TAB 5: Projects

Section 5.1 – General Project Information

Project Name	OGOV First State Community Action Agency
Identification Number	21166
Subrecipient	First State Community Action Agency, Inc.
Project Description	<p>This project will renovate two community facilities in Sussex County, Delaware and purchase vehicles to connect youth and their families to community-based services at those facilities. These renovations and capital expenditures will increase access to anti-poverty services and programming for low-income Delawareans in rural areas of Bridgeville, Georgetown, and surrounding areas of Sussex County. Use of ARPA CPF funds will increase access to programs addressing needs in these rural low-income communities such as workforce development, education, enrichment, civic engagement and leadership development, health, housing, food and nutrition, economic education, and more for youth and adults.</p> <p>Jan-March 2024 Funded vehicle purchase, Coverdale center renovations and roof replacement</p>
Capital Asset Ownership Type	Private
Total amount of CPF funding budgeted for the project	\$500,000.00
Total amount budgeted for the project from all funding sources, including but not limited to non-CPF federal funding sources, and private funding source. Be sure to include CPF funding as well.	\$500,000.00

Additional Sources of funding, if applicable

Is CPF funding used in conjunction with other federal funding?	No
--	----

Obligations and Expenditures

Current Period Obligation	\$0.00
Cumulative Obligation	\$500,000.00
Current Period Expenditure	(\$7,470.98)
Cumulative Expenditure	\$492,529.02
Provide a brief description of the major activities on which funds were expended during the reporting period, including costs related to community engagement and any other Ancillary Costs.	Vehicle purchase, Coverdale Center renovations and roof replacement costs
Current Program Income Earned	
Cumulative Program Income Earned

Section 5.1 – General Project Information

Project Name	OGOV Food Bank of Delaware - Milford
Identification Number	21174
Subrecipient	Food Bank of Delaware
	<p>The global pandemic has caused FBD to reach its breaking point in the current 16,000 square foot building in Milford. The FBD has purchased an 11.5-acre parcel of land which is shovel ready adjacent to the Delaware Veterans Home and the Greater Milford Boys and Girls Club. The new building will be approximately 67,000 square feet and will include the following features to increase FBD's impact on hunger in Kent and Sussex counties. The entire capital campaign budget is projected to be \$34 million. This request will fund a significant portion of the overall campaign.</p> <p>The requested funding will focus on funding a portion of the capital expenses focusing on 6 key priority areas:</p> <ul style="list-style-type: none">• Expanded cold storage to safely and efficiently store more nutritious, perishable foods like meat, dairy products, fruits and vegetables.• Expanded warehouse space to increase efficiency and capacity to serve those in need.• Dedicated space for a Healthy Pantry Center to provide food assistance and community resources directly to our neighbors.

Project Description

- Expanded volunteer room for volunteer activities like food sorting and meal box creation to meet our daily production needs.
- Dedicated classroom and practical space to train Delawareans for careers in warehousing/logistics through our L.O.G.I.C. (Logistics, Operations, General Warehousing and Inventory Control) and Culinary programs.
- Outdoor garden space to grow our own foods and to provide educational opportunities for the community and joint programming

	with our neighbors the Greater Milford Boys and Girls Club and the Delaware Veterans Home.

Special Statutory Matching Funds Requirements:

Is CPF used as a State's non-federal share (also known as "matching funds") for certain other federal programs as specifically permitted under statute?	No
Is CPF used as a State's non-federal share (also known as "matching funds") for certain other federal programs as specifically permitted under statute?	No

Davis Bacon Certification

Do you intend to certify that 'all laborers and mechanics employed by contractors and subcontractors in the performance of such project are paid wages at rates not less than those prevailing, as determined by the U.S. Secretary of Labor in accordance with subchapter IV of chapter 31 of title 40, United States Code (commonly known as the "Davis-Bacon Act"), for the corresponding classes of laborers and mechanics employed on projects of a character similar to the contract work in the civil subdivision of the State (or the District of Columbia) in which the work is to be performed, or by the appropriate State entity pursuant to a corollary State prevailing-wage-in-construction law (commonly known as "baby Davis-Bacon Acts")?	No
Number of employees of contractors and sub-contractors working on the project	350

Number of employees on the project hired directly	0
Number of employees on the project hired through a third party	350
Are any of the wages at rates less than those prevailing?	Yes
Wages and benefits of workers on the project by classification.	Since at time of bidding this was not a requirement Whiting-Turner did not solicit Certified Payroll. This is unknown to Food Bank however this project was competitively bid and adequate employees was verified during a descope meeting

Certification for Labor Agreements

Do you intend to certify that 'the indicated project includes a project labor agreement, meaning a pre-hire collective bargaining agreement consistent with section 8(f) of the National Labor Relations Act (29 U.S.C. 158(f))?	No
--	----

Project Workforce Continuity Plan

How will the recipient ensure the project has ready access to a sufficient supply of appropriately skilled and unskilled labor to ensure high-quality construction throughout the life of the project, including a description of any required professional certifications and/or in-house training, registered apprenticeships or labor-management partnership training programs, and partnerships like unions, community colleges, or community-based groups?	Whiting-Turner competitively bid out the project using their prequalified trade contractors. Whiting-Turner has bonded the large and crucial trades to assure the work can be done.
How will the recipient minimize risks of labor disputes and disruptions that would jeopardize timeliness and cost-effectiveness of the project?	Whiting-Turner will manage this to keep the project moving in line with their contractual schedule

How will the recipient provide a safe and healthy workplace that avoids delays and costs associated with workplace illnesses, injuries, and fatalities, including descriptions of safety training, certification, and/or licensure requirements for all relevant workers (e.g., OSHA 10, OSHA 30)?	Whiting-Turner has rigorous safety requirements and inspections that in many cases exceed the OSHA requirements.
Will workers on the project receive wages and benefits that will secure an appropriately skilled workforce in the context of the local or regional labor market?	Yes
Does the project have a completed project labor agreement?	No

Additional Questions

Does the project prioritize local hires?	Yes
Does the project have a Community Benefit Agreement?	No

Section 5.1 – General Project Information

Project Name	OGOV Food Bank of Delaware - Newark
Identification Number	21175
Subrecipient	Food Bank of Delaware
	<p>The Food Bank of Delaware (FBD) has requested support in the amount is \$1,900,000 to expand our statewide food insecurity response from the main facility in Newark through identified capital improvements. The long-term impacts of the COVID-19 crisis and sustained increase in demand for services has accelerated FBD's needs to further expand the infrastructure at 222 Lake Drive in Newark. Prior to the global pandemic, FBD distributed 8.5 million lbs of food assistance each year, FBD now plans to distribute 16 million lbs + of food on an annual basis. The requested funding will allow the organization to operate more efficiently while maximizing our capacity to continue to meet the long-term impact on the increased number of neighbors in need of food assistance and other critical social services. Request includes:</p> <p>1. Parking (\$800,000): Parking will be added to the existing 23-acre campus, converting a wooded area adjacent to the lake at the front entrance to the facility gaining an additional 71 spots, doubling our current capacity. This parking lot will be utilized by volunteers daily given its proximity to the Volunteer Room entrance. Since</p>

Project Description

returning to more normalized operations, parking is insufficient forcing staff, visitors, and volunteers to park on the street/cul de sac. The facility averages 75-100 total visits per day when factoring in staff, volunteers, employment training students, community partners, and visitors. When there is a special event such as employment training class graduation, current parking is strained even further as normal operation levels are maintained.

2. Office expansion in Newark (\$600,000): The expanded organizational chart will continue to be a critical resource to meeting the long-term increase in demand for our services. Since 2021, FBD staff working primarily in the Newark facility has expanded from 43 employees to 69 employees. The requested funding will add 11 additional offices surrounding the Healthy Pantry Center. Staff functions which will fill these new offices will include; Healthy Pantry Center Coordinator, Home Delivery Coordinator, Community Pantry Relations, Backpack Program Coordinator, Nutrition, SNAP Outreach, Supportive Training and Employment Program (STEP) Coordinator. These positions currently share open space workstations or are located in the Healthy Pantry Center/warehouse open floor plan.

3. The Healthy Pantry Center (HPC) (\$500,000) construction will focus on indoor and outdoor improvements to enhance the

	<p>customer experience and accessibility. The HPC serves approximately 50 households per day in a contactless service model keeping neighbors, staff, and volunteers safe. Currently there are two service models to provide food assistance to our neighbors in need:</p> <ul style="list-style-type: none">• Contactless where neighbors remain in their car while staff and volunteers deliver preselected and packed food options.
--	--

	<ul style="list-style-type: none"> • Home Delivery options where Amazon drivers make pre-order food box pickups for delivery.

<p>If Other, please specify type of capital asset and number of features.</p>	<p>Kitchen Space. The 3 emergency shelters support the goals of health monitoring, education, and work by providing safe, clean, and healthy buildings for victims of DV and child maltreatment to live at on a temporary basis. Staff provides COVID and flu vaccine information as well as COVID test kits to residents exhibiting symptoms in all shelters. An on-site nurse at GTCC monitors the administration of medication to youth and advises on public health concerns (for instance, a COVID case amongst the youth population). Youth at GTCC are all under age 18 and either attending local public schools, alternative schools, or on-line education. The shelter facilitates traditional youth education as well as health/wellness education for the youth during their stay. For clients in our DV shelters, staff refers to and supports the completion of educational courses and provides linkages to jobs for those who need employment. Staff also assist with job readiness skills (resume writing, etc.). The DV shelters provide a safe living environment for clients and their children until the client is able to secure employment to support herself and her children without returning to the abuser.</p>

	<p>The City of Seaford Innovation Center continues to make meaningful progress across multiple fronts. The first building to begin construction is now home to Community Bank Delaware, the site's first new commercial tenant. Both the interior fit-out and exterior drive-thru lane have been fully completed, and the bank is now fully operational in its new suite. A Certificate of Occupancy was issued on April 10, 2025, and the Seaford community has shown strong enthusiasm and support for the opening of this new branch. BrightBloom Centers received</p>

Provide a brief description of the major activities on which funds were expended during the reporting period, including costs related to community engagement and any other Ancillary Costs.

their Certificate of Occupancy on June 27, 2025, and is preparing to open its doors in the coming weeks. As a provider of therapeutic services for children with autism and developmental delays, BrightBloom delivers evidence-based, individualized care to support early childhood development and family well-being. Their presence on campus adds a critical health and human services component to the Innovation Center, further enhancing its impact on the Seaford community. Becker Morgan Group, the project's civil engineer, has completed all on-site and off-site civil engineering design work. A major entitlement milestone was recently achieved with the receipt of site entry permits from the Delaware Department of Transportation (DelDOT), advancing the overall development of the campus. Corrado Construction Company, the selected sitework contractor, has made significant progress on interior (non-state road) sitework, with nearly all underground utility infrastructure now installed. While on-site work is advancing steadily, off-site improvements are expected to represent the longest lead time for overall project completion. These efforts include burying overhead utility lines, relocating major infrastructure, and enhancing adjacent roadways—all coordinated closely with DelDOT. Interior fit-out work is actively advancing across multiple buildings. Renovation efforts for both The Mill and Delaware

Technical Community College (Del Tech) are underway, with each project progressing steadily toward construction. Vanderwende Creamery is also moving forward, with interior design development proceeding smoothly as part of its fit-out scope. TidalHealth has completed its subcontractor bidding process, and GGA Construction is now actively releasing early trades to begin mobilization and initial work on the interior buildout. The City of Seaford Innovation Center remains a dynamic example of public-private collaboration—driving revitalization, supporting economic growth, and bringing essential

	education, health, and business services to the heart of Sussex County.

Is CPF used as a State's non-federal share (also known as "matching funds") for certain other federal programs as specifically permitted under statute?	No

Davis Bacon Certification

Do you intend to certify that 'all laborers and mechanics employed by contractors and subcontractors in the performance of such project are paid wages at rates not less than those prevailing, as determined by the U.S. Secretary of Labor in accordance with subchapter IV of chapter 31 of title 40, United States Code (commonly known as the "Davis-Bacon Act"), for the corresponding classes of laborers and mechanics employed on projects of a character similar to the contract work in the civil subdivision of the State (or the District of Columbia) in which the work is to be performed, or by the appropriate State entity pursuant to a corollary State prevailing-wage-in-construction law (commonly known as "baby Davis-Bacon Acts")?	No
Number of employees of contractors and sub-contractors working on the project	0
Number of employees on the project hired directly	0
Number of employees on the project hired through a third party	0
Are any of the wages at rates less than those prevailing?	No
Wages and benefits of workers on the project by classification.	Construction activities have not started

Certification for Labor Agreements

Do you intend to certify that 'the indicated project includes a project labor agreement, meaning a pre-hire collective bargaining agreement consistent with section 8(f) of the National Labor Relations Act (29 U.S.C. 158(f))?	No
--	----

Project Workforce Continuity Plan

How will the recipient ensure the project has ready access to a sufficient supply of appropriately skilled and unskilled labor to ensure high-quality construction throughout the life of the project, including a description of any required professional certifications and/or in-house training, registered apprenticeships or labor-management partnership training programs, and partnerships like unions, community colleges, or community-based groups?	Strong labor practices will be established and documented once the Construction Manager has been retained.
How will the recipient minimize risks of labor disputes and disruptions that would jeopardize timeliness and cost-effectiveness of the project?	Strong labor practices will be established and documented once the Construction Manager has been retained.
How will the recipient provide a safe and healthy workplace that avoids delays and costs associated with workplace illnesses, injuries, and fatalities, including descriptions of safety training, certification, and/or licensure requirements for all relevant workers (e.g., OSHA 10, OSHA 30)?	The selected Construction Manager will be required to have a workplace safety policy in compliance with OSHA.
Will workers on the project receive wages and benefits that will secure an appropriately skilled workforce in the context of the local or regional labor market?	Yes
Does the project have a completed project labor agreement?	No

Additional Questions

Does the project prioritize local hires?	Yes
Does the project have a Community Benefit Agreement?	No

Project Name	OGOV FAME
Identification Number	21559
Subrecipient	FAME Forum to Advance Minorities in Engineering
	<p>FAME, Inc.'s mission is to prepare and motivate students, with a specific focus on girls and underrepresented minorities, to complete a college degree and/or seek a career in STEM or other STEM related pathways. The organization's vision is to Inspire Career Confidence. In 2023 FAME, Inc. will begin renovations on The Learning Lab, an innovative community space that will highlight Delaware's talent pipelines, connects talent to opportunity, yields a diverse workforce, drives global innovation, and ensure Delawareans are able to Align Meaningful Employment. It produces a one-stop hub for learners to access internet service, computers/laptops, seek academic credit recovery, participate in regionally approved job training/certification initiatives, and engage innovative technologies, to secure life altering employment opportunities. FAME, Inc. is committed to taking the steps to progressively develop the programs, infrastructure and opportunity that is needed to transform the lives of the underserved in greater Delaware. The building is the first of its kind, creating a destination for</p>

Project Description

innovation and academics, a new concept responding to the needs emerging from a post pandemic landscape. The Learning Lab will attract, empower and develop the skills of students and members of the community, while fostering meaningful relationships with industry. Multidisciplinary student teams with diverse backgrounds will thrive in an environment of competitive collaboration. This state-of-the-art facility will serve as a city-wide operational hub, potentially erasing the stigma many fear from visiting the Department of Labor or various other governmental agencies and locations. FAME graduates, from K – Gray, will have the skills and experience to take leadership positions in Fortune 500 companies, launch their own enterprise, and build their own destiny. This space will increase FAME, Inc.'s academic and

	workforce development footprint from 3,936 served annually, to over 15,000 annually.

Total square footage funded by CPF dollars (Planned)	7,500
Total square footage funded by CPF dollars (Actual)	100
If planned and actual numbers are not equal, please provide an explanation.	No construction was completed. There was a bathroom remodel. Most of the funds were used for technology.
Does the Multi-Purpose Community Facility have proximate access to public transportation opportunities?	Yes
Total number of individuals utilizing the capital asset (Actual)	34

Section 5.1 – General Project Information

Project Name	OGOV Mary Campbell Center
Identification Number	21575
Subrecipient	Mary Campbell Center

<p>Project Description</p>	<p>The Mary Campbell Center - Resident Room Renovations, and Addition with Infection Control Rooms</p> <p>Resident Room Renovations - The project will be a complete renovation of every resident bedroom and bathroom with new flooring, cabinetry, furnishings, lighting, HVAC, insulation, and medical equipment to provide increased comfort and safety. Six small double rooms will be reconfigured as single rooms with bathrooms added. Communication equipment and entertainment systems will be upgraded. Two rooms will be renovated simultaneously. The project will take 2 ½ years to complete. A pre-bid budget has been developed at \$5.5 million. \$5 million in ARPA funds will be allocated to the project.</p> <p>Addition of 3 Infection Control Rooms/ Resident Rooms - The project will add 3 rooms designed for infection control in situations that require transmission-based precautions. Separate HVAC units for each room will be included to minimize air exchange in the addition. A separate entrance will allow staff to maintain proper infection control procedures. The project will take 1 year to build. A pre-bid budget has been developed at \$2 million. \$1.4 million in ARPA funds will be allocated to the project.</p>
<p>Capital Asset Ownership Type</p>	<p>Private</p>

Total amount of CPF funding budgeted for the project	\$6,400,000.00
Total amount budgeted for the project from all funding sources, including but not limited to non-CPF federal funding sources, and private funding source. Be sure to include CPF funding as well.	\$7,500,000.00

Additional Sources of funding, if applicable

Is CPF funding used in conjunction with other federal funding?	No
--	----

Obligations and Expenditures

Current Period Obligation	\$0.00
Cumulative Obligation	\$6,400,000.00
Current Period Expenditure	\$1,131,492.63
Cumulative Expenditure	\$3,218,271.28
Provide a brief description of the major activities on which funds were expended during the reporting period, including costs related to community engagement and any other Ancillary Costs.	Construction is ongoing. The first ten guest rooms have been completed and turned over. BCI is continuing with construction and will be turning over a guest room every 4 weeks. The permit for the addition was received and sitework and underground plumbing is ongoing. Slab will be poured next week.

Section 5.1 – General Project Information

Project Name	OGOV St. Patrick's Center
Identification Number	21669
Subrecipient	St. Patrick's Center
Project Description	<p>This project will rebuild the portico at the main entrance of the building to support increased storage and distribution of charitable food and refurbish the aging elevator. The goals of this project are to upgrade the elevator for another 10 to 20 years of service, and to increase the amount of charitable food St. Patrick's Center can distribute by replacing the existing ground-level storage unit with a food-safe storage unit that will increase the amount and type of food St. Patrick's Center SPC can utilize.</p> <p>This project will refurbish the elevator, portico, and main entrance to the building. The elevator requires new hydraulic equipment, and repairs to the car. The portico will be rebuilt to create a food-safe storage unit with dry and cold storage, and support exiting infrastructure. The main entrance will be rebuilt to enable efficient use of the new storage unit.</p>
Capital Asset Ownership Type	Private
Total amount of CPF funding budgeted for the project	\$600,000.00

Section 5.1 – General Project Information

Project Name	OGOV Challenge Program
Identification Number	21574
Subrecipient	The Challenge Program

Project Description	<p>The Challenge Program (TCP) is a construction training program for youth with a serious barrier to employment. To expand the services they offer this under-served population, they are building a new furniture manufacturing facility on Wilmington's East Seventh Street Peninsula. The youth we serve, aged 18-24, face one or more serious barriers to employment. Their typical client has no diploma or GED, is below the poverty level, and often has a criminal record. The Challenge Program will provide trainees with 6 months of paid construction training, as well as comprehensive case management, education classes, job readiness workshops, and credentials such as flagger and forklift operator. In 2014 they launched a furniture business, CP Furniture, an Employment Social Enterprise. This adjunct to TCP offers our graduates one year contracts once they graduate from the training program, providing both a stable income and enhanced training opportunities. The furniture business has experienced rapid growth and high demand, and TCP are moving from a flood plagued 4,000 sq. ft. shop to a new 14,000 sq. ft facility. They have raised \$3.8 million of the \$4.1 we now need to complete and equip the facility.</p>
Capital Asset Ownership Type	Private
Total amount of CPF funding budgeted for the project	\$144,110.00

<p>Provide a brief description of the major activities on which funds were expended during the reporting period, including costs related to community engagement and any other Ancillary Costs.</p>	<p>The ARPA funded portion of the siding of the new building is 100% complete as of July 2023.. With the ARPA funding we purchased over \$14,000 square feet of thermally modified pine siding for our building. The siding is being installed by the trainees in our construction training program. We have completed the majority of the project as of July 2024. HVAC, sitework, and finishes are underway. To date, we have raised \$3.8 Million and are continuing to raise funds in the amount of \$400,000 for sitework and finishes, relocation and setup. We anticipate that we will relocate our equipment and staff to the new facility by the end of 3rd quarter 2024.. This new building will triple our square footage and allow us to hire 10 new full time employees and 5 more pre-apprentices.</p>

Section 5.1 – General Project Information

Project Name	OGOV Gaudenzia Foundation
Identification Number	21750
Subrecipient	Gaudenzia Foundation
Project Description	Gaudenzia Foundation, In. submitted an application in November 2021 to renovate its existing facility located at 3901 Philadelphia Pike, Claymont, DE 19703 in support of opening Delaware's only residential substance use disorder (SUD) treatment campus for pregnant and parenting women with children. Renovations were needed to the building's first floor to increase bedroom sizes to accomodate families, basement to accomodate additional office space and create a childcare room, and install an exterior playground. Gaudenzia Foundation, Inc. subsequently identified a need to repave the facility's driveway and parking lot.

Section 5.1 – General Project Information

Project Name	OGOV Children and Families First
Identification Number	21625
Subrecipient	Children & Families First
Project Description	The CFF investment of ARPA funds in the Seaford House project will directly enable work (for our staff), education (for the youth we serve) , and health monitoring (for staff and youth). By ensuring that the building meets required standards for COVID -such as upgrade HVAC , enhanced private spaces, new outdoor meeting and recreation spaces-we will reduce the possible transmission of COVID, reduce staff absenteeism and improve youth attendance at school. In addition, the creation of a private vestibule and upgraded nurse station will improve our health monitoring functions for the youth.

Section 5.1 – General Project Information

Project Name	OGOV Kingswood Community Center
Identification Number	21749
Subrecipient	<u>Kingswood Community Center Inc.</u>

Project Description	<p>The Kingswood Community Center, named for Dr. Martin Luther King, Jr, was founded more than 75 years ago in one of the lowest-income and crime-ridden areas in the City of Wilmington. This multi-purpose community facility provides extensive educational, mentoring, tutoring and job training programs for young adults. It provides before school and after school care, as well as summer camp programming. The Center also houses a senior facility. The Kingswood Community Center is the hub of the eastside of Wilmington, offering health monitoring services, COVID-19 testing and vaccinations, flu vaccinations, transportation to medical appointments and mental health services. It partners with local hospitals and federally qualified health centers to provide residents with access to quality healthcare. KCC has outgrown its aging facility. Built in 1958, it is a prime example of an uninspired, outdated design with deteriorating systems that require frequent repairs. The current 17,494 SF building is no longer adequate for the current programs. A new Kingswood Community Center will be the centerpiece of Riverside's revitalization, creating a tangible and meaningful structure that will catalyze this community's transformation.</p>

	Throughout the month of April, the project achieved several critical milestones. The slab-on-grade placements were substantially completed, with the exception of the gymnasium slab, which is scheduled to be poured following

Provide a brief description of the major activities on which funds were expended during the reporting period, including costs related to community

the erection of the gymnasium's steel structure. These accomplishments were made possible through strong coordination and teamwork between EDiS and our trade partners. Preparations for steel erection advanced steadily during the month. Under-slab plumbing and electrical utilities were completed by mid-April, and slab-on-grade placements were executed in the kitchen, mechanical rooms, and approximately half of the ELA area. The final slab-on-grade pour (excluding the gymnasium) is scheduled for early May. A major milestone was reached at the end of April with the commencement of steel erection on April 29. This work will continue into August. Once steel erection in Area A is complete, exterior framing, roofing, and fireproofing will follow. In addition to construction progress, our BIM coordination efforts are nearing completion. The EDiS team also had the opportunity to host a staff tour, allowing the Kingswood team to view progress firsthand. Importantly, the project experienced no lost weather days in April, keeping us on track with the critical path. May and June marked the vertical progression of the project, as steel erection gained momentum. This significant milestone supports the advancement into the next phase of construction — building the exterior envelope. Behind the scenes, coordination efforts and material approvals continued,

engagement and any other Ancillary Costs.

laying the groundwork for upcoming activities. Bid Package C was awarded this month, and subcontract issuance is now underway. R.C. Fabricators, our local trade partner, continued steel erection at a pace ahead of

	schedule. This has created opportunities for subsequent trades to

Section 5.1 – General Project Information

Project Name	OGOV Home of the Brave
Identification Number	22853
Subrecipient	The Home of the Brave Foundation
	<p>The Capital Relief Funds will be used to renovate the facility to serve more homeless veterans. The Home of the Brave project improvements to our transitional housing facilities is as follows:</p> <p>1) Renovation of Existing HOB I (Male Facility) Budget Narrative:</p> <p>A) Remodel and add 224 sq ft. addition to the kitchen:</p> <ul style="list-style-type: none">- Excavating, Foundation & Footer and Backfilled and Wood framing roofing and shingles- Outside finishes to match existing House and gutters- New Vinyl windows and Handicap ramp <p>B) Renovate the Kitchen/Dinning/Living area adjacent to the kitchen as follows:</p> <ul style="list-style-type: none">- Removal of all counters, cabinetry, floorings & structural repairs of floor joists, plumbing, fire sprinklers, electrical, interior finishes i.e. Drywall and painting, and all new appliances. Thus, this grant will be used to completely pay for this renovation and repairs with a cost of approximately \$275,000.00.- New Dining Table and Chairs approximately \$1,200.00- The renovations of HOB I should begin within 60-90 days of receiving the grant money and

Project Description

subsequent local approvals obtained by contractor. We'll complete the full renovations 12 months after work begins.

2) The additional Building has been built; therefore, the grant will be used specifically to provide the following items to outfit the building:

A) Conference room tables, chairs, T.V. with conference technology and multiple filing cabinets

B) Office equipment; desks, chairs, computers, phones, fax/copier machine, printers, filing cabinets, storage cabinets and a refrigerator. Thus, this grant will be used to purchase all of the above items to make the building operational and the approximate costs for these items will be \$29,000.00.

Exhibit C

3) The complete renovation of the HVAC systems throughout the HOB I House:

- All new heating units two 4-ton units all ductwork replaced new throughout the entire house
- Two new tankless water heaters and new ductless heating system for the front office of the house.

Thus, this grant will be used to pay for the full renovation of HVAC

	systems of the HOB I House and the approximate cost for the renovations will be \$65,000.00.
Capital Asset Ownership Type	Other
If Other, please provide a narrative description.	Be recognized as the premier transitional housing facility for male and female veterans, of all military services, in the State of Delaware. Develop programs that serve veterans in their journey towards permanent housing. Continue as a non-profit organization while exploring ways to reduce the Home of the Brave's reliance on government funding.
Total amount of CPF funding budgeted for the project	\$350,000.00
Total amount budgeted for the project from all funding sources, including but not limited to non-CPF federal funding sources, and private funding source. Be sure to include CPF funding as well.	\$350,000.00

Additional Sources of funding, if applicable

Is CPF funding used in conjunction with other federal funding?	No

<p>Provide a brief description of the major activities on which funds were expended during the reporting period, including costs related to community engagement and any other Ancillary Costs.</p>	<p>The library is in the process of doing a needs assessment to determine how to successfully use our underused spaces and accommodate our growing population providing necessary resources to our patrons. Our building is 25 years old. Our electrical systems need updating. Our back office services are crowded and out of date. Our signage is woefully inadequate. Program space is limited. We need more restrooms, our circulation desk needs to be ADA compliant, So, at the same time that we are updating our HVAC system, we are also looking at the building as a whole. Within this next quarter of reporting the library will determine what changes, if any, we will need to incorporate in our HVAC design to accommodate the necessary changes we need to the building in general, and we will move from the HVAC design phase to the next stage of upgrading our HVAC system.</p>

	We had a geothermal well fixed.

Provide a brief description of the major activities on which funds were expended during the reporting period, including costs related to community engagement and any other Ancillary Costs.

We hired an engineering firm to do a survey of the HVAC system and explain what needed to be repaired. The engineering firm asked for quotes from three companies, and the library Board selected the winning bid in August of 2023. The company has been onsite updating the controls, and has finished that part of the project. In doing so, they discovered some mechanical / service issues. The Board decided to continue using the same company to do the work since they had been selected before and the scope of the project was just adjusted. There was a leak in the mechanical rooms due to issues with valves. That issues has been resolved, but it led to the discovery of mold in the room that has been there for years. That has been addressed, but now a unit is leaking freon. We have accepted a quote to replace that unit and we will also be replacing several others. We have replaced AHU-6 and we have accepted the quote to replace AHU-1. As of 12/31/24, AHU1 and AHU6 have been replaced, and we have accepted quotes to replace AHU4 and AHU5. We are also trying to solve the problem of the classroom being cold. We had ordered replacements for AHU4 and AHU5 as well as a unit for the classroom. However, then there was a stop to federal funds so we halted the project, to make sure the disbursements happened. Once the finances were secure, we continued the order. As of 3/31/25, BSS is waiting on the installer to schedule the install. As of 6/30/2025, we have had several

	<p>setbacks. Due to concerns about funding, we paused any work on this project. Then once we knew the funds were secure, my theory is that we were put to the bottom of the list as far as replacements. We had ordered AHU4 and AHU5 to be replaced in 2024, and so far we are still waiting on that. The contractor cited manufacturing and shipping delays. Additionally, due to extenuating circumstances with Delaware Division of Libraries, our HVAC controls contractor was no longer able to remote in to the system and see its performance. This allowed several malfunctions to be missed for about a week. Over the course of May and June 2025, here are some things that have happened: two valves on AHU6 had to be replaced, a wire in the power box burned and had to be replaced, the underground wire from the breaker box to the controller needed to be replaced, the TXV on AHU6 needed to be replaced, the controls for AHU1 needed to be repaired, and we are still waiting on AHU4 and AHU5 to be replaced. There have been days when it is up to 85 degrees in the library. We had to cancel several meeting room rentals and some of our programs have suffered, such as when we tried to do a movie night and everyone left because of the heat. We are also still waiting for the minisplit for the classroom. Despite all of this, we remain optimistic that we will get things working as soon as possible.</p>

Davis Bacon Certification

Do you intend to certify that 'all laborers and mechanics employed by contractors and subcontractors in the performance of such project are paid wages at rates not less than those prevailing, as determined by the U.S. Secretary of Labor in accordance with subchapter IV of chapter 31 of title 40, United States Code (commonly known as the "Davis-Bacon Act"), for the corresponding classes of laborers and mechanics employed on projects of a character similar to the contract work in the civil subdivision of the State (or the District of Columbia) in which the work is to be performed, or by the appropriate State entity pursuant to a corollary State prevailing-wage-in-construction law (commonly known as "baby Davis-Bacon Acts")?	No
Number of employees of contractors and sub-contractors working on the project	14
Number of employees on the project hired directly	135
Number of employees on the project hired through a third party	0
Are any of the wages at rates less than those prevailing?	No
Wages and benefits of workers on the project by classification.	Attached as provided by contractor

Certification for Labor Agreements

Do you intend to certify that 'the indicated project includes a project labor agreement, meaning a pre-hire collective bargaining agreement consistent with section 8(f) of the National Labor Relations Act (29 U.S.C. 158(f))?	No
--	----

Project Workforce Continuity Plan

How will the recipient ensure the project has ready access to a sufficient supply of appropriately skilled and unskilled labor to ensure high-quality construction throughout the life of the project, including a description of any required professional certifications and/or in-house training, registered apprenticeships or labor-management partnership training programs, and partnerships like unions, community colleges, or community-based groups?	Whiting-Turner only bids to contractors that completed the prequalification process. Additionally, the number of workers per company and available resources for additional workers will be reviewed during scope reviews and progress meetings.
How will the recipient minimize risks of labor disputes and disruptions that would jeopardize timeliness and cost-effectiveness of the project?	Whiting-Turner has the right to supplement any contractor's work at any point if they fall behind schedule.
How will the recipient provide a safe and healthy workplace that avoids delays and costs associated with workplace illnesses, injuries, and fatalities, including descriptions of safety training, certification, and/or licensure requirements for all relevant workers (e.g., OSHA 10, OSHA 30)?	Whiting-Turner has a project specific safety policy as well as our corporate policy that meets or exceeds OSHA standards. All subcontractors contracted to the project will be required to provide their company safety policy.
Will workers on the project receive wages and benefits that will secure an appropriately skilled workforce in the context of the local or regional labor market?	Yes
Does the project have a completed project labor agreement?	No

Additional Questions

Does the project prioritize local hires?	Yes
Does the project have a Community Benefit Agreement?	No

Total square footage funded by CPF dollars (Actual)	15,000
Does the Multi-Purpose Community Facility have proximate access to public transportation opportunities?	Yes
Total number of individuals utilizing the capital asset (Actual)	20000

Section 5.1 – General Project Information

Project Name	OGOV Rehoboth Beach Library
Identification Number	19805
Subrecipient	Rehoboth Beach Public Library
Project Description	Renovation of the Rehoboth Beach public library. The funds will be used to provide an environment where resources, internet access, services and programs will be available to all residents and visitors to our community regardless of race, sexual orientation, or socio-economic status. The offerings at the library will enhance patron's ability to search for jobs, complete and submit resumes for potential employment, learn about subjects that can enhance their lives, have access to gathering areas, meeting rooms and private areas for tutoring or business meetings.
Capital Asset Ownership Type	Private
Total amount of CPF funding budgeted for the project	\$3,000,000.00
Total amount budgeted for the project from all funding sources, including but not limited to non-CPF federal funding sources, and private funding source. Be sure to include CPF funding as well.	\$11,675,813.00

Additional Sources of funding, if applicable

Is CPF funding used in conjunction with other federal funding?	No
--	----

Obligations and Expenditures

Current Period Obligation	\$0.00
Cumulative Obligation	\$3,000,000.00
Current Period Expenditure	\$1,500,000.00
Cumulative Expenditure	\$3,000,000.00
Provide a brief description of the major activities on which funds were expended during the reporting period, including costs related to community engagement and any other Ancillary Costs.	After interviewing several candidates, the Board of Trustees hired Whiting Turner as the construction manager at risk for the downtown facility. Representatives from Whiting Turner met with us to discuss the construction schedule. It was determined that the renovations will take place in two phases to allow the library to remain open to the public. Construction is expected to begin in September 2025.

Obligations and Expenditures

Current Period Obligation	\$0.00
Cumulative Obligation	\$750,000.00
Current Period Expenditure	\$0.00
Cumulative Expenditure	\$750,000.00
Provide a brief description of the major activities on which funds were expended during the reporting period, including costs related to community engagement and any other Ancillary Costs.	Our team, which includes members of the library, architectural firm Becker Morgan Group, and our CRM Whiting-Turner, has met every two weeks since April 1, 2024. We celebrated a groundbreaking ceremony on May 3, 2024 but due to a delayed approval from the fire Marshall, we have had to resubmit plans to include the addition of a fire hydrant with 400 ft of the pavilion structure. All permitting has been submitted and approved as of mid-June 2024. Construction began and has progressed on time and without any issues. We anticipate construction completion by the middle of November 2024.

Section 5.2C – Multi-Purpose Community Facility

Multi-Purpose Community Facility Project

Street 1	111 Adams Avenue
Street 2	
City	Lewes
State	Delaware
Zip Code	19958
Is the actual address the same as the planned address?	Yes
Street 1	111 Adams Avenue
Street 2	
City	Lewes
State	Delaware
Zip Code	19958
Type of Investment	New construction

Type of capital asset and number of features

	Number of Features(Planned)	Number of Features(Actual)
Classroom	0	0
Computer Lab	0	0
Multi-purpose Space	1	1
Telemedicine Room	0	0
Other	0	0

Total square footage funded by CPF dollars (Planned)	3,000
Total square footage funded by CPF dollars (Actual)	1,500
If planned and actual numbers are not equal, please provide an explanation.	1500 - the total project is approximately 3,000 square feet, but the ARPA funds are covering half of the total project cost, so 1,500 is half of the pavilion.
Does the Multi-Purpose Community Facility have proximate access to public transportation opportunities?	Yes
Total number of individuals utilizing the capital asset (Actual)	8250
