the Contributory Plan were based on the sex distinct RP-2014 Blue Collar Table, fully generational with scale MP-2018.

With the exception of the Closed State Police Pension Plan, projected benefit payments do not include the effect of projected ad hoc cost-of-living adjustments (ad hoc COLAs) as they are not substantively automatic. The primary considerations relevant to making this determination include the historical pattern of granting the changes and the consistency in the amounts of the changes.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by an asset allocation percentage which is based on the nature and mix of current and expected plan investments, and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in DPERS's current and expected asset allocation as of June 30, 2020, DTC's current and expected asset allocation as of July 1, 2020, and Contributory's current and expected asset allocation as of January 1, 2021 are summarized in the following table:

Asset Class	Asset Allocation %	Long-Term Expected Real Rate of Return %
DPERS		
Domestic Equity	34.0	5.7
International Equity	12.3	5.7
Fixed Income	25.6	2.0
Alternative Investments	5.7	7.8
Cash & Equivalents	22.4	0.0
	<u>100.0</u>	
DTC		
Domestic Equity	42.0	6.3
International Equity	16.0	6.6
Emerging Equity	7.0	7.4
Core Fixed Income	17.5	1.4
Intermediate IG Corp	8.7	2.0
High Yield	4.4	3.9
Emerging Debt	4.4	4.1
	<u>100.0</u>	
Contributory		
Domestic Equity	39.0	8.0
International Equity	21.0	8.0
Emerging Equity	39.0	4.0
Cash & Equivalents	1.0	2.0
	<u>100.0</u>	

Discount rate. The discount rate for all plans, except the Closed State Police Pension Plan, used to measure the total pension liability was 7.0%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from employers will be made at rates determined by the Board and DTC Pension Plan Committees, actuarially determined. Based on those assumptions, the pension plans' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The Closed State Police Pension Plan used a discount rate of 2.21%, which represents the 20-year AA Municipal Bond rate since the plan is pay as you go.

Sensitivity of the net pension liability to changes in the discount rate. The following presents the State's proportionate share of the net pension liability of the State Employees' Plan (cost sharing) and the net pension liability (asset) of the other Plans (single employer), calculated

using the discount rate of 7.0% (2.21% for the Closed State Police Pension Plan) as well as what the State's proportionate share for the cost sharing and the single employer Plans' net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current discount rate (expressed in thousands):

	1 % Decrease	Current Discount Rate	1 % Increase
State Employees'	\$ 2,424,454	\$ 1,262,722	\$ 283,753
Special Fund	(57)	(61)	(65)
New State Police	135,865	56,348	(9,542)
Judiciary	(1,177)	(8,769)	(15,349)
Closed State Police	452,552	401,855	359,967
DTC	8,035	3,526	(250)
Contributory	10,717	2,334	(4,722)
Total	<u>\$ 3,030,389</u>	<u>\$ 1,717,955</u>	<u>\$ 613,792</u>

Pension plan fiduciary net position. Detailed information about the pension plans' fiduciary net position is available in the separately issued DPERS financial report. The financial report may be obtained by writing to the State Board of Pension Trustees and Office of Pensions, McArdle Building, Suite 1, 860 Silver Lake Boulevard, Dover, Delaware 19904-2402 or online at <http://www.delawarepensions.com/Financials.shtml>.

Detailed information about the DTC and Contributory pension plans' fiduciary net position is available in separately issued financial reports. Those reports may be obtained by writing to the Delaware Transit Corporation, 900 Public Safety Boulevard, Dover, Delaware 19901.

Deferred Compensation Plans

The State offers all of its employees, who are otherwise eligible for the State's employee benefit plans, a deferred compensation plan created in accordance with Internal Revenue Code Section 457(b). The Plan, available to all State of Delaware employees, permits them to defer a portion of their salary to future years. Participation in the Plan is optional. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency.

The State offers its employees of the State's Public (Local) School Districts, the State of Delaware Department of Education, Delaware Technical and Community College, and Delaware State University, which is a component unit of the State, a deferred compensation plan designed to qualify under Section 403(b) of the Internal Revenue Code. The Plan permits those employees to defer a portion of their salary to future years. Participation in the Plan is optional. On termination of service due to death, disability, retirement, or other reasons, a participant will receive either a lump-sum amount equal to the value of the participant's vested interest in their account or periodic payments. In addition, the Plan allows for hardship distributions if certain criteria are met.

NOTE 17 COMMITMENTS

The State has entered into various contractual commitments for services and for construction of various highway, capital and lottery projects. Commitments of the proprietary fund include \$686.3 million for DelDOT.

Encumbrances which represent commitments related to unperformed contracts for goods or services are included in restricted, committed, or assigned fund balance as appropriate. Encumbrances lapse at the end of the applicable appropriation, unless re-appropriated by the Legislature. Encumbrances outstanding against continuing appropriations at the end of fiscal year 2021 are as follows: general fund \$247.8 million, federal funds \$178.6 million, local school funds \$39.5 million, and capital project funds \$210.6 million.

NOTE 18 CONTINGENCIES

Various parties have made claims against the State. For those cases in which it is possible that a loss will be incurred and in which the amount of the potential judgment can be reasonably estimated, the State estimates the liability to be \$205.5 million. The State recognized \$0.5 million in governmental activities as claims and judgments liabilities for pending litigation settlements estimated to be probable as of June 30, 2021. \$1.2 million is recorded in governmental funds as payables reflecting settlements paid subsequent to the end of the fiscal year. In the opinion of the Attorney General of the State, the remaining cases are either subject to a valid defense or are not expected to result in an impairment of the State's financial position. Management believes the settlement in aggregate of claims outstanding will not result in amounts material to the financial statements of the State.

The State receives significant financial assistance from the federal government in the form of grants and entitlements. The right to these resources is generally conditioned upon compliance with terms and conditions of the grant agreements and applicable federal regulations, including the expenditure of the resources for eligible purposes. Substantially all grants are subject to financial and compliance audits by the grantors. Any disallowance as a result of these audits become a liability of the State. The State does not believe there are any liabilities that will result from such audits for periods through June 30, 2021 that would have a material effect on its financial position or the results of operations.

Site investigation, planning and design, cleanup, and site monitoring are typical pollution remediation activities underway across the State. Several State organizations have dedicated programs, rules and regulations that routinely deal with remediation related issues; others become aware of pollution conditions in the fulfillment of their missions. The State has the knowledge and expertise to estimate the remediation obligations presented herein based upon prior experience in identifying and funding similar remediation activities. The State calculates pollution remediation liabilities using the expected cash flow technique. Where the State cannot reasonably estimate a pollution remediation obligation, it does not report a liability; however, the State has not identified any of these situations.

The pollution remediation obligation estimates that appear in this report are subject to change over time. Cost may vary due to price fluctuations, changes in technology, changes in potential responsible parties, results of environmental studies, changes to statutes or regulations, and other factors that could result in revisions to these estimates. Prospective recoveries from responsible parties may reduce the State's obligation. Capital assets may be created when pollution remediation outlays are made under specific circumstances.

At June 30, 2021, the State had a total pollution remediation liability of \$24.4 million. Of this amount, \$16.2 million is for various lead remediation projects where the properties are either owned by the State or a local government or the properties have been abandoned by the owners, \$7.1 million are for federally designated environmental hazards where the State is working with the Environmental Protection Agency to remediate, and the remaining \$1.1 million are for remediation to properties that have been acquired by the State.

NOTE 19 GOVERNMENTAL FUND BALANCES

The State's Governmental Fund balances are classified according to the relative constraints that control how amounts can be spent. Classifications include:

- **Nonspendable:** Balances include items that cannot be spent. This includes activity that is not in a spendable form (inventories, prepaid amounts, long-term portion of loans/notes receivable and interfund receivables, or property held for resale unless the proceeds are restricted, committed or assigned) and activity that is legally or contractually required to remain intact.
- **Restricted:** Balances have constraints placed upon the use of the resources either by constitutional provisions, enabling legislation such as the enforcement of locally raised real estate taxes and other revenues for the Local School District Fund, external resource providers such as creditors and grantors, or imposed by law or regulations of other governments.
- **Committed:** Balances can be used only for specific purposes pursuant to constraints imposed by a formal action of the State's Legislature, the State's highest level of decision-making authority. This formal action is the passage of law by the legislature, or by other parties by the State's legislature, creating, modifying, or rescinding an appropriation.
- **Assigned:** Balances include amounts that are constrained by the State's intent, as approved by the State's legislature, to be used for a specific purpose, but are neither restricted nor committed. For the General Fund, amounts constrained for the intent to be used for specific purpose by a governing board or a body or official that has been delegated authority by the State's legislature to assign amounts based on budgetary appropriations. Also, for the General Fund, the amounts assigned for Education are due largely to the policies set by the Board of Delaware Technical and Community College (DTCC) for tuition and fees of DTCC.
- **Unassigned:** Balance is the residual amount of the General Fund not included in the other four categories. Also, any deficit fund balances within the other governmental fund types are reported as unassigned.

The State spends restricted resources first and uses unrestricted resources for purposes for which restricted resources are not available.

When expenditures are incurred for which committed, assigned, or unassigned fund balances are available, the State considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the State has provided otherwise in its commitment or assignment actions.

A summary of governmental fund balances at June 30, 2021, is as follows (expressed in thousands):

	General	Federal	Local School District	Capital Projects	Total Governmental Funds
Nonspendable					
Receivables	\$ 39,008	\$ —	\$ —	\$ —	\$ 39,008
Inventory	8,436	—	—	—	8,436

Fund Balances Restricted by Enabling Legislation

The restricted fund balance for the Local School Districts Fund are funds that are used to account for activities relating to Delaware's 19 local school districts, which are funded by locally raised real estate taxes and other revenues.

The restricted fund balance for the Capital Projects Fund are funds that are used to account for activities relating to Delaware's construction projects mainly for the local school districts and projects overseen by the Office of Management and Budget, which are funded by proceeds from the issuance of bonds.

NOTE 20 TAX ABATEMENTS

As of June 30, 2021, the State of Delaware provides tax abatements through two programs: Bank Franchise Tax Job Creation Credit and Historic Preservation Credit.

- The Bank Franchise Tax Job Creation Credit (Delaware Code, Title 5, Chapter 11, §1105(h) & (i)) allows a credit against the annual franchise tax imposed upon a banking organization or trust company. Application for certification as a qualified employer or qualified retained employer must be made to the Secretary of Finance with a copy to the Director of the Division of Small Business which will be reviewed annually prior to the allowance of credits in accordance with Title 30, Chapter 20, Subchapter IX. A credit against the tax of \$1,250 for each new qualified employee above the bank's employees in the base year is allowed only if the new qualified employees are at least 200 above the number during the base year and the taxpayer has made new investments (land, land improvement, machinery and equipment) of at least \$15,000 per qualified employee in excess of the number of employees during the base year.
- The Historic Preservation Credit (Delaware Code Title 30, Chapter 18, §1811–§1817) entitles a person incurring qualified expenditures, as identified in Title 30, for preservation and repair of historic structures to a credit against bank franchise or incomes taxes subject to limitations. The building must qualify as a Certified Historic Property, and the taxpayer must submit an application for Certification of Rehabilitation along with a Request for Award Credit.

<u>Tax Abatement Program</u>	<u>Amount of Taxes Abated (in thousands)</u>
Bank Franchise Tax Job Creation Credit	\$4,888
Historic Preservation Credit	9,317

NOTE 21 NO COMMITMENT DEBT (NOT INCLUDED IN FINANCIAL STATEMENTS)

The State, by action of the General Assembly, created various authorities for the express purpose of providing private entities with an available low cost source of capital financing for construction of facilities deemed to be in the public interest. The bonds of the authorities represent limited obligations payable solely from payments made by the borrowing entities. The majority of the bonds are secured by the property financed. Upon repayment of a bond, ownership of acquired property transfers to the entity served by the bond issuance. The State has no obligation for this

debt. Accordingly, these bonds are not reflected in the accompanying financial statements. These bonds are issued through the Delaware Economic Development Authority. The principal amount of bonds outstanding at June 30, 2021 for this entity amounted to \$762.9 million.

NOTE 22 AFFILIATED ORGANIZATIONS

State Lottery - Multi-State Lottery Association

The State Lottery is a member of the Multi-State Lottery Association (MUSL), which operates online games on behalf of participating state lotteries. Each MUSL member sells game tickets through its agents and makes weekly wire transfers to the MUSL in an amount equivalent to the member's share of the estimated grand prize liability. Each MUSL member pays lesser prizes directly to the winners. The MUSL operates the Powerball game, the Mega Millions game, and the Lotto America game. Participating lotteries are required to maintain deposits with MUSL for contingency reserves to protect MUSL from unforeseen prize liabilities. The money in this reserve fund is refundable to MUSL members if the MUSL disbands or if a member leaves the MUSL Board.

The amount the Lottery had on deposit with the MUSL as of June 30, 2021 was \$2.5 million. This amount is also reported as a liability on the Lottery's statement of net position because they represent the amount to be paid to the State upon separation from the MUSL if the MUSL is not required to use a portion of the Lottery's reserves held by the MUSL.

Complete separate financial statements for the MUSL may be obtained at the Multi-State Lottery Association, 4400 NW Urbandale Drive, Urbandale, IA 50322.

NOTE 23 COMPONENT UNIT CONCESSION AGREEMENT

As discussed in Note 1, the State is currently evaluating the future impact of GASB Statement No. 87 Leases which it adopted in the required reporting period beginning July 1, 2021. One of the State's discretely presented component units, the Diamond State Port Corporation (Corporation), early adopted GASB Statement No. 87 to account for an agreement the Corporation executed during fiscal year 2019, as described below.

Effective October 3, 2018, the Corporation and GT USA Wilmington, LLC (GT) entered into a Concession Agreement to transfer to GT the right to commercially operate the Port of Wilmington with the Corporation becoming a landlord with certain oversight and consent rights. The term of the Concession Agreement is for a noncancellable term of fifty years. Although the Concession Agreement is referred to as a "concession," it does not meet the requirements of a service concession arrangement under GASB Statement No. 60 - Accounting and Financial Reporting for Service Concession Arrangements. Based on the criteria under GASB Statement No. 60, it is required to be accounted for as lease. Accordingly, the Corporation is recognizing the lease in accordance with GASB Statement No. 87 – Leases.

In return for the right to commercially operate the Port, the Concession Agreement requires GT to invest \$580.0 million to redevelop the existing port facilities and establish new port facilities at Edgemoor and to pay the Corporation a Concession Fee. In return for the Concession Fee, the

Corporation sold to GT its cranes, tools, vehicles, cargo handling equipment, furniture, furnishings, computers, telephones, telephone numbers, office supplies, software and other intellectual property and all other equipment and parts used in operation at the Port to GT. Also, the Corporation will lease to GT all of the land located at the existing Port and Edgemoor that is owned by the Corporation, together with all improvements, including all buildings, structures, piers, wharves, and utility infrastructure owned by the Corporation and all of Corporation's easement rights.

The Concession Agreement requires GT to pay a minimum concession fee of \$3.0 million per year for the first ten years of the term, \$13.1 million for the eleventh year, and up to \$12.0 million per year during the remaining thirty-nine years. The minimum concession fee is based on volume of services provided by GT. The minimum concession fee is adjusted every third year based on the change in consumer price index. In conjunction with the Amendment to the Concession Agreement effective February 10, 2020, the Corporation has agreed to accept payment of the concession fee for the period from July 1, 2019 through February 10, 2020 in four equal payments. The first two payments were received in April 2020 and February 2021. The remaining two payments of \$0.6 million are due on February 10, 2022 and 2023.

In accordance with GASB Statement No. 87, the initially recognized lease and note receivable balances exclude any concession fees due for services that exceed the minimums embodied in the Concession Agreement or the change in the consumer price index.

Upon the inception and subsequent amendment of the Agreement, for the assets leased, the Corporation recognized a lease receivable and deferred inflow of resources of \$119.8 million, which is equal to the present value of the fixed payment stream. The present value was calculated using a discount rate of 4.2%, in accordance with the requirements of GASB Statement No. 62, Codification of Accounting and Financial Reporting Guidance. During fiscal year 2021, the Corporation recognized lease revenue and interest income from the Concession Agreement of \$3.4 million and \$5.7 million respectively. The Agreement requires GT to return these assets to the Corporation in a condition necessary for ongoing operations during the five years prior to the termination date.

Similarly, for the assets sold, the Corporation recognized a note receivable of \$54.8 million which is equal to the present value using the same discount rate of 4.2%. During fiscal year 2021, the Corporation recognized interest income on the note receivable of \$2.6 million.

Future minimum concession fees under the terms of the agreement are as follows as of June 30 (expressed in thousands):

	Lease Receivable			Note Receivable			Total
	Principal Receivable	Interest	Minimum Concession Fee	Principal Receivable	Interest	Minimum Concession Fee	Minimum Concession Fee
2022	\$ —	\$ 2,058	\$ 2,058	\$ —	\$ 942	\$ 942	\$ 3,000
2023	—	2,058	2,058	—	942	942	3,000
2024	—	2,058	2,058	—	942	942	3,000
2025	—	2,058	2,058	—	942	942	3,000
2026	—	2,058	2,058	—	942	942	3,000
2027-2031	—	25,752	25,752	—	11,792	11,792	37,544
2032-2036	—	41,216	41,216	—	18,872	18,872	60,088
2037-2041	—	41,216	41,216	—	18,872	18,872	60,088
2042-2046	7,144	34,071	41,215	3,271	15,601	18,872	60,087

NOTE 24 SUBSEQUENT EVENTS**Discretely Presented Component Units***Delaware State University (DSU)*

DSU signed, on July 9, 2020, an acquisition agreement with Wesley College under which, subject to certain conditions, DSU will acquire Wesley College as of the close of business on June 30, 2021. On July 1, 2021, DSU and Wesley College entered into various agreements amending the prior acquisition agreement. As of July 1, 2021, Wesley College sold, assigned, granted, conveyed and transferred the majority of their assets and liabilities to DSU.

State of Delaware Annual Comprehensive Financial Report

Required Supplementary Information

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

BUDGETARY REPORTING

BUDGETARY BASIS VS. GAAP

While GAAP requires the use of the fund structure described in Note 1(b), the State's budget system uses only a general fund and a special fund, each of which uses the basis of accounting described below. Additionally, the activities of the Delaware State Housing Authority and Delaware State University, both component units of the State, which are not substantially supported by tax revenues, are not included in the budget data. Reconciliation of the accrual adjustments necessary to convert budgetary basis information to GAAP basis is presented as Required Supplementary Information.

The State Constitution requires the Governor to prepare and submit to the General Assembly a State budget for the ensuing year. The State budgets and controls its financial activities on the cash basis of accounting. In compliance with State law, the State records its financial transactions in either of two major categories – the general fund or the special fund. References to these two funds in this document include the terms “budgetary” or “budgetary basis” to differentiate them from the GAAP funds of the same name which encompass different funding categories. The General Assembly enacts the budget through the passage of specific line-item appropriations by department, the legal level of budgetary control, the sum of which must not exceed 98 percent of the estimated revenues and available unencumbered cash balance from the prior year pursuant to the State Constitution. The Governor has the power to approve or veto each appropriation passed by the General Assembly. The General Assembly may also enact supplemental appropriation or special appropriation bills after it completes action on the State's budget.

The budgetary general fund provides for the cost of the State's general operations and is credited with all tax and other revenue of the State not dedicated to budgetary special funds. Certain special funds are subject to appropriation, referred to herein as budgetary or appropriated special funds. Unexpended appropriations at year-end are available for subsequent expenditure to the extent that they have been encumbered at that date or legislatively extended for another year. Budget data represents original appropriations modified by interdepartmental transfers, supplemental, continuing, and carried-over encumbered appropriations. Subsequent modifications to the budget require the approval of the Controller General and the Budget Director. Additional detailed information regarding compliance with the legal level on control can be obtained by contacting the Office of Management and Budget at (302) 739-4206. Summary information regarding department budgets and the compliance with the legal level of budgetary control is presented on the following pages.

Encumbrance accounting is employed in budgetary funds. Encumbrances (e.g., purchase orders) outstanding at year-end do not constitute expenditures or liabilities and are reported as reservations of fund balances because the commitments will be honored during the subsequent year.

The budget schedules in Required Supplemental Information a) reflect the adjustments made to increase the special fund's excess of revenues over expenditures for certain revenue sources not previously recognized; b) eliminates the net activity of certain operations that are accounted for within both the special fund and also in the separate accounts of certain component units or custodial funds that are not principally accounted for within the special fund; and c) presents the accrual adjustments necessary to convert budgetary basis information to GAAP basis.

Statutory/Budgetary Presentation

The Budgetary Comparison Schedule – Budget to Actual (Non-GAAP Budgetary Basis) presented on the following pages provides a comparison of the original and final legally adopted budget with actual data on a budgetary basis.

The original budget and related estimated revenues represent the spending authority enacted into law by the appropriations bill as of June 30, 2021, and do not include encumbrances and multi-year projects budgetary carry-forwards from the prior fiscal year. GAAP requires that the final legal budget be reflected in the “final budget” column; therefore, updated revenue estimates available for appropriations as of the last Delaware Economic and Financial Advisory Council (DEFAC) meeting in June 2021, as well as the amounts shown in the original budget, are reported. The final legal budget also reflects encumbrances and multi-year projects budgetary carry-forwards from the prior fiscal year.

The tables on the following page represent the Budgetary Statements of Revenues, Expenditures and Changes in Fund Balance – General and Special Funds. Also included is a schedule showing the budgetary fund balance designations for the General Fund. Of the \$1,834.6 million budgetary general fund balance at June 30, 2021, \$280.3 million is reserved for the budgetary reserve account, \$287.3 is reserved for the budget stabilization fund, \$495.8 million is designated as continuing and encumbered appropriations and \$771.2 million is classified as undesignated fund balance. The undesignated fund balance is subjected to Legislative review and changes.

(See Budgetary Basis vs. GAAP in Notes to Required Supplementary Information)

Statutory/Budgetary Reconciliations

Since accounting principles applied for purposes of developing data on a budgetary basis differ significantly from those used to present financial statements in conformity with GAAP, a reconciliation is required of resulting basis, perspective and entity differences in the revenues in excess of (less than) expenditures and other financing sources (uses) between budgetary and GAAP presentations.

The following two schedules represent the accrual adjustments necessary to convert budgetary basis information to GAAP basis.

Budgetary vs. GAAP Reconciliation
For the Fiscal Year Ended June 30, 2021
(Expressed in Millions)

Budgetary Basis Revenues

General	\$ 5,390.3	
Special	<u>1,707.6</u>	
Total Budgetary Basis General and Special Fund Revenues for Fiscal Year 2021		\$ 7,097.9
Adjustments:		
The financial reporting revenues do not include amounts that are part of the budgetary revenues (appropriated special funds)	(1,176.1)	
Non-budgetary revenues reclassified to the general and special funds	1,044.6	
Basis of accounting differences in revenues, other financing sources, and related receivables and deferred inflows of resources	<u>(892.2)</u>	
Total GAAP Basis Adjustments to General and Special Funds Revenues for Fiscal Year 2021 Included in the General Fund		(1,023.7)
Federal Fund Revenues	4,094.3	
Local School Districts Fund Revenues	<u>792.4</u>	
		<u>4,886.7</u>
Total GAAP Basis Governmental Funds Revenue for Fiscal Year 2021		<u>\$ 10,960.9</u>

Budgetary Basis Expenditures

General	\$ 4,516.3	
Special	<u>929.5</u>	
Total Budgetary Basis General and Special Fund Expenditures for Fiscal Year 2021		\$ 5,445.8
Adjustments:		
The financial reporting expenditures do not include amounts that are part of the budgetary expenditures (appropriated special funds)	352.1	
Non-budgetary expenditures reclassified to the general and special funds	939.3	
Basis of accounting differences in expenditures, other financing uses, and related accounts payables and accrued liabilities	<u>(760.2)</u>	
Total GAAP Basis Adjustments to General and Special Funds Expenditures for Fiscal Year 2021 Included in the General Fund		531.2
Federal Fund Expenditures	4,040.1	
Local School Districts Fund Expenditures	681.9	
Capital Projects Fund Expenditures	<u>259.4</u>	
		<u>4,981.4</u>
Total GAAP Basis Governmental Funds Expenditures for Fiscal Year 2021		<u>\$ 10,958.4</u>

Required Supplementary Information

Information About Infrastructure Assets Reported Using the Modified Approach

As allowed by GASB Statement No. 34, *Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments*, the State has adopted an alternative process for recording depreciation expense on selected infrastructure assets. Under this alternative method, referred to as the modified approach, the State expenses certain maintenance and preservation costs and does not report depreciation expense. Assets accounted for under the modified approach include 4,587 centerline miles and 844 bridges that the State is responsible to maintain.

The condition of the State’s road pavement is measured using the Overall Pavement Condition (OPC) system, which is based on the extent and severity of various pavement distresses that are visually observed. The OPC system uses a measurement scale that is based on a condition index ranging from 0 for poor pavement to 5 for pavement in excellent condition.

The condition of bridges is measured using the “Bridge Condition Rating” (BCR) which is based on the Federal Highway Administration (FHWA) Coding Guide, “Recording and Coding Guide for the Structure Inventory and Appraisal of the Nation’s Bridges.” The BCR uses a measurement scale that is based on a condition index ranging from 0 to 9, 0 to 4 for substandard bridges and 9 for bridges in perfect condition. For reporting purposes, substandard bridges are classified as those with a rating of 4 or less. The good or better condition bridges were taken as those with ratings of between 6 and 9. A rating of 5 is considered fair. This information is taken from past “Bridge Inventory Status” reports.

It is the State’s policy to maintain at least 85% of its highways at a fair or better condition level and 95% of its national bridge inventory at a fair or better condition level. Condition assessments of eligible infrastructure assets are performed at least every three years.

Notes to Schedule

Valuation data:

Actuarially determined contribution amounts are calculated as of the beginning of the fiscal year (July 1) for the year immediately following the fiscal year.

DTC Plan Methods and Assumptions used to determine contribution rates:

Actuarial Cost Method	Entry Age Normal
Amortization Method	Level Percentage of Payroll (Closed), Increasing 2% per Year
Remaining Amortization Period	Range from 11 to 20 Years
Asset Valuation Method	Five-year Market Smoothed
Inflation	2 percent
Salary Increases	2.5 percent, including inflation percent
Return	7.0 percent, Net of Pension Plan Investment Expense, Including Inflation
Retirement Age	Rates vary by participant age and service
Mortality	RP-2014 Mortality with generational projection using scale MP-2017

Valuation data:

Actuarially determined contribution amounts are calculated as of the beginning of the plan year (January 1)

Contributory Plan Methods and Assumptions used to determine contribution rates:

Actuarial Cost Method	Entry Age Normal
Amortization Method	Level Percentage of Pay
Remaining Amortization Period	15 years rolling
Asset Valuation Method	Five-year Market Smoothed
Inflation	2.5 percent
Salary Increases	2.5 percent
Investment Rate of Return	7.0 percent
Retirement Age	Rates vary by participant age and service
Mortality	Sex distinct RP-2014 Blue Collar Mortality, Fully Generational, using Scale MP-2017

Proportionate Share of the Net OPEB Liability as a Percentage of its Covered Payroll	471.01 %	380.63 %	380.63 %	400.1 %	405.6 %
Plan Fiduciary Net Position as a Percentage of the Total OPEB Liability	4.3 %	4.9 %	4.9 %	4.4 %	4.1 %

* This schedule is presented to illustrate the requirement to show information for 10 years. However, until a full 10-year trend is compiled, information is presented for those years for which information is available.

State of Delaware - OPEB Trust
Schedule of Contributions
Last 10 Fiscal Years *
(Dollar amounts in thousands)

	**					
	2021	2020	2019	2018	2017	2016
Statutorily Determined Contributions (a)	\$ 241,344	\$ 249,208	\$ 226,053	\$ 202,652	\$ 214,465	\$ 197,438
Contributions in Relation to the Statutorily Determined Contribution	241,344	249,208	226,053	202,652	214,465	197,438
Contribution Deficiency (Excess)	<u>\$ —</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$ —</u>
Covered Payroll	\$ 2,059,720	\$ 1,993,577	\$ 1,883,250	\$ 1,851,399	\$ 1,855,280	\$ 1,846,178
Contributions as a Percentage of Covered Payroll	11.7 %	12.5 %	12.0 %	10.9 %	11.6 %	10.7 %

(a) The Plan is not currently being pre-funded, so there is no actuarially determined contribution. The State operates on a pay-as-you-go basis; therefore, the participating employers base their calculations into the OPEB Trust on the expected benefit payments.

* This schedule is presented to illustrate the requirement to show information for 10 years. However, until a full 10-year trend is compiled, information is presented for those years for which information is available.

** The total FY21 contributions are estimated since the Net OPEB Liability for each applicable employer was not calculated.

Statistical Section Index

The statistical section of the Annual Comprehensive Financial Report presents detailed information as a context for understanding what the information in the financial statements, notes to the financial statements, and required supplementary information of the primary government says about the State's overall financial health.

Contents

Page

Financial Trends Information

These schedules contain trend information to assist the reader in understanding and assessing how the State's financial position has changed over time.

Government-wide Perspective	
Net Position by Component	172
Changes in Net Position	173
Fund Perspective	
Changes in Fund Balances, Governmental Funds	175
Fund Balances, Governmental Funds	177

Revenue Capacity Information

These schedules contain information to assist the reader in understanding and assessing the factors affecting the State's ability to generate its own-source revenues.

Personal Income by Industry	178
Personal Income Tax Rates	179
Personal Income Tax Filers and Liability by Income Level	180
Franchise Taxes	181

Debt Capacity Information

These schedules present information to assist the reader in understanding and assessing the State's debt burden and its ability to issue additional debt in the future.

Ratios of Outstanding Debt by Type	182
Debt Limits	183
General Obligation Debt Support	184
Pledged Revenue Coverage	185

Demographic and Economic Information

These schedules offer demographic and economic indicators to assist the reader in understanding the environment in which the State's financial activities take place.

Demographic and Economic Statistics	186
Principal Employers by Industry	187
State Employees by Function	188

Operating Information

These schedules contain information to assist the reader in understanding how the financial information relates to the services the State provides and the activities it performs.

Operating Indicators by Function	189
Capital Asset Statistics by Function	190
Capital Asset Balances by Function	191

Sources: Unless otherwise noted, the information in these schedules is derived from the State's Annual Comprehensive Financial Report for the relevant fiscal year.

Statement of Net Position, as presented in the State's Annual Comprehensive Financial Report for the applicable fiscal year.

Notes:

* Prior year amounts have not been updated for changes made from the adoption of GASB Statement No. 61, The Financial Reporting Entity: Omnibus and amendment of GASB Statements No. 14 and No. 34 in fiscal year 2013.

** The State implemented GASB Statement No. 65, Items Previously Reported as Assets and Liabilities, during fiscal year 2014. The provisions of GASB Statement No. 65 require that bond issuance costs are expensed as incurred and deferred bond costs expensed at July 1, 2013; therefore the State's net position for fiscal year 2013 has been restated.

***The State implemented GASB Statement No. 68, Accounting and Financial Reporting for Pensions, during fiscal year 2015. The provisions of GASB Statement No. 68 require the State to record its net position liability (asset) at July 1, 2014; therefore, the State's ending net position for fiscal year 2014 has been restated.

****The State implemented GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, during fiscal year 2018. The provisions of GASB Statement No. 75 require the State to record its net position liability (asset) at July 1, 2017; therefore, the State's ending net position for fiscal year 2017 has been restated.

*****The State implemented GASB Statement No. 84, Fiduciary Activities, during fiscal year 2021. The provisions of GASB Statement No.84 require the State to record its agency funds as custodial funds and agency funds not meeting that criteria were reclassified to governmental activities at July 1, 2020; therefore, the State's ending net position for fiscal year 2020 has been restated.

Combined Balance Sheet, as presented in the State's Annual Comprehensive Financial Report for the applicable fiscal year.

Notes

* The State implemented GASB Statement No. 65, Items Previously Reported as Assets and Liabilities, during fiscal year 2014. The provisions of GASB Statement No. 65 require the State to reevaluate assets in the governmental fund statements that are not available as revenue in the current fiscal year, therefore the State's fund balance in the federal fund for fiscal year 2013 has been restated.

Source:

Personal income by major source and earnings by industry is provided by the Bureau of Economic Analysis, U.S. Department of Commerce (www.bea.gov/regional) through estimates released September 2021.

Notes:

(1) Contributions for government social insurance are included in earnings by type and industry, but they are excluded from personal income.

(2) The adjustment for residence is the net inflow of the earnings of interarea commuters. For the United States, it consists of adjustments for border workers: wage and salary disbursements to U.S. residents employed by international organizations and foreign embassies.

(3) Rental income of persons includes the capital consumption adjustment.

Yearly Tax	\$ 250.00	\$ 300.00

Assumed Par Value Capital Method

- (1) Calculate "assumed par" by dividing total gross assets by total issued shares carrying the decimal to six places.
- (2) Multiply the assumed par by the number of authorized shares having a par value less than the assumed par.
- (3) Multiply the number of authorized shares with a par value greater than the assumed par value by their respective value.
- (4) Add the results of #2 and #3 above. The result is your assumed par value capital.
- (5) Calculate the tax by dividing the assumed par value capital, rounded up to the next million if it is over \$1,000,000 and multiply by \$200.00 for tax years 2000-2002. For tax years 2003 to 2008, the multiplier is \$250. Beginning tax year 2009, the multiplier increased from \$250 to \$400 Beginning tax year 2009, the multiplier increased from \$250 to \$400
- (6) The minimum tax for the Assumed Par Value Capital Method of calculation is \$400.00.

Delaware General Assembly

Notes:

There is no constitutional debt limit for the State

The General Assembly passed legislation to have a three-part debt limit, as follows:

- 1 The aggregate principal amount of new "tax-supported obligations of the State" may not exceed 5% of the estimated budgetary general fund revenue for that fiscal year.
- 2 No "tax-supported obligations of the State" and no "Transportation Trust Fund debt obligations" of the Delaware Transportation Authority may be incurred if the aggregate maximum annual payments on all such outstanding obligations exceed 15% of the estimated budgetary general fund revenue plus Transportation Trust Fund revenue for the fiscal year following the fiscal year in which such obligations is incurred (the 15% test).
- 3 No general obligation debt (with certain exceptions) may be incurred if the maximum annual debt service payable in any fiscal year on all such outstanding obligations will exceed the estimated cumulative cash balances (including all reserves) for the fiscal year following the fiscal year in which the obligation is incurred.

Number of employees by industry is provided by the Bureau of Economic Analysis, U.S. Department of Commerce (www.bea.gov/regional) through estimates released September 2021.

Notes:

Due to statutory requirements (confidentiality provisions), the State can not disclose the number employed by the ten largest employers. As an alternative comparison, this schedule presents the number employed by nonfarm related industries. The ten largest employers are nonfarm related; therefore, the number employed by those employers could be expected to fall within this schedule.

Delaware Department of Finance

Notes:

Information regarding Infrastructure can be found in the Required Supplementary Information contained on page 140.. Information is given as to the number of bridges and their condition as well as the center-lane miles and their condition for the past three years. The State preserves farmland under the Department of Agriculture which is part of General Government. In addition, land is preserved as park land under the Department of Natural Resources and Environmental Control. Other land is used for functional purposes of the department, including housing building to perform the Department's function
